

2013

FIREARMS

ASK TEN GUN ENTHUSIASTS WHAT "BROWNING" MEANS TO THEM AND YOU WILL HEAR TEN DIFFERENT RESPONSES. THERE MAY BE A STORY ABOUT SHOOTING MALLARDS IN THE WORST WEATHER IMAGINABLE WITH GRANDPA'S AUTO-5. ONE MIGHT BE ABOUT A YEARNED-FOR CITORI EXPLAINED IN DETAIL FROM THE GRADE OF THE WOOD TO THE ENGRAVING ON THE THUMB LEVER. IF THE STORYTELLER IS A VETERAN, IT MIGHT BE A HARROWING TALE INVOLVING THE FIERCE M2 .50 CALIBER MACHINE GUN. THOUGH THE STORIES VARY GREATLY, THE REVERENCE GIVEN TO THE GUNS IN THE STORIES TOLD IS THE SAME. THANKS TO OVER 125 YEARS OF INNOVATION AND QUALITY, NO OTHER GUNMAKER HAS THE BRAND LOYALTY THAT BROWNING BOASTS.

CHOKE TUBE SYSTEMS

INVECTOR-DS

INVECTOR-DS CHOKE SYSTEM

- ◆ Invector-DS choke tubes combine muzzle-end threads and thin-wall construction for a longer, more gradually tapered choke tube.
- ◆ From Skeet to Full, Invector-DS shot patterns tighten consistently in reliable, evenly scaled steps.
- ◆ The longer choke taper produces extremely consistent, dense shot patterns.
- ◆ Muzzle threads minimize the flare at the end of the barrel for improved shotgun appearance. A slightly lighter overall barrel weight is achieved for faster swinging and improved balance.
- ◆ The more gradual taper of Invector-DS choke tubes reduces shot deformation for fewer flyers and gaps in the pattern and allows higher shot velocities for hard hitting performance.
- ◆ A proprietary differential-banded brass seal compresses against the barrel wall when tightened to keep the choke tube threads clean and make installation and removal easier than any other muzzle thread system.
- ◆ Invector-DS is standard on A5 and Citori 725 models.
- ◆ See pages 50 through 53 for a complete line-up of Invector-DS choke tubes.

INVECTOR-Plus™

INVECTOR-PLUS CHOKE SYSTEM

- ◆ The Invector-Plus interchangeable choke tube system works with Vector Pro and back-boring to offer consistent, dense shot patterns with the constriction needed for the shooting situation.
- ◆ The longer choke taper inside an Invector-Plus choke tube produces consistent patterns with more uniform densities and fewer flyers.
- ◆ The Invector-Plus system is far more durable than the choke systems found in competitors' guns, especially with steel shot.
- ◆ Invector-Plus eliminates gases slipping between the choke tube and barrel that could damage the choke tube and the barrel.
- ◆ Invector-Plus is standard on 12 and 20 gauge Maxus, Citori, Cynergy, Silver, BPS and BT-99 models.
- ◆ See pages 50 through 53 for a complete line-up of Invector-Plus choke tubes.

The competitor's choke tube is grooved and pitted after shooting 500 rounds with steel shot.

Browning's Invector-Plus choke tube is still flawless after 500 rounds with steel shot.

STANDARD INVECTOR

STANDARD INVECTOR

- ◆ The Standard Invector interchangeable choke tube system offers consistent, dense shot patterns with the constriction needed for the shooting situation.
- ◆ The Standard Invector system is far more durable than the choke systems found in competitors' guns, especially with steel shot.
- ◆ Standard Invector eliminates gases slipping between the choke tube and barrel that could damage the choke tube and the barrel.
- ◆ Standard Invector is standard on 10, 16 and 28 gauge, and .410 bore Citori, Cynergy, Gold and BPS models.
- ◆ See pages 50 through 53 for a complete line-up of Standard Invector choke tubes.

FOR SMALLER SHOOTERS

MICRO MIDAS FIREARMS

- ◆ Micro Midas firearms are specifically designed to give younger or smaller shooters a high quality, great fitting firearm.
- ◆ Micro Midas firearms are constructed with the same quality components and attention to detail as all Browning firearms.
- ◆ Growth Insurance allows Micro and Micro Midas firearms to grow with the shooter.

BROWNING GROWTH INSURANCE PROGRAM

- ◆ Micro and Micro Midas models are eligible for the Growth Insurance Program that allows new owners to purchase a full-size stock at 50% off the retail price.
- ◆ Growth Insurance allows Micro and Micro Midas firearms to grow with the shooter.
- ◆ Offers you a higher rate of return on your firearm investment.
- ◆ Visit browning.com for complete details.

VECTOR PRO

VECTOR PRO LENGTHENED FORCING CONE

- ◆ Lengthening forcing cones is a popular practice done to increase shot performance. It comes standard on A5, Maxus, BT-99 and 12 and 20 gauge Citori and Cynergy models.
- ◆ The Vector Pro design is better than the competitors' forcing cone designs because it is longer with a more gradual taper.
- ◆ Back-boring increases bore diameter specifications to decrease friction between the shot cup and the bore to minimize shot deformation and maximize pattern uniformity, consistency and density.
- ◆ Vector Pro provides a more gradual constriction on the shot column for fewer deformed pellets. This produces more uniform patterns and keeps more pellets in the central part of the pattern.
- ◆ Vector Pro specifications are perfect. A larger bore diameter lets gases slip by the shot cup, resulting in both reduced pellet velocity and blown patterns. A smaller bore diameter means the forcing cone can deform pellets, leading to flyers and poor ballistic performance.

STEEL SHOT PERFORMANCE

- ◆ Browning barrels meet the strictest material and construction quality standards to handle the punishment of steel shot.
- ◆ Barrel blanks are made from rolled and tempered steel bars and are stress relieved, then precision drilled, reamed and honed to exacting specifications.

After 500 rounds of steel shot, the higher-quality Browning barrel shows no wear.

The forcing cone of the competition's barrel is pitted and damaged beyond repair after 500 rounds of steel shot.

BACK-BORED TECHNOLOGY FOR BETTER PATTERNING

- ◆ Back-boring reduces friction between the shot cup and the bore for increased shot pellet velocity, minimized pellet deformity for more uniform patterns and reduced felt recoil. It is standard on 12 and 20 gauge Browning Silver and BPS models.
- ◆ Browning back-bore specifications have been perfected and represent the ideal bore diameter needed to minimize shot deformation and maximize pattern uniformity, consistency and density.
- ◆ A larger bore diameter lets gases slip by the shot cup, resulting in reduced pellet velocity and blown patterns. A smaller diameter forcing cone can deform pellets, leading to flyers and poor ballistic performance.

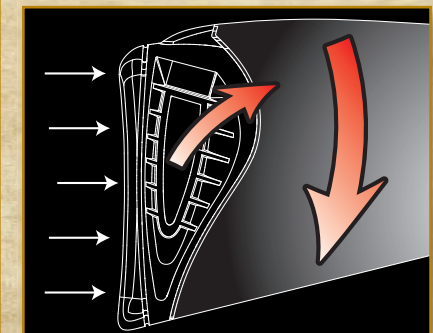

INFLEX II TECHNOLOGY RECOIL PAD

- ◆ The Inflex II Technology recoil pad is made from a softer new outer material for the best recoil absorbing performance available.
- ◆ Internal directional deflection construction guides the comb down and away from your face for greater shooting comfort and faster, more accurate follow-up shots.
- ◆ The new pad material is super slippery to prevent snagging on your clothing when shouldering.

INFLEX TECHNOLOGY RECOIL PAD

- ◆ The original long-travel Inflex Technology recoil pad system (available on select models) provides a massive 25% decrease in felt recoil on 12 gauge guns and makes recoil virtually non-existent on small gauge guns.
- ◆ A slick Parylene coating prevents the pad from snagging on clothing and allows the recoil pad to remain soft.
- ◆ Three pad lengths are available in ½" increments to provide length of pull adjustment to fit a wide variety of shooters. See pages 24-25 for accessories.

STOCK FINISHES

DURA-TOUCH[®] Armor Coating

MAXIMUM GRIP

- ◆ Dura-Touch[®] Armor Coating is extremely durable.
- ◆ Improves grip in wet and cold conditions.

CONCEALMENT

- ◆ Mossy Oak[®] camo patterns are featured on all Browning shotguns.
- ◆ Ultra-realistic Mossy Oak patterns are developed to maximize concealment.

**FIRE
LITE**
MECHANICAL
TRIGGER

FIRE LITE MECHANICAL TRIGGER

- ◆ Exclusive mechanical trigger design.
- ◆ Unlike an inertia trigger, Fire Lite does not rely on recoil to set the next shot; instead, it offers immediate second shot capability.
- ◆ Features less take up, a crisp break and shorter overtravel.

HIGH GRADE.

THE BROWNING HIGH GRADE PROGRAM. STATE OF THE ART.

BEGINNING IN 2013, WE ARE STARTING A NEW HIGH GRADE PROGRAM. EACH YEAR, TWO EXQUISITE FIREARMS WILL BE ADDED TO THE LINE. THESE LIMITED EDITIONS WILL INCLUDE ADDITIONAL ENGRAVING, GOLD ACCENTS, HIGH-GRADE WOOD AND OTHER FEATURES THAT SEPARATE THEM FROM STANDARD MODELS. TWO CITORI 725 MODELS ARE KICKING OFF THE PROGRAM, THE GRADE III AND THE GRADE V SHOWN ABOVE. THESE SPECIMENS ARE RICH, BEAUTIFUL AND SURE TO BE IN HIGH DEMAND. GET YOURS TODAY.

MOSSY OAK
BREAK-UP
INFINITY

ERGO BALANCED

- ◆ Incredibly balanced in the hands from pad to muzzle.
- ◆ Facilitates a light feel and fast swing.
- ◆ Promotes follow through.
- ◆ Places front hand closer to the bore line for superior hand eye coordination and pointability.

GET THE HUMPBACK ACQUISITION ADVANTAGE

- ◆ Extends the sight plane for faster, more natural sight alignment.
- ◆ Speeds target acquisition.

ERGONOMIC BOLT LATCH

- ◆ Conveniently located just ahead of the trigger guard.
- ◆ Locks the bolt to the rear when the magazine is unloaded and releases a shell from the magazine when the bolt is closed for faster loading.
- ◆ Oversized shape makes the bolt latch easy to locate and operate with or without gloves.

KINEMATIC DRIVE SYSTEM

- ◆ Kinetic energy is defined as the energy of motion.
- ◆ The A5 uses kinetic energy to power the recoil-operated Kinematic Drive System.
- ◆ Simplicity of design for consistent, reliable function with any load and under the full extremes of weather, temperature, moisture and grime.
- ◆ Kinematic Drive is so reliable that the A5 is the first ever autoloading shotgun to carry a 100,000-round or five-year guarantee – come hell or high water.
- ◆ Clean operation because gases are sent out the barrel and away from the action.
- ◆ Extreme load versatility for reliable performance with virtually all loads down to one ounce light target with no adjustments.

SPEED LOAD PLUS

- ◆ Patented feeding system sends the first shell you load into the magazine directly into the chamber.
- ◆ Speed Unload feature makes emptying the magazine fast and easy, without chambering and ejecting every shell with the bolt handle.

TURNKEY MAGAZINE PLUG

- ◆ The patented TurnKey Magazine Plug is easily removed in seconds using a car key.

LOCKING BOLT AND HINGE PIN

- ◆ Unlike other low-profile over and unders, the Citori 725 features a transverse-mounted, full-width tapered locking bolt and full-width hinge pin like other Citori models for maximum strength and longevity.
- ◆ The locking bolt engages a full-width tapered recess in the monoblock. Tapering the bolt and recess allows the bolt to seat deeper over time, accommodating for wear.

The Citori 725's full-width hinge pin provides maximum strength and long-lasting endurance.

The competitor's trunnions provide only a fraction of the bearing surface that the Citori 725's full-width hinge pin provides.

725 Sporting Engraving, Right

THE NEW GENERATION OF PERFECTION.

THE POPULARITY OF THE BROWNING CITORI CAN'T BE DENIED. THESE ROBUST SHOTGUNS ARE QUICK HANDLING, LONG LASTING PERFORMERS WITH AN EYE ON STYLE AND BEAUTY. THOSE SAME QUALITIES CARRY INTO THE NEW CITORI 725. THE LOW PROFILE RECEIVER MAKES IT FASTER TO POINT, LIGHTER TO CARRY AND CONTROLS RECOIL BETTER THAN EVER — ALL WITHOUT GIVING AWAY THE STRENGTH FOR WHICH THE CITORI IS RENOWNED.

PALM SWELL

- ◆ Aids in control.
- ◆ Optimizes finger-to-trigger placement.
- ◆ Provides a comfortable, secure grip.

TRIPLE TRIGGER SYSTEM

- ◆ The Triple Trigger System fine tunes finger-to-trigger reach.
- ◆ Includes three trigger shoes: wide checkered, narrow smooth and wide smooth canted.

PRODUCTS **NEW** FOR 2013 ARE INDICATED BY RED TEXT

ERGO BALANCED

- ◆ Incredibly balanced in the hands from pad to muzzle.
- ◆ Facilitates a light feel and fast swing.
- ◆ Promotes follow through.
- ◆ Places front hand closer to the bore line for superior hand eye coordination and pointability.

Improved recoil control and less muzzle jump are two of the big benefits of a low profile receiver. There is also the "one with the gun" feeling that makes the Citori 725 feel like an extension of the body.

FIRE LITE MECHANICAL TRIGGER

- ◆ Exclusive mechanical trigger design.
- ◆ Unlike an inertia trigger, Fire Lite does not rely on recoil to set the next shot; instead, it offers immediate second shot capability.
- ◆ Features less take up, a crisp break and shorter overtravel.

The mechanical Fire Lite Mechanical Trigger is light, crisp and has minimal overtravel. With no hammer to set, you get instantaneous second shot capability.

OUR BEAUTY IS MORE THAN SKIN DEEP.

EVERY BROWNING CITORI UNDERGOES AN EXTENSIVE HAND FITTING PROCESS THAT ENSURES TIGHT TOLERANCES BETWEEN COMPONENTS FOR MAXIMUM STRENGTH, LIFESPAN AND FINISH APPEARANCE. THIS LABOR INTENSIVE PROCESS ELEVATES THE QUALITY OF THE CITORI BEYOND OTHER OVER AND UNDERS AND ENSURES IT WILL BE YOUR GO-TO SHOTGUN FOR EVERY PHEASANT, QUAIL OR DOVE HUNT YOU PARTAKE IN FOR YEARS AND YEARS TO COME.

CITORI

CITORI 625 FEATHER, SMALL GAUGE

GAUGE: 20 (SHOWN), 28, .410
GLOSS OIL FINISH STOCK AND FOREARM

RECEIVER Lightweight alloy with steel breech face and hinge pin
• High-relief engraving **BARREL** Lightweight profile • Ventilated rib
ACTION Single selective trigger • Hammer ejectors • Top-tang barrel selector/safety **STOCK** Gloss oil finish Grade II/III walnut stock with close radius pistol grip • Schnabel forearm **FEATURES** Vector Pro lengthened forcing cones on 20 • Three Invector-Plus choke tubes with 20 • Three Standard Invector choke tubes with 28 and .410 • Ivory front bead sight

Citori 625 Feather Small Gauge, Right

CITORI 625 FIELD, SMALL GAUGE

GAUGE: 20 (SHOWN), 28, .410
GLOSS OIL FINISH STOCK AND FOREARM

RECEIVER Steel • Silver nitride finish • High-relief engraving **BARREL** Lightweight profile • Ventilated rib **ACTION** Single selective trigger • Hammer ejectors • Top-tang barrel selector/safety **STOCK** Gloss oil finish Grade II/III walnut stock with close radius pistol grip • Schnabel forearm **FEATURES** Vector Pro lengthened forcing cones on 20 • Three Invector-Plus choke tubes with 20 • Three Standard Invector choke tubes with 28 and .410 • Ivory front bead sight • Mid-bead sight

Citori 625 Field Small Gauge, Left Citori 625 Field Small Gauge, Right

CITORI SUPERLIGHT FEATHER

GAUGE: 12, 20 (SHOWN)
GLOSS FINISH STOCK AND FOREARM

RECEIVER Lightweight alloy with steel breech face and hinge pin • High-relief engraving **BARREL** Ventilated rib **ACTION** Single selective trigger • Hammer ejectors • Top-tang barrel selector/safety **STOCK** Gloss finish walnut • English-style straight grip stock • Schnabel forearm **FEATURES** Vector Pro lengthened forcing cones • Three Invector-Plus choke tubes • Silver front bead sight

CITORI LIGHTNING FEATHER COMBO

GAUGE: 20, 28
GLOSS FINISH STOCK AND FOREARM

RECEIVER Lightweight alloy with steel breech face and hinge pin • High-relief engraving **BARRELS** Combo includes 3" chambered 20 gauge and 2¾" chambered 28 gauge barrels in 27" length • Ventilated rib **ACTION** Single selective trigger • Hammer ejectors • Top-tang barrel selector/safety **STOCK** Gloss finish walnut • Lightning-style stock and forearm **FEATURES** Vector Pro lengthened forcing cones on 20 gauge barrels • Three Invector-Plus 20 gauge choke tubes • Three Standard Invector 28 gauge choke tubes • Silver front bead sight • Fitted luggage case included

Fitted case included.

CITORI 625 SPORTING SMALL GAUGE

GAUGE: 20 (SHOWN), 28, .410
GLOSS OIL FINISH STOCK AND FOREARM

RECEIVER Steel • Silver nitride finish • High-relief engraving with gold embellishment **BARRELS** Ventilated top and side rib • Tapered, floating top rib • Ported on 20 **ACTION** Single selective trigger • Hammer ejectors • Top-tang barrel selector/safety **STOCK** Gloss oil finish Grade III/IV walnut stock with close radius pistol grip and right-hand palm swell • Schnabel forearm **FEATURES** Vector Pro lengthened forcing cones on 20 • Five Diamond Grade extended Invector-Plus choke tubes with 20 • Five Diamond Grade extended Standard Invector choke tubes with 28 and .410 • Sporting recoil pad • Triple Trigger System • HiViz® Pro-Comp fiber-optic sight • Mid-bead sight

Citori 625 Sporting
Small Gauge, Bottom

Citori 625 Sporting Small Gauge, Right

**CITORI XS SPECIAL
WITH HIGH-POST RIB
AND ADJUSTABLE COMB**

GAUGE: 12
SATIN FINISH STOCK AND FOREARM

RECEIVER Steel • Silver nitride finish • Gold accented, high-relief XS Special engraving
BARREL Lightweight profile • Ventilated top and side ribs • Tapered, floating high-post top rib • Ported
ACTION Single selective trigger • Hammer ejectors • Top-tang barrel selector/safety
STOCK Satin finish walnut with right-hand palm swell • Adjustable comb
• Semi-beavertail forearm with finger grooves • Ideal for skeet and sporting clays
FEATURES Vector Pro lengthened forcing cones • Five Invector-Plus Midas Grade choke tubes • Triple Trigger System • HiViz® Pro-Comp fiber-optic sight

CITORI XS SKEET

GAUGE: 12 (SHOWN), 20
SATIN FINISH STOCK AND FOREARM

RECEIVER Steel • Silver nitride finish • Gold accented, high-relief engraving
BARREL Lightweight profile • Ventilated top and side ribs • Tapered, floating high-post top rib • Ported
ACTION Single selective trigger • Hammer ejectors • Top-tang barrel selector/safety
STOCK Satin finish Grade III/IV walnut with right-hand palm swell
• Semi-beavertail forearm with finger grooves
FEATURES Vector Pro lengthened forcing cones • Three Invector-Plus choke tubes • Triple Trigger System • HiViz® Pro-Comp fiber-optic sight • Mid-bead sight • Adjustable comb optional

**CITORI XT TRAP GOLD
WITH ADJUSTABLE COMB**

GAUGE: 12
GLOSS FINISH STOCK AND FOREARM

RECEIVER Steel • Silver nitride finish • Gold engraving of a game bird transforming into a clay target
BARREL Ventilated top and side ribs • Tapered, floating high-post top rib • Ported
ACTION Single selective trigger • Hammer ejectors • Top-tang barrel selector/safety
STOCK Gloss finish Grade V/VI walnut with right-hand palm swell • Semi-beavertail forearm with finger grooves
FEATURES Vector Pro lengthened forcing cones • Three Invector-Plus choke tubes • Triple Trigger System • HiViz® Pro-Comp sight • Mid-bead sight • Adjustable straight comb • Adjustable GraCoil® recoil reduction system

CITORI XT TRAP

GAUGE: 12
GLOSS FINISH STOCK AND FOREARM

RECEIVER Steel • Silver nitride finish • Gold accented, high-relief engraving
BARREL Ventilated top and side ribs • Tapered, floating high-post top rib • Ported
ACTION Single selective trigger • Hammer ejectors • Top-tang barrel selector/safety
STOCK Gloss finish Grade III/IV walnut with right-hand palm swell • Semi-beavertail forearm with finger grooves
FEATURES Vector Pro lengthened forcing cones • Three Invector-Plus choke tubes • Triple Trigger System • HiViz® Pro-Comp sight • Mid-bead sight • Adjustable straight comb optional • Mid-bead sight

SPECIFICATIONS

CITORI

FAST FORWARD TO THE FUTURE.

THE BROWNING CYNERGY DOESN'T LOOK LIKE OTHER OVER AND UNDER SHOTGUNS BECAUSE IT ISN'T AT ALL LIKE THEM. THE ULTRA LOW PROFILE RECEIVER IS POSSIBLE THANKS TO THE INNOVATIVE MONOLOCK HINGE DESIGN THAT OFFERS INCREASED STRENGTH AND SURFACE COMPARED TO TRADITIONAL TRUNNION DESIGNS. FLOWING LINES DOMINATE THE APPEARANCE OF THE CYNERGY AND MAKE IT LOOK AS FAST AS IT POINTS AND SWINGS. THE CYNERGY IS A SHOTGUN THAT MUST BE HANDLED TO BE FULLY APPRECIATED. PUT YOUR HANDS ON ONE TODAY.

RECEIVER Steel • Silver nitride finish • Ultra-low profile • Jewelled monobloc • MonoLock Hinge **BARREL** Lightweight profile • Tapered floating top rib • Ported **ACTION** Reverse Striker ignition system • Impact Ejectors • Top-tang barrel selector/safety **STOCK** Gloss finish Monte Carlo Grade III/IV walnut stock with right-hand palm swell • Modified semi-beavertail forearm with finger grooves **FEATURES** Vector Pro lengthened forcing cones • Three Invector-Plus Midas Grade choke tubes • Triple Trigger System • HiViz® Pro-Comp fiber-optic sight • Ivory mid-bead sight

CYNERGY CLASSIC TRAP UNSINGLE COMBO WITH ADJUSTABLE COMB

GAUGE: 12
GLOSS FINISH STOCK AND FOREARM

RECEIVER Steel • Silver nitride finish • Ultra-low profile • Jewelled monobloc • MonoLock Hinge **BARREL** Double and single barrel sets included • Lightweight profile over and under barrel set • Single barrel set features an adjustable Unsingle rib for fine-tuning of rib angle for sight picture and point of impact • Ported **ACTION** Reverse Striker ignition system • Impact Ejectors • Top-tang barrel selector/safety **STOCK** Gloss finish Monte Carlo Grade III/IV walnut stock with right-hand palm swell • Modified semi-beavertail forearm with finger grooves **FEATURES** Vector Pro lengthened forcing cones • Four Invector-Plus Midas Grade choke tubes • Triple Trigger System • HiViz® Pro-Comp fiber-optic sight • Ivory mid-bead sight • Green canvas fitted case with Cynergy logo

Canvas case included.

CYNERGY ACCESSORIES

Recoil Pads for Composite Models*

Recoil Pads for Wood Models*

Spacers

Composite Model Adjustable Comb

*NOTE: All new guns are shipped with medium pads.

REVERSE STRIKER MECHANICAL TRIGGER

- ◆ The Reverse Striker is a striker-based, mechanical trigger system that does not use inertia to set the hammers.
- ◆ Reverse Striker offers the benefits of a crisp feel, reduced locktime and less overtravel than other over and under shotguns.
- ◆ Because inertia is not needed for the hammers to set, the design eliminates the possibility of the second barrel not firing.
- ◆ Cynergy target models are equipped with the Triple Trigger System, allowing finger to trigger length adjustment and the ability to switch between styles of trigger shoes: Wide checked, narrow smooth or wide smooth canted.

ADJUSTABLE COMB

- ◆ Composite models include an integrated, adjustable comb system that allows the gun to be easily customized.
- ◆ Drop at comb adjustments are made in 1/8" increments.
- ◆ For cast on/cast off customizing, accessory combs are available on page 25.

SUPERIOR GRIPPING SURFACES

- ◆ Composite Cynergy models combine molded-in rubberized textured gripping surfaces.
- ◆ Proven Dura-Touch® Armor Coating adds a sure hold and a sleek feel in all climates and weather conditions.

IMPACT EJECTORS

- ◆ Impact Ejectors are aided by the punch of a secondary striker spring for positive, reliable ejection of fired hulls from the chambers.
- ◆ Unfired shells are elevated for easy removal.

MONOLOCK HINGE

- ◆ The strong MonoLock Hinge design is the engineering behind the Cynergy's low profile receiver.
- ◆ Integrates the monobloc and the hinge for up to 300% more surface area to pivot on than traditional trunion-style hinges.
- ◆ Rectangular locking pins provide extra strength and feature a "Wear-In Relief" that keeps the action tight.
- ◆ Jewelings adds a beautiful appearance, smoother function and improves durability.

CHROME CHAMBERS

- ◆ Cynergy shotguns feature hard chrome-plated chambers.
- ◆ Increased durability and corrosion resistance.

BT-99 ONE SHOT, ONE OF A KIND.

BT-99 GOLDEN CLAYS WITH ADJUSTABLE COMB

GAUGE: 12
GLOSS FINISH STOCK AND FOREARM

RECEIVER Steel • Silver nitride finish • Gold accented, high-relief engraving **BARREL** High-post ventilated rib • Ported **ACTION** Extractor only **STOCK** Gloss finish Grade V/VI walnut • Beavertail forearm **FEATURES** Vector Pro lengthened forcing cone • Three Invector-Plus choke tubes • Adjustable straight comb • Adjustable GraCoil® recoil reduction system • Ivory front and mid-bead sights

BT-99

GAUGE: 12
SATIN FINISH STOCK AND FOREARM

RECEIVER Steel • Blued finish **BARREL** High-post ventilated rib **ACTION** Extractor only **STOCK** Satin finish walnut • Beavertail forearm **FEATURES** Vector Pro lengthened forcing cone • Adjustable straight comb optional • Recoil pad • One Invector-Plus choke tube • Ivory front and mid-bead sights

Grade III with Adjustable Comb

Grade III

BT-99 GRADE III

GAUGE: 12
GLOSS FINISH STOCK AND FOREARM

RECEIVER Steel • Silver nitride finish • Gold accented, high-relief engraving **BARREL** High-post ventilated rib • Ported **ACTION** Extractor only **STOCK** Gloss finish Monte Carlo Grade III/IV walnut stock • Beavertail forearm **FEATURES** Vector Pro lengthened forcing cone • Three Invector-Plus choke tubes • Adjustable comb optional • Ivory front and mid-bead sights

Grade III, Left

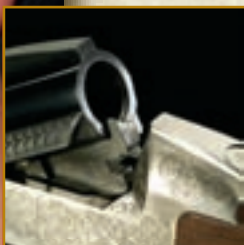

Grade III, Right

FOREARM

- ◆ A beavertail forearm helps control recoil and assists hand-eye coordination.

RIB

- ◆ High-post, 1/2" rib offers natural sighting and target acquisition.

EXTRACTOR

- ◆ The BT-99 features an extractor that lifts hulls for easy extraction.

CHROME CHAMBER

- ◆ The chrome-plated chamber resists wear and corrosion.

TAKE IT TO THE MAX.

MAXIMUM PERFORMANCE, MAXIMUM RELIABILITY, MAXIMUM SPEED — YOU GET THEM ALL WITH THE BROWNING MAXUS. DESIGNED FROM THE OUTSET TO BE DIFFERENT, THE MAXUS IS A FEATURE PACKED FIREARM THAT IS GEARED TO EXCEED YOUR EXPECTATIONS EVERY TIME YOU PULL THE TRIGGER. THE POWER DRIVE GAS SYSTEM IS THE MECHANISM THAT BEATS AT THE HEART OF THE MAXUS. IT HAS BEEN REFINED TO PERFECTION AND EASILY HANDLES A WIDE ARRAY OF LOADS WITH AN ABSOLUTE MINIMUM AMOUNT OF FELT RECOIL FOR GREATER SHOOTING COMFORT AND LESS MUZZLE CLIMB.

DURA-TOUCH® ARMOR COATING ON STOCK AND FOREARM

RECEIVER Strong, lightweight aluminum alloy **BARREL** Thick-walled, fully rifled for slug ammunition **ACTION** Gas-operated autoloader • 3" chamber • Power Drive Gas System reduces recoil and cycles a wide range of loads **STOCK** Composite with close radius pistol grip • Speed Lock Forearm • Textured gripping surfaces • Shim adjustable for length of pull, cast and drop • Mossy Oak® Break-Up Infinity® camo finish • Dura-Touch® Armor Coating **FEATURES** Cantilever scope mount • Inflex Technology recoil pad • One ¼" stock spacer

DURA-TOUCH®
Armor Coating

POWER DRIVE
G A S S Y S T E M

- ◆ Extensive research has produced the most reliable gas piston design ever.
- ◆ The gas piston features larger exhaust ports that dump gases faster with heavy loads to control recoil.
- ◆ 20% longer piston stroke travel increases reliability with light loads.
- ◆ A patented, enclosed seal keeps residue out of the action for cleaner operation.

LESS MUZZLE JUMP

- ◆ The Power Drive Gas System works with the Inflex Technology recoil pad.
- ◆ Reduces muzzle jump up to 44% compared to the competition.

LIGHTNING TRIGGER

- ◆ The Lightning Trigger is the finest fire control system ever offered in an autoloading shotgun.
- ◆ Offers a smooth, crisp feel with minimal travel.
- ◆ Locktimes average .0052 seconds, 24% faster than the nearest competing autoloader.
- ◆ Easy to remove for cleaning.

THE SOFTEST SHOOTING AUTOLOADER EVER

- ◆ Felt recoil is more than an instantaneous peak force; it is the total energy absorbing experience you feel when a shell is fired.
- ◆ The Power Drive Gas System, Inflex Technology recoil pad, back-boring and natural Browning balance combine to transfer up to 18% less total felt recoil force on your shoulder than other autoloaders on the market.

DURA-TOUCH
Armor Coating

**MAXUS
RIFLED DEER STALKER**

GAUGE: 12
DURA-TOUCH® ARMOR COATING ON STOCK AND FOREARM

RECEIVER Strong, lightweight aluminum alloy **BARREL** Thick-walled, fully rifled for slug ammunition **ACTION** Gas-operated autoloader • 3" chamber • Power Drive Gas System reduces recoil and cycles a wide range of loads **STOCK** Composite with close radius pistol grip • Speed Lock Forearm • Textured gripping surfaces • Shim adjustable for length of pull, cast and drop • Matte black finish • Dura-Touch® Armor Coating **FEATURES** Cantilever scope mount • Inflex Technology recoil pad • One ¼" stock spacer

DURA-TOUCH
Armor Coating

MAXUS STALKER

GAUGE: 12
DURA-TOUCH® ARMOR COATING ON STOCK AND FOREARM

RECEIVER Strong, lightweight aluminum alloy **BARREL** Lightweight profile • Flat, ventilated rib **ACTION** Gas-operated autoloader • 3" and 3½" chamber models • Power Drive Gas System reduces recoil and cycles a wide range of loads **STOCK** Composite with close radius pistol grip • Speed Lock Forearm • Textured gripping surfaces • Shim adjustable for length of pull, cast and drop • Matte black finish • Dura-Touch® Armor Coating **FEATURES** Vector Pro lengthened forcing cone • Three Invector-Plus choke tubes • Inflex Technology recoil pad • Magazine Cut-Off • One ¼" stock spacer • Brass front bead sight

NEW

New Camo
for 2013

DURA-TOUCH
Armor Coating

**MAXUS,
MOSSY OAK® SHADOW GRASS BLADES**

GAUGE: 12
DURA-TOUCH® ARMOR COATING ON STOCK AND FOREARM

RECEIVER Strong, lightweight aluminum alloy **BARREL** Lightweight profile • Flat, ventilated rib **ACTION** Gas-operated autoloader • 3" and 3½" chamber models • Power Drive Gas System reduces recoil and cycles a wide range of loads **STOCK** Composite with close radius pistol grip • Speed Lock Forearm • Textured gripping surfaces • Shim adjustable for length of pull, cast and drop • Mossy Oak® Shadow Grass BLADES camo finish • Dura-Touch® Armor Coating **FEATURES** Vector Pro lengthened forcing cone • Three Invector-Plus choke tubes • Inflex Technology recoil pad • Magazine Cut-Off • One ¼" stock spacer • Brass front bead sight

OPTIMAL DIMENSIONS

- ◆ The Maxus features a trim forearm and close radius pistol grip to maximize control.
- ◆ An externally relieved steel magazine tube reduces weight for a faster swing while retaining durability.
- ◆ Drop and cast can be tuned using the included stock shim kit.
- ◆ A low rib is in line with the top of the receiver and translates into dead-flat point of impact.

SHOTGUNS
BROWNING.COM

SPEED LOCK FOREARM

- ◆ The patented Speed Lock Forearm replaces the traditional screw-on magazine cap.
- ◆ Makes taking down the Maxus for cleaning or storage fast.
- ◆ Makes attaching or removing the sling a snap.

TURNKEY MAGAZINE PLUG

- ◆ The patented TurnKey Magazine Plug is easily removed in seconds using a car key.

- ◆ Patented feeding system sends the first shell loaded into the magazine directly into the chamber.
- ◆ Speed Unload feature makes emptying the magazine fast and easy, without chambering and ejecting every shell using the bolt handle.

SPEED LOAD PLUS

MAGAZINE CUT-OFF

- ◆ The magazine cut-off (not available on Sporting and Deer models) allows the chamber to be unloaded to change loads without cycling a shell from the magazine.
- ◆ Useful when hunting different bird species and different loads are instantly required.

SATIN FINISH STOCK AND FOREARM

Eligible for the Growth Insurance Program. See page 2 for details.

RECEIVER Strong, lightweight aluminum alloy • Semi-humpback design • Silver finish **BARREL** Lightweight profile • Ventilated rib **ACTION** Gas-operated autoloader • 3" chamber • Active Valve System reliably cycles a wide range of loads **STOCK** Satin finish • Compact 13" length of pull for smaller shooters **FEATURES** Three Invector-Plus choke tubes • One ¼" stock spacer • Brass front bead sight

SILVER HUNTER
GAUGE: 12 (SHOWN), 20
SATIN FINISH STOCK AND FOREARM

RECEIVER Strong, lightweight aluminum alloy • Semi-humpback design • Silver finish **BARREL** Lightweight profile • Ventilated rib **ACTION** Gas-operated autoloader • 3" and 3½" chamber models • Active Valve System reliably cycles a wide range of loads **STOCK** Satin finish walnut **FEATURES** Three Invector-Plus choke tubes • Brass front bead sight

SILVER MICRO
GAUGE: 20
SATIN FINISH STOCK AND FOREARM

Eligible for the Growth Insurance Program. See page 2 for details.

RECEIVER Strong, lightweight aluminum alloy • Semi-humpback design • Silver finish **BARREL** Lightweight profile • Ventilated rib **ACTION** Gas-operated autoloader • 3" chamber • Active Valve System reliably cycles a wide range of loads **STOCK** Satin finish walnut • Compact stock dimensions fit smaller shooters **FEATURES** Three Invector-Plus choke tubes • Brass front bead sight

**SILVER
SPORTING MICRO**
GAUGE: 12
GLOSS FINISH STOCK AND FOREARM

Eligible for the Growth Insurance Program. See page 2 for details.

RECEIVER Strong, lightweight aluminum alloy • Semi-humpback design • Silver finish **BARREL** Lightweight profile • Ventilated rib • Ported **ACTION** Gas-operated autoloader • 2¾" chamber • Active Valve System reliably cycles a wide range of loads **STOCK** Gloss finish walnut • Stock features ¾" length of pull adjustment in ¼" increments using the three included adjustment spacers • Premium Pachmayr® Decelerator® recoil pad **FEATURES** Three Invector-Plus choke tubes • Brass front bead sight • Mid-bead sight

SILVER SPORTING
GAUGE: 12
GLOSS FINISH STOCK AND FOREARM

RECEIVER Strong, lightweight aluminum alloy • Semi-humpback design • Silver finish **BARREL** Lightweight profile • Ventilated rib • Ported **ACTION** Gas-operated autoloader • 2¾" chamber • Active Valve System reliably cycles a wide range of loads **STOCK** Gloss finish walnut stock and forearm • Stock features ¾" length of pull adjustment in ¼" increments using the three included adjustment spacers • Premium Pachmayr® Decelerator® recoil pad **FEATURES** Three Invector-Plus choke tubes • HiViz® TriComp fiber-optic sight • Two Active Valve pistons included to optimize performance with light or heavy loads • Mid-bead sight

SILVER

LOAD VERSATILITY

- ◆ The Active Valve-equipped gas piston efficiently adjusts to reliably fire a wide range of loads.
- ◆ 12 gauge 3" models fire everything from light, 1 oz., 2¾" target loads to the heaviest 3" magnums. The 3½" version is built to handle a similar range, from 1½ oz., 2¾" field loads up to hard-hitting 3½" magnum loads.

MAGAZINE CAPACITY

- ◆ 2¾": Four in magazine, one in chamber
- ◆ 3": Three in magazine, one in chamber
- ◆ 3½": Three in magazine, one in chamber
- ◆ A three-shot magazine adaptor plug is included.

SILVER LIGHTNING FULL LINE DEALER

GAUGE: 12
GLOSS FINISH STOCK AND FOREARM

RECEIVER Aluminum alloy • Semi-humpback design • Silver finish **BARREL** Lightweight profile • Ventilated rib **ACTION** Gas-operated autoloader • 3" and 3½" chamber models • Active Valve System reliably cycles a wide range of loads **STOCK** Lightning-style, gloss finish walnut **FEATURES** Three Invector-Plus choke tubes • Brass front bead sight • Available only from Browning Full Line and Medallion Dealers

SILVER STALKER

**SILVER
RIFLED DEER SATIN**

GAUGE: 20
SATIN FINISH STOCK AND FOREARM

RECEIVER Aluminum alloy • Semi-humpback design **BARREL** Thick-walled for slug ammunition **ACTION** Gas-operated autoloader • 3" chamber • Active Valve System reliably cycles a wide range of loads **STOCK** Satin finish walnut **FEATURES** Cantilever scope mount (Scope and rings not included)

TRIGGER

- ◆ The trigger assembly can be removed in just seconds for a thorough cleaning.
- ◆ The trigger guard is large and has carefully rounded edges to accommodate gloved fingers.

MAXIMUM GRIP

- ◆ Composite Silver models combine checkered gripping surfaces and proven Dura-Touch® Armor Coating for a sure hold and a sleek feel in all climate conditions.

LESS RECOIL WITH THE ACTIVE VALVE

- ◆ The self-adjusting Active Valve gas system in Silver autoloaders diverts gases from fired shells to operate the action instead of adding to recoil.
- ◆ When shooting light loads, most of the gases operate the action.
- ◆ With magnum loads, only a small amount of gas is necessary to operate the action, while the remaining gases are vented out the top of the forearm and away from the receiver for cleaner, more reliable operation.
- ◆ Superior recoil reduction from the Active Valve means faster, more accurate follow-up shots and all-day shooting comfort regardless of the loads being fired.

Light Load (1 oz.)

Heavy Load (2 oz.)

PUMP UP THE ACTION.

MOST PUMP SHOTGUNS ARE DESIGNED STRICTLY FOR THE ENTRY LEVEL SHOOTER. THESE MODELS WORK FINE AND ARE PRICED LOW ENOUGH, UNFORTUNATELY THEIR QUALITY ALSO MATCHES THEIR COST. IF YOU DEMAND QUALITY AND RELIABILITY FROM YOUR PUMP SHOTGUN, THEN YOU ARE IN THE RIGHT PLACE. THE BROWNING BPS IS NOTHING SHORT OF LEGENDARY. THE RUGGED STEEL RECEIVER AND DUAL ACTION BARS KEEP YOU PUMPING UNTIL YOUR LIMIT IS FULL, MUD OR DUST, RAIN OR SHINE.

SATIN FINISH STOCK AND FOREARM

Eligible for the Growth Insurance Program. See page 2 for details.

RECEIVER Forged and machined steel **BARREL** Ventilated rib **ACTION** Bottom ejection • Dual steel action bars • Top-tang safety **STOCK** Satin finish walnut • Compact 13" length of pull • Scaled down to comfortably fit smaller shooters **FEATURES** Three Invector-Plus choke tubes with 12 and 20 • Three Standard Invector choke tubes with 28 and .410 • Inflex Technology recoil pad on 12 gauge model • Two ¼" stock spacers • Silver colored front bead sight

BPS HUNTER

GAUGE: 12 (SHOWN), 16, 20, 28, .410
SATIN FINISH STOCK AND FOREARM

RECEIVER Forged and machined steel **BARREL** Ventilated rib **ACTION** Bottom ejection • Dual steel action bars • Top-tang safety **STOCK** Satin finish walnut **FEATURES** Three Invector-Plus choke tubes with 12 and 20 • Three Standard Invector choke tubes with 16, 28 and .410 • Recoil pad on 12 gauge model • Silver colored front bead sight

BPS UPLAND SPECIAL

GAUGE: 12, 16, 20 (SHOWN)
SATIN FINISH STOCK AND FOREARM

RECEIVER Forged and machined steel **BARREL** Ventilated rib **ACTION** Bottom ejection • Dual steel action bars • Top-tang safety **STOCK** Satin finish walnut • English-style straight grip **FEATURES** Three Invector-Plus choke tubes with 12 and 20 • Three Standard Invector with 16 • Silver colored front bead sight

BPS MICRO

GAUGE: 20
SATIN FINISH STOCK AND FOREARM

Eligible for the Growth Insurance Program. See page 2 for details.

RECEIVER Forged and machined steel **BARREL** Compact 22" length • Ventilated rib **ACTION** Bottom ejection • Dual steel action bars • Top-tang safety **STOCK** Satin finish walnut • Compact dimensions to suit smaller shooters **FEATURES** Three Invector-Plus choke tubes • Silver colored front bead sight

BPS RIFLED DEER HUNTER

GAUGE: 12 (SHOWN), 20
SATIN FINISH STOCK AND FOREARM

RECEIVER Forged and machined steel **BARREL** Thick-walled for slug and sabot ammunition only • Rifled, 12 gauge: 1 in 28" twist, 20 gauge: 1 in 35" twist **ACTION** Bottom ejection • Dual steel action bars • Top-tang safety **STOCK** Satin finish walnut **FEATURES** Cantilever scope mount

BPS STALKER

GAUGE: 12

NON-GLARE COMPOSITE FINISH STOCK AND FOREARM

RECEIVER Forged and machined steel **BARREL** Ventilated rib
ACTION Bottom ejection • Dual steel action bars • Top-tang safety **STOCK** Composite • Matte black finish **FEATURES** Three Invector-Plus choke tubes • Silver colored front bead sight

RELIABLE PUMP-ACTION

- ◆ The proven pump-action features rugged steel components.
- ◆ The receiver is machined from a solid block of forged steel.
- ◆ Rigid double slide bars are made from heat-treated steel to eliminate twisting and binding for faster, more efficient slide-action operation.
- ◆ Reliable in all conditions.
- ◆ A convenient serrated slide release is located at the rear of the trigger guard.

BIG BIRDS, BIG BORE.

NO MORE MESSING AROUND. WHEN YOUR QUARRY IS BIG, THERE IS NO SUBSTITUTE FOR A BORE SIZE AND HEFTY SHOT PAYLOAD TO MATCH. WHEN IT COMES TO HEAVY HITTERS, A BROWNING 10 GAUGE SHOTGUN SHOULD BE YOUR FIRST CHOICE.

10 GAUGE

BARREL

- ◆ Rifled 1 in 28" twist barrel.
- ◆ Designed exclusively for use with sabot-type slugs.
- ◆ Superb accuracy. 1½" groups or better are typical at 100 yards.

PERFORMANCE

- ◆ Smooth, anti-bind bolt design.
- ◆ Rotating bolt sleeve.

A SHOTGUN THAT THINKS IT'S A RIFLE.

DEER HUNTING WITH A SHOTGUN MAY BE THE LAW IN YOUR LAND, BUT YOUR GUN OF CHOICE DOESN'T HAVE TO LOOK — OR OPERATE — LIKE ONE. THE A-BOLT SHOTGUN SHARES MANY OF THE SAME FEATURES THAT HAVE MADE OUR SAME-NAME RIFLE SO POPULAR, INCLUDING THE HIGH LEVEL OF ACCURACY.

BARRELS

PICK THE RIGHT CHOKE TUBE.

SELECTING THE RIGHT CHOKE TUBE FOR A SPECIFIC HUNTING SITUATION OR CHALLENGING TARGET PRESENTATION IS A KEY FACTOR TO YOUR SHOOTING SUCCESS. THAT'S WHY WE OFFER SUCH A WIDE SELECTION OF CHOKE TUBES, RANGING FROM EXTRA FULL CONSTRUCTIONS FOR TURKEY HUNTERS TO PATTERN-SPREADING TIMBER N' TEAL TUBES FOR CLOSE-IN WATERFOWLING. EVERY BROWNING CHOKE TUBE IS MADE TO EXACTING STANDARDS TO ENSURE YOU GET THE PATTERN YOU EXPECT.

MIDAS GRADE EXTENDED CHOKE TUBES

- Extends beyond the end of barrel for easy removal and installation
- Stainless steel with black oxide finish
- Laser-etched gold accent band
- Minimum gap geometry plus high-resolution "RMS" finish reduce plastic buildup in bore
- Invector-Plus long taper choke tube technology in 12 and 20 gauge
- 28 gauge and .410 bore are Standard Invector chokes

STANDARD
INVECTOR

INVECTOR-Plus

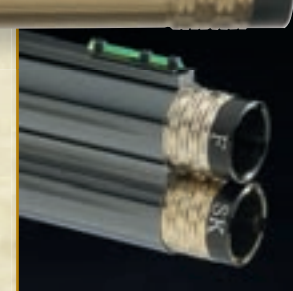

DIAMOND GRADE CHOKE TUBES

- Longer choke taper inside Invector-Plus choke tubes for use with back-bored barrels on 12 and 20 gauge shotguns
- Matching tubes for the Citori 625 Sporting
- 17-4 stainless steel construction
- Absolutely perfect concentricity for superior patterning
- Diamond-cut knurling extends beyond the end of the barrel for easy removal and installation
- Titanium nitride finish with black accent band
- 28 gauge and .410 bore are Standard Invector chokes

STANDARD
INVECTOR

INVECTOR-Plus

DIANA GRADE EXTENDED CHOKE TUBES

- Longer choke taper inside Invector-Plus choke tubes for use with back-bored barrels on 12 and 20 gauge shotguns
- Stainless steel barstock is heat treated prior to machining
- Titanium nitride surface 72HRC hardness for excellent wear and reduced plastic buildup
- Absolutely perfect concentricity for superior patterning
- Extends beyond the barrel for easy removal and installation
- 28 gauge are Standard Invector chokes

INVECTOR-PLUS EXTENDED CHOKE TUBES

- Invector-Plus extended tubes are constructed of highly polished, 17-4 stainless steel for the ultimate in performance and durability
- Available in constrictions ranging from Skeet to Full
- Knurled portion extends beyond the end of the barrel for easy removal and installation
- Longer choke taper inside Invector-Plus choke tubes for use with back-bored barrels
- Produces excellent patterns with uniform densities
- Set to industry constriction standards
- Threaded for 12 gauge Invector-Plus back-bored barrels only

INVECTOR-Plus

INVECTOR-PLUS CHOKE TUBES

- Invector-Plus tubes are available in constrictions ranging from Cylinder to Extra-Full • Longer choke taper inside Invector-Plus choke tubes for use with back-bored barrels • Produces excellent patterns with uniform densities • Set to industry constriction standards • Flush fit tubes do not extend beyond end of barrel (Except XF Turkey and XF Trap models) • Constructed of highly polished, 17-4 stainless steel for the ultimate in performance and durability

INVECTOR-Plus™

STANDARD INVECTOR CHOKE TUBES

- Standard Invector tubes are available in constrictions ranging from Cylinder to Extra-Full • Produces excellent patterns with uniform densities • Set to industry constriction standards • Flush fit tubes do not extend beyond end of barrel (Except XF Trap and XF Turkey models) • Constructed of highly polished, 17-4 stainless steel for the ultimate in performance and durability

STANDARD INVECTOR™

The T-Wrench allows greater leverage to be applied when tightening a tube.

SPECIALTY EXTENDED CHOKE TUBES

- FULL STRUT TURKEY TUBE** Stainless steel with black oxide finish • Camo band • Directional porting • Designed for optimal performance with #4, #5 and #6 shot • Threaded for 12 gauge Invector-Plus back-bored barrels only

- EXPRESS SABOT™ RIFLED CHOKE TUBE** Stainless steel with black oxide finish • Rifled design is extremely effective with both sabot and Foster slugs • Threaded for 12 gauge Invector-Plus back-bored barrels only

INVECTOR-Plus™

GOOSE BAND CHOKE TUBES

- Unique extended design resembles a waterfowl leg band
- 17-4 stainless steel construction • Superior patterning with steel shot
- Threaded for 12 gauge Invector-Plus back-bored barrels only
- Friction wrench is designed specifically for Goose Band choke tubes

INVECTOR-Plus™

Goose Band Detail

12 Gauge Friction Wrench

GRAND PASSAGE EXTENDED CHOKE TUBES

- Mossy Oak® Duck Blind® camo band
- Stainless steel with black oxide finish
- Superior patterning with steel shot
- Threaded for 12 gauge Invector-Plus back-bored barrels only • Timber n' Teal model is helically spun to spin shot, making it excellent for tight timber, teal and close range shooting

DIRTY BIRD CHOKE TUBES **NEW**

- Invector-Plus Dirty Bird choke tubes are available in three constrictions for close, medium and long range shooting
- Specifically designed for steel shot, particularly Winchester® Blind Side® ammunition • Longer choke taper inside Invector-Plus choke tubes for use with back-bored barrels
- Constructed of 17-4 stainless steel for the ultimate in performance and durability • Two pack comes with Long and Close Range tubes • Long Range tube produces a 70% pattern • Medium Range tube produces a 50% pattern • Close Range tube produces a 30% pattern

INVECTOR-DS CHOKE TUBES

INVECTOR-DS CHOKE TUBES

- Fits flush with the end of the barrel but are longer than competitors' tubes • Proprietary differential banded gas seal eliminates residue build up and makes chokes easy to remove and install • Integrated spring suspension holds the seal tight, yet allows expansion against the barrel wall for a perfect fit and a smooth transition for shot column entering choke
- Gas is controlled at the interface between choke and where it seats in the bore • From Skeet to Full choke, patterns tighten consistently and reliably

EXTENDED INVECTOR-DS CHOKE TUBES

- Extends beyond end of barrel for easy removal and even tighter patterns • Proprietary differential banded gas seal eliminates residue build up and makes chokes easy to remove and install • Integrated spring suspension holds the seal tight, yet allows expansion against the barrel wall for a perfect fit and a smooth transition for shot column entering choke
- Gas is controlled at the interface between choke and where it seats in the bore • From Skeet to Full choke, patterns tighten consistently and reliably

TAILORED SHOT PATTERNS

- ◆ Gives you the shot pattern needed for the shooting situation at hand.
- ◆ Invector-DS does this better than any of the competitors' choke systems.
- ◆ From Full to Skeet, the internal geometries of Invector-DS choke tubes have been tested again and again to ensure that patterns tighten consistently and reliably.
- ◆ Invector-DS provides higher pattern percentages.

CHOKE TUBE WRENCHES

The Speed Wrench allows for quick and easy choke removal. Fits most Browning choke tubes.

The T-Wrench allows greater leverage to be applied when tightening a tube.

12 Gauge Friction Wrench

CHOKE TUBES

CITORI SATIN HUNTER MICRO MIDAS

GAUGE: 12 (SHOWN), 20
SATIN FINISH STOCK AND FOREARM

Eligible for the Growth Insurance Program. See page 2 for details.

RECEIVER Steel • Blued finish **BARREL** Ventilated rib **ACTION** Single selective trigger • Hammer ejectors • Top-tang barrel selector/safety **STOCK** Satin finish walnut • Compact 13" length of pull • Scaled down to comfortably fit smaller shooters **FEATURES** Vector Pro lengthened forcing cone • Three Invector-Plus choke tubes • Recoil pad on 12 gauge model • Brass front bead sight

BT-99 MICRO MIDAS

GAUGE: 12
SATIN FINISH STOCK AND FOREARM

NEW

Eligible for the Growth Insurance Program. See page 2 for details.

RECEIVER Steel • Blued finish **BARREL** High-post ventilated rib **ACTION** Extractor only **STOCK** Satin finish walnut • Compact 13" length of pull • Beavertail forearm • Scaled down to comfortably fit smaller shooters **FEATURES** Vector Pro lengthened forcing cone • Recoil pad • One Invector-Plus choke tube • Ivory front and mid-bead sights

Shown with included stock spacers

BPS MICRO MIDAS

GAUGE: 12 (SHOWN), 20, 28, .410
SATIN FINISH STOCK AND FOREARM

NEW

Eligible for the Growth Insurance Program. See page 2 for details.

RECEIVER Forged and machined steel **BARREL** Ventilated rib **ACTION** Bottom ejection • Dual steel action bars • Top-tang safety **STOCK** Satin finish walnut • Compact 13" length of pull • Scaled down to comfortably fit smaller shooters **FEATURES** Three Invector-Plus choke tubes with 12 and 20 • Three Standard Invector with 28 and .410 • Inflex Technology recoil pad on 12 gauge model • Two 1/4" stock spacers • Silver colored front bead sight

SILVER HUNTER MICRO MIDAS

GAUGE: 12 (SHOWN), 20
SATIN FINISH STOCK AND FOREARM

Eligible for the Growth Insurance Program. See page 2 for details.

RECEIVER Strong, lightweight aluminum alloy • Semi-humpback design • Silver finish **BARREL** Lightweight profile • Ventilated rib **ACTION** Gas-operated autoloader • 3" chamber • Active Valve System reliably cycles a wide range of loads **STOCK** Satin finish walnut • Compact 13" length of pull for smaller shooters **FEATURES** Three Invector-Plus choke tubes • Recoil pad • One 1/4" stock spacer • Brass front bead sight

X-BOLT MICRO MIDAS

SATIN FINISH STOCK

X-BOLT

Eligible for the Growth Insurance Program. See page 2 for details.

RECEIVER Steel • Low-luster blued finish • Glass bedded • Drilled and tapped for scope mounts **BARREL** Low-luster blued finish • Free-floating • Hand chambered • Target crown **ACTION** Bolt-action • 60° bolt lift • Adjustable Feather Trigger • Detachable rotary magazine • Top-tang safety • Bolt unlock button **STOCK** Satin finish checkered walnut • Compact 12 1/2" length of pull for smaller shooters **FEATURES** Sling swivel studs installed • Inflex Technology recoil pad (Scope and mounts not included)

MICRO MIDAS
BROWNING.COM

MICRO MIDAS

- ◆ Browning Micro Midas guns are built to a higher standard of quality than other manufacturers' compact models.
- ◆ Micro Midas models feature a compact length of pull and modified stock dimensions to comfortably accommodate the smaller hands and shorter finger-to-trigger reach of smaller shooters.
- ◆ Barrel lengths are shorter to reduce overall weight.
- ◆ All Micro Midas firearms are backed-up by the Growth Insurance Program that allows you to buy full-sized stocks at a great discount when the need arises. It's a guarantee that these little Brownings won't soon be outgrown.

**BL-22 GRADE I
MICRO MIDAS**
GLOSS FINISH STOCK AND FOREARM

Eligible for the Growth Insurance Program. See page 2 for details.

RECEIVER Steel • Blued finish • Grooved for scope mounts **BARREL** Blued finish • Recessed crown **ACTION** Lever-action • Short 33° throw • Tubular magazine **STOCK** Gloss finish walnut • Straight grip • Compact 12" length of pull **FEATURES** Adjustable sights

PRODUCTS **NEW** FOR 2013 ARE INDICATED BY RED TEXT

X-LOCK SCOPE MOUNTING SYSTEM

- ◆ Securely mounted optics are essential for accuracy and precision on any rifle.
- ◆ X-Lock mounts feature a four screws per base design that replaces the traditional two screw system.
- ◆ Offers more accurate placement and more secure attachment to the receiver.

FEATHERTRIGGER™

FEATHER TRIGGER

- ◆ For precise shooting there is absolutely no substitute for a crisp, predictable trigger.
- ◆ The X-Bolt's three-lever Feather Trigger provides a clean, crisp pull with no take-up or creep and minimal overtravel.
- ◆ The trigger is screw adjustable from 3 to 5 lbs. and factory pre-set at approximately 3½ lbs.
- ◆ An alloy trigger housing contains hard chromed steel components that are highly polished on all critical contact surfaces.
- ◆ Does not rely on a secondary finger piece lever, the Feather Trigger was designed right, from the very start.

TOTAL ACCURACY AND PERFORMANCE.

THE BROWNING X-BOLT IS A PERFECT EXAMPLE OF WHAT HAPPENS WHEN OUR DESIGNERS FLEX THEIR ENGINEERING AND CREATIVE MUSCLE. THE X-BOLT GIVES YOU A TON OF RIFLE PERFORMANCE IN A LIGHTWEIGHT PACKAGE, WITH A HOST OF INNOVATIVE FEATURES THAT ENABLE CONVENIENT OPERATION AND TACK-DRIVING ACCURACY, STRAIGHT-FROM-THE-BOX.

BARREL Low-luster blued finish • Free-floating • Hand chambered • Target crown **ACTION** Bolt-action • 60° bolt lift • Adjustable Feather Trigger • Detachable rotary magazine • Top-tang safety • Bolt unlock button
STOCK Satin finish checkered walnut **FEATURES** Sling swivel studs installed • Inflex Technology recoil pad

BOLT UNLOCK BUTTON

- ◆ The bolt unlock button works in conjunction with the top-tang safety to provide an extra margin of safety when checking and unloading the chamber.
- ◆ Located on top of the bolt handle, the bolt unlock button allows the bolt to be unlocked and opened with the tang safety in the on safe position.
- ◆ The convenient tang safety blocks the trigger sear and features a firing pin block for added security.

60° BOLT LIFT

- ◆ Short 60° bolt lift is fast cycling and the hand easily clears the scope.
- ◆ The bolt is machined from solid steel bar stock for strength and custom rifle precision.
- ◆ Three locking lugs provide exceptional bolt strength.

FREE-FLOATING BARREL

- ◆ The X-Bolt barrel is free-floated by bedding the front and rear of the action for stability.
- ◆ Maintains barrel to stock spacing for consistent accuracy.
- ◆ The recessed muzzle crown helps protect the rifling from damage.
- ◆ Barrels are triple checked for interior finish, straightness and air-gauged for uniformity.
- ◆ Hand-reamed chamber for precision accuracy.

X-BOLT RIFLES. PERFORMANCE IS A FEATURE.

- ◆ The Browning X-Bolt is a modern bolt-action rifle with a host of innovative features.
- ◆ The total accuracy advantage gives you the confidence in the field to make longer shots.
- ◆ Inflex Technology recoil control softens recoil and allows faster, more accurate second shots.
- ◆ Fast-operating 60° bolt lift offers fast cycling and prevents interference from the scope when working the bolt.
- ◆ The receiver is carefully bedded into the stock for a true free-floating barrel.
- ◆ The bolt unlock button allows the bolt to be cycled with the safety in the on safe position.
- ◆ X-Lock scope mounting offers a secure platform for optics.
- ◆ Tang safety is easy to reach with the thumb.
- ◆ The unique rotary magazine is removable, durable, easy to load and feeds rounds from the center line — not off to the side like other rifles — for straight to the chamber feeds.
- ◆ Bolt design is simple, with three locking lugs for superior lock-up.

A PRECISION RIFLE FOR DISCRIMINATING MARKSMEN.

THE X-BOLT OFFERS AN INNOVATIVE POLYMER ROTARY MAGAZINE THAT PROVIDES THE SLICKEST FEEDING POSSIBLE WITH ANY AMMO. COME RAIN, SNOW, DUST OR MUD. THE CROWNING X-BOLT TOUCH IS THE OPTION OF HAVING YOUR NAME ENGRAVED ON THE BOLT, MAKING YOUR NEW RIFLE YOURS FOR LIFE.

X-BOLT EXTRA MAGAZINES

- ◆ The X-Bolt uses a detachable rotary magazine constructed from a durable lightweight polymer.
- ◆ The magazine feeds cartridges directly in line with the bolt, instead of offset as with traditional leaf-spring magazines, for a straight path right into the chamber.
- ◆ An ergonomic magazine-mounted release lets the magazine rotate directly downward and into your hand.

PERSONALIZED ENGRAVING ON THE A-BOLT

- ◆ The bolt can be personalized with your name. Call (800) 333-3288.

BEDDED ACTION AND FREE-FLOATED BARREL

- ◆ The A-Bolt barrel is free-floated by bedding the front and rear of the action for stability.
- ◆ Maintains barrel to stock spacing for consistent accuracy.
- ◆ The recessed muzzle crown helps protect the rifling from damage.
- ◆ Barrels are triple checked for interior finish, straightness and air-gauged for uniformity.

BOLT-ACTION

- ◆ 60° bolt lift cycles fast.
- ◆ Helps prevent banging your hand on the scope.
- ◆ Bolt incorporates a non-rotating sleeve that runs the full length of the bolt. When unlocked, three guide ribs on the bolt sleeve align with the three locking lugs to allow the bolt to slide smoothly. When locked, the three lugs provide massive bolt strength.
- ◆ The A-Bolt feeds smoothly because of its unique, patented cartridge depressor that stays in position, independent of the bolt rotation, as the bolt slides gently over the cartridges in the magazine.
- ◆ Recessed bolt face completely surrounding the cartridge base.

MAGAZINE

- ◆ Hinged floorplate with detachable box magazine makes it simple and fast to load a spare magazine.

MAGAZINE CAPACITY

- ◆ Magnum calibers: Three in magazine, one in chamber. Standard calibers: Four in magazine, one in chamber. 223 Rem.: Five in magazine, one in chamber.

A-BOLT TARGET STAINLESS

SATIN FINISH LAMINATED STOCK

RECEIVER Stainless steel • Low luster finish • Glass bedded • Drilled and tapped for scope mounts

A-BOLT TARGET RIFLES. TACK-DRIVING ACCURACY STRAIGHT FROM THE BOX.

- ◆ A-Bolt Target Rifles offer jaw-dropping bolt-action rifle performance with a precise target-style, single-set trigger that is factory-adjusted to approximately 9-14 oz. (250-400 grams) of pull weight in the set mode, and also operates as a conventional trigger with an adjustment range of 4-6 lbs.
- ◆ Fitted with a 28" target barrel, the action is carefully bedded into a beautiful laminated stock with a wide fore-end for exceptional stability on sandbags or from a bench rest.
- ◆ A fully adjustable comb allows for perfect eye-to-scope alignment, even with large objective target optics.
- ◆ A close radius pistol grip ensures an easy reach to the trigger.

THE BOSS DEVICE

- ◆ The Ballistic Optimizing Shooting System (BOSS) is designed to maximize accuracy from the A-Bolt.
- ◆ The BOSS device quickly and easily tunes barrel harmonics to precisely match the specific ammunition fired, resulting in amazingly tight groups. The BOSS device is available as an option on the Medallion, Composite Stalker, Stainless Stalker, M-1000 Eclipse and Stainless M-1000 Eclipse.

BOSS-CR ACCESSORY

- ◆ This accessory is also included with all BOSS-equipped A-Bolt rifles and offers all the accuracy advantages of the original BOSS without the muzzle brake feature.

BOSS-CR ACCESSORY

- The BOSS-CR accessory offers all the accuracy and tunable advantages of the original BOSS device without the muzzle brake feature. By simply replacing the original BOSS forward weight and recoil reduction components with the one-piece, no-hole BOSS-CR accessory, only the reduced recoil of the original BOSS is sacrificed. The BOSS-CR accessory is designed to fit only BAR Mark II and A-Bolt centerfire rifles previously factory-fitted with the BOSS.

NOTE: Magazines that are not listed above may be available only through the Browning Parts Department at (800) 322-4626.

MAGAZINE

- Hinged floorplate with detachable box magazine makes it simple and fast to load a spare magazine.

MAGAZINE CAPACITY

- Magnum calibers: Three in magazine, one in chamber. Standard calibers: Four in magazine, one in chamber. 223 Rem.: Five in magazine, one in chamber.

A-BOLT

RECEIVER

- ◆ Lightweight, sturdy machined aircraft-grade aluminum. Drilled and tapped to accept scope mounts.

SIGHTS

- ◆ Low profile, square notch, screw adjustable rear sight aligns easily with a highly visible gold bead on raised ramp front sight.

THERE'S SOMETHING ICONIC ABOUT A LEVER-ACTION RIFLE. MAYBE IT'S THE LOOKS, THE INHERENT SPEED OF CYCLING A ROUND TO THE CHAMBER OR IT'S POSSIBLE WE'VE JUST WATCHED TOO MANY COWBOY MOVIES. WHATEVER THE REASON IS, THE BROWNING BLR IS HERE TO SATISFY THAT LEVER LOVE YOU FEEL — AND THEN SOME. THE ACHILLES HEEL OF MOST LEVER RIFLES IS MARGINAL ACCURACY CAUSED BY THE FLAT-NOSED AMMUNITION. FORTUNATELY, THE BLR UTILIZES A BOX MAGAZINE THAT PROTECTS BULLET TIPS AND OFFERS SUPERIOR ACCURACY THAT RIVALS MANY BOLT-ACTIONS.

BLR

THE MOST ACCURATE LEVER. EVER.

ACTION

- ◆ Lightning fast, glass-smooth rack and pinion lever-action.
- ◆ Strong rotating head, multiple-lug breech bolt with a recessed bolt face and side ejection.

RECEIVER Aircraft-grade alloy • Blued finish • Drilled and tapped for scope mounts **BARREL** Blued finish • Crowned muzzle • Adjustable sights **ACTION** Lever-action • Rotating bolt • Detachable box magazine **STOCK** Gloss finish walnut • Checkered • Straight grip **FEATURES** Recoil pad

TAKEDOWN FEATURES

- ◆ BLR Takedown models are just as accurate and reliable as their unified counterparts but much easier to transport and store.
- ◆ The rifle is easily and quickly assembled by simply sliding the barrel half into the receiver half and locking them together with the flip of a lever. The lever mechanically engages a stout locking lug into a recess in the bottom of the receiver. The system is rugged, precise and blends seamlessly into the styling of the rifle.

MAGAZINE

- ◆ The flush-mounted detachable box magazine has a capacity of three magnum or four standard rounds in the magazine, plus one in the chamber.

HAMMER

- ◆ The folding hammer provides an added measure of safety when the hammer is at half-cock.
- ◆ The fold-down hammer has two positions at half-cock so the status of the rifle is readily seen; and four basic positions: Full-cock, half-cock, folded hammer position and the dropped, or fired position.

Scout-Style Scope Mount

SCOPE MOUNTS

- ◆ A scout-style scope mount is available as an accessory for BLR Takedown models. This one-piece alloy base mounts forward of the receiver and stays attached to the barrel half of the rifle when disassembled to retain the scope's zero. A long eye-relief scope is required (not included).
- ◆ The receiver is also drilled and tapped for conventional scope bases and rings (not included). Three scout-style scope mounts are available for BLR Scout models, depending on the caliber (see chart below).

BLR LIGHTWEIGHT TAKEDOWN SCOUT-STYLE SCOPE MOUNT

DESCRIPTION	CODE NUMBER	SUGG. RETAIL

MAGNUM POWER. THE BAR IS THE ORIGINAL BROWNING AUTOLOADING RIFLE, AND IS STILL THE FINEST. THE BAR COMBINES THE STRENGTH TO FIRE HARD-HITTING MAGNUM CARTRIDGES WITH THE ACCURACY TO SEND THEM DOWN RANGE RIGHT ON TARGET. THE PISTON-OPERATED GAS SYSTEM IS RELIABLE AND SOFTENS FELT RECOIL TO REDUCE MUZZLE CLIMB. THE BAR IS OFFERED IN BOTH RIGHT- AND LEFT-HAND MODELS.

ACTION

- ◆ The BAR is a gas-operated autoloader with a high-strength, multiple-lug rotating bolt that locks directly into the barrel.
- ◆ The seven-lug bolt and precise breech-to-chamber relationship give the BAR exceptional accuracy and the strength to handle magnum loads.
- ◆ The strong and rigid action bar/inertia block link-up improves accuracy by reducing barrel vibration.
- ◆ The buffering system reduces wear and stress on the rifle's mechanism.

BAR

MAXIMUM GRIP

- ◆ Camo composite BAR models combine overmolded gripping surfaces and Dura-Touch® Armor Coating for a sure hold and a sleek feel in all climate conditions.

THE BOSS DEVICE

- ◆ The Ballistic Optimizing Shooting System (BOSS) is designed to maximize accuracy.
- ◆ The BOSS device quickly and easily tunes barrel harmonics to precisely match the specific ammunition fired, resulting in amazingly tight groups. The BOSS device is available as an option on the BAR Mark II Safari.

BOSS-CR ACCESSORY

- ◆ This accessory is also included and offers all the accuracy advantages of the original BOSS without the muzzle brake feature.

ADJUSTABLE SHIM SYSTEM

- ◆ ShortTrac and LongTrac BAR rifles include six shims that customize drop at comb and cast on/off.

RECEIVER

- ◆ The BAR MKII Safari uses a blued one-piece ordnance steel receiver with scroll engraving. ShortTrac and LongTrac models have an aircraft-grade aluminum alloy receiver.
- ◆ All BAR rifles are drilled and tapped for scope mounts. The bolt release lever is incorporated into the receiver.

SATIN FINISH STOCK

RECEIVER Steel • Blued finish • Drilled and tapped for scope mounts **BARREL** Medium sporter • Blued finish • Free-floating • Semi-match chamber • Recessed crown **ACTION** Straight pull bolt-action • Top-tang safety • Adjustable trigger • Right- and left-hand models have right side ejection **STOCK** Satin finish walnut • Checkered **FEATURES** Sling swivel studs installed

T-BOLT TARGET/VARMINT

SATIN FINISH STOCK

RECEIVER Steel • Blued finish • Drilled and tapped for scope mounts **BARREL** Medium varmint • Blued finish • Free-floating • Semi-match chamber • Recessed crown **ACTION** Straight pull bolt-action • Top-tang safety • Adjustable trigger • Right- and left-hand models have right side ejection **STOCK** Satin finish walnut • Monte Carlo comb • Wide fore-end • Checkered **FEATURES** Sling swivel studs installed (Scope and mounts not included)

STOCK

- ◆ Stocks are full-size to comfortably fit adults.
- ◆ Durable Composite models feature a Monte Carlo comb and include magazine storage in the buttstock.
- ◆ Walnut stocked Sporter models feature trim dimensions with a satin finish and cut checkering. Walnut Target/Varmint models feature a Monte Carlo comb and wide forearm for stability on the bench.
- ◆ All models include a bedded action and dual action screws for solid attachment.
- ◆ Sling swivel studs included.

TRIGGER

- ◆ The three-lever trigger design combined with a short-travel firing pin give a crisp break, quick lock time, no take-up and minimal overtravel.
- ◆ Adjustable for pull weight.

ACTION

- ◆ Receiver is machined from steel barstock.
- ◆ Features crossbolt lockup and an enlarged bolt handle pivot point for smoother action.
- ◆ The mainspring runs directly through the massive pivot pin. Cocking effort is split between opening and closing for ease of operation. The bolt features dual extractors and a red cocking indicator band.
- ◆ Right-side ejection on both right- and left-hand models.

SAFETY

- ◆ Top-tang, thumb operated two-position safety can be operated without changing from a shooting grip.

BARREL

- ◆ Target/Varmint models feature a 22" medium target profile.
- ◆ T-Bolt Sporter models feature a 22" medium sporter profile.
- ◆ Barrel is free-floating with a semi-match chamber and target muzzle crown.

OPTICS READY

- ◆ Receiver is drilled and tapped for scope mounts (not included). See page 86 for scope rings and bases for T-Bolt rifles.

MAGAZINE

- ◆ 10-round capacity.
- ◆ The patented Double Helix rotary box magazine uses torsion spring driven interlocking gears for added reliability and easy loading and unloading.

T-BOLT

BL-22

RIMFIRE THOROUGHBREDS.

- ◆ The slick, lever-action BL-22 is perfect for new and seasoned shooters alike.
- ◆ Quick-cycling 33° lever throw.
- ◆ The trigger travels with the lever to prevent finger pinch.
- ◆ High-quality construction.
- ◆ Fires .22 Short, Long and Long Rifle ammunition.

Short lever throw is ideal for smaller hands.

Eligible for the Growth Insurance Program. See page 2 for details.

BUCK MARK RIFLE

SAFETY

- ◆ Large manual thumb safety.

MAGAZINE RELEASE

- ◆ Located adjacent to the trigger guard for convenient operation.

SIGHTS

- ◆ Sporter models feature a TRUGLO®/Marble's® fiber-optic sight system.

BARREL

- ◆ Sporter model features lightweight, tapered sporter-weight barrel. Target models feature a bull barrel.
- ◆ The chamber in every Buck Mark Rifle barrel is hand-reamed and the muzzle crown is recessed to protect it from damage that could degrade accuracy.

ACTION

- ◆ The straight blowback design offers enhanced simplicity and reliability.

FRAME

- ◆ Machined to exacting tolerances from a solid billet of 7075-T6 aluminum. The stock structure is a part of the pistol frame, reducing weight and the number of parts.

SLIDE

- ◆ Built-in recess and raised side panels for an improved cocking grip.
- ◆ The convenient manual slide release is easily operated with your shooting or support hand.

RIMFIRE

INTEGRATED SCOPE MOUNT SYSTEM

- ◆ Integrated Scope Mount Systems unitize the ring and base into a single, ultra-rigid unit.
- ◆ Machined from 7000 series aluminum.
- ◆ Eliminates alignment problems and the possibility of a loose connection between bases and rings.

RINGS AND BASES

SCOPE BASES

- ◆ Browning Scope Bases are machined from solid steel.
- ◆ Double recoil shoulder design holds rings securely, even under magnum recoil.
- ◆ T-Bolt two-piece and SA-22 one-piece base designs are alloy and only compatible with Browning rimfire rings (Code 12365).
- ◆ Compatible only with Browning Scope Rings below.
- ◆ Maxus, Gold, Silver, BPS and Buck Mark bases are Weaver-type bases and are not compatible with Browning rings.
- ◆ BLR Takedown bases are Weaver-type, one-piece scout-style bases for a long eye-relief scope and are not compatible with Browning rings.

SCOPE RINGS

- ◆ Ultra-rigid vertically split rings use oversize hardware for extra strength and ease of installation.
- ◆ Standard, Intermediate and High rings are available for both 1" and 30mm diameter scopes.
- ◆ Compatible with the two-piece Scope Bases for A-Bolt, BAR, BLR shown above and the X-Lock bases for X-Bolt rifles shown at the right.

THE HEIGHT IS DETERMINED BY MEASURING FROM THE TOP OF THE BASE TO THE BOTTOM OF THE SCOPE RING.*

*Barrel contour, optic size and preferred eye relief all affect the fit of the scope on a rifle.

STANDARD (.300")	INTERMEDIATE (.400")	HIGH (.500")
For scopes with an objective up to 44mm and a standard barrel contour	For scopes with an objective up to 50mm and a standard barrel contour	For scopes with an objective up to 56mm and a standard barrel contour

X-LOCK MOUNTING SYSTEM SCOPE RINGS AND BASES FOR X-BOLT RIFLES

- ◆ Integrated Scope Mounts unitize the ring and base into a single unit.
- ◆ Machined from 7000 series aluminum.
- ◆ Eliminates alignment problems and loose connections between bases and rings.
- ◆ Choose from integrated mounts in Standard, Intermediate and High rings.
- ◆ Available for both 1" and 30mm diameter scopes.
- ◆ X-Lock bases are machined from solid steel, and mount with four base screws per base at each corner, offering more accurate placement of the base on the receiver (See diagram on page 56).

HI POWER

RELY ON A LEGEND. THE BROWNING HI POWER HAS A PROVEN REPUTATION THAT HAS BEEN EARNED IN THE HANDS OF GENERATIONS OF LAW ENFORCEMENT, MILITARY, SPECIAL OPERATIONS FORCES AND LAW ABIDING CITIZENS. THE CONFIDENCE-INSPIRING HEFT OF THE HI POWER'S STEEL FRAME AIDS IN RECOIL CONTROL AND ACCURACY.

HI POWER STANDARD
FIXED OR ADJUSTABLE SIGHTS (SHOWN)

RECEIVER Steel • Polished blued finish **BARREL** 4 $\frac{5}{8}$ " • Polished blued finish on slide • Low profile fixed or adjustable rear sights with ramped front blade
ACTION Locked breech • Single-action trigger • Ambidextrous thumb safety
GRIPS Select walnut • Cut checkering **FEATURES** Extra magazine

HI POWER MARK III
FIXED SIGHTS

RECEIVER Steel • Black epoxy finish **BARREL** 4 $\frac{5}{8}$ "
• Black epoxy on slide • Low profile fixed sights
ACTION Locked breech • Single-action trigger
• Ambidextrous thumb safety **GRIPS** Composite panels • Thumb rest **FEATURES** Extra magazine

SAFETY

- ◆ A large, ambidextrous manual thumb safety is conveniently located on the frame just above the grip.

SIGHTS

- ◆ Hi Power pistols are available with fixed, low-profile three-dot sights. The Hi Power Standard is also available with optional low-profile target sights that are adjustable for windage and elevation.

TRIGGER

- ◆ The light single-action trigger breaks clean and crisp. This is the system preferred by professionals around the world.

FRAME AND SLIDE

- ◆ The frame and slide are built from solid steel and keeps recoil light and manageable for accurate firing, even at a rapid rate. The Hi Power's balance in the hand is impeccable.

MAGAZINE CAPACITY

- ◆ Double-stack magazine design.
- ◆ 13-round magazine capacity, 10-round capacity where required by law. Follow state and local laws regarding magazine capacity.

1911-22

85% OF THE GREATEST PISTOL EVER MADE.

SCALED AT 85% OF JOHN M. BROWNING'S ORIGINAL 45 ACP MODEL 1911, THE ULTRA LIGHT BROWNING 1911-22 IS AN IDEAL SIDEARM FOR PLINKING, HUNTING AND TARGET SHOOTING. MADE IN THE USA, THESE RUGGED ALLOY PISTOLS ARE TAILORED FOR THE AFFORDABLE 22 LONG RIFLE CARTRIDGE. THE GRIP IS COMFORTABLE EVEN IN LARGE HANDS AND FEELS EQUALLY AT HOME IN SMALLER ONES. THE 1911-22 IS MADE WITH PRIDE IN THE USA.

SAFETY

- ◆ Large manual thumb safety and grip safety.

ACTION

- ◆ The straight blowback design offers enhanced simplicity and reliability.

FRAME

- ◆ Machined from aircraft grade aluminum alloy.
- ◆ Walnut grip panels.

SLIDE

- ◆ Vertical serrations provide an improved cocking grip. The convenient manual slide release is easily operated with your shooting or support hand.

MAGAZINE

- ◆ The steel magazine body is heat treated for long-term feeding reliability and long life. Our coil spring provides a consistent follower angle. 10-round capacity.

MAGAZINE RELEASE

- ◆ Positioned adjacent to the trigger guard for convenient operation.

ABS CARRY CASE

- ◆ 1911-22 pistols are shipped in a sturdy ABS case.

EXTRA MAGAZINES FOR BROWNING PISTOLS

PRODUCTS **NEW** FOR 2013 ARE INDICATED BY RED TEXT

CUSTOM SHOP

THE CUSTOM GUN SHOP OF FABRIQUE NATIONALE AND THE HERSTAL, BELGIUM, ENGRAVERS' COOPERATIVE, WILL MAKE AVAILABLE ON SPECIAL ORDER MANY DIFFERENT CUSTOM ENHANCEMENTS. THESE FIREARMS WILL BE FULLY ASSEMBLED, FITTED AND ENGRAVED IN BELGIUM TO YOUR PERSONAL DESIRES.

PRICE

- ◆ Prices for the basic firearm, before custom enhancement, are available from the sales department at Browning in Morgan, Utah by calling (801) 876-2711. All prices are subject to change due to fluctuations in world currencies.

HOW TO BUILD A CUSTOM GUN

- ◆ Visit browning.com/custom to view or download the Browning Custom Shop brochure. In addition to showcasing the firearms available, this brochure displays and explains the many grades, engraving patterns, checkering patterns, stock and forearm designs and personal touches available to you.

HOW TO ORDER

- ◆ All inquiries for Custom Gun Shop products will be submitted to headquarters in Morgan, Utah. Once the basic specifications have been determined, a written order should be placed with the Morgan office. The specifications will be reviewed with the Custom Shop in Belgium, and a price and delivery date will be determined.

DELIVERY

- ◆ Actual production time will be based on the complexity and detail of the custom order. An approximate delivery date will be furnished with the factory cost quotation.

B25 SUPERPOSED

The most requested Custom Shop model is the legendary Superposed, the last design undertaken by John M. Browning before his death in 1926 and the culmination of his firearms ingenuity and wisdom. The Superposed is the finest and most respected over and under design ever. As in all of Browning's work, the Superposed delivers perfect balance, economy of proportion and eye-appealing design. As beautiful as a custom Superposed is, it deserves to be carried afield and used, just as Mr. Browning intended.

CCS 25 B5

EXPRESS RIFLES

CUSTOM SHOP

A PIECE OF BROWNING HISTORY. STRAIGHT FROM THE BELGIAN CUSTOM SHOP. JOHN M. BROWNING'S RELATIONSHIP WITH FABRIQUE NATIONALE BEGAN IN THE LATE 1890'S WITH THE LEGENDARY ARMS FACTORY EVENTUALLY PRODUCING MANY OF THE DESIGNER'S MOST STORIED FIREARMS. TODAY, HAND-CRAFTED FIREARMS FROM THE BROWNING CUSTOM SHOP IN BELGIUM ARE REVERED AS ART, CUSTOMIZED AND EMBELLISHED TO EXACTING DESIRES. AVAILABLE FIREARMS INCLUDE THE FAMOUS SUPERPOSED, BAR AND HI POWER, EACH CAREFULLY MANUFACTURED AND ASSEMBLED TO BE AN INVESTMENT THAT YOU WILL ENJOY AND SHARE FOR GENERATIONS. CALL (801) 876-2711 FOR INFORMATION OR VISIT BROWNING.COM/CUSTOM TO DOWNLOAD THE CUSTOM SHOP BROCHURE TO VIEW THE MANY OPTIONS AVAILABLE.

SA-22 Grade III

SEMI-AUTO 22 LUXE

An honest piece of living history, designed by The Master himself. This rimfire is particularly light and efficient. The barrel and receiver can be separated in an instant. It is available in numerous versions, including the deluxe models, which continue to be made in the Custom Shop.

SA-22 Grade II (Right)

SA-22 Grade III (Right)

Hi Power 75th Anniversary

Hi Power Renaissance Silver

Hi Power Renaissance Gold

HI POWER LUXUS

The Browning Hi Power is one of the greatest pistol designs of all time. A custom Hi Power offers all the engineering genius of John M. Browning embellished with the beauty and craftsmanship provided by the Browning Custom Shop. A Hi Power Luxus pistol must be held to be fully appreciated.

BROWNING

PROSTEEL SAFES

SAFES

REFINEMENT IS WHAT REALLY SEPARATES BROWNING PROSTEEL SAFES FROM THE REST. BROWNING AND PROSTEEL HAVE BEEN BUILDING SAFES FOR MORE THAN 30 YEARS, AND IMPROVING THEM EVERY STEP OF THE WAY. WHETHER IT'S MORE MODELS AND COLORS TO SELECT FROM, HIGHER BUILD QUALITY OR THE FINEST, MOST ADAPTABLE INTERIOR LAYOUTS AVAILABLE ANYWHERE, THE ATTENTION TO DETAIL AND REFINEMENT FOUND IN A BROWNING PROSTEEL SAFE ARE SECOND TO NONE.

AXIS ADJUSTABLE SHELVING – THE MOST VERSATILE SAFE INTERIOR EVER DESIGNED. PERIOD.

- ◆ Browning ProSteel safes lead the industry when it comes to safe interior storage.
- ◆ The exclusive Axis Adjustable Shelving (U.S. patent #D662341) is a completely customizable system with an array of shelves that can be configured to meet virtually every need.
- ◆ Unlike shelves in our competitors' safes that are either fixed in position or only offer vertical adjustment, Axis shelves can be adjusted up and down, side to side, added and removed to accommodate items over a broad range of sizes.
- ◆ Axis maximizes interior storage of long guns, handguns and other valuables.
- ◆ Six different, specific shelves and accessories are available as options (see page 121) to further customize the interior to meet specific needs.
- ◆ Shelves are clad in a soft, protective polymer skin to protect valuables and firearms.

AXIS STEEL SHELVING

- ◆ Axis steel shelving is made from a single piece of sturdy steel.
- ◆ The polymer coating is highly durable and designed to protect your guns and valuables. It also adds a sleek appearance to the safe interior.
- ◆ Axis accessories are designed to easily mount to the solid steel shelf or barrel rack. (They are compatible with Axis adjustable shelves in 2013.)

PISTOL RACK*

- ◆ With five handgun capacity, the pistol rack stores its cargo under the shelf.

BARREL RACK

- ◆ 11 slots for long guns.
- ◆ The barrel rack can be raised or lowered to accommodate long guns, shotguns, carbines and modern sporting rifles.

FILE BOX*

- ◆ Stores, protects and organizes your important documents.

DRAWER*

- ◆ The sturdy drawer is perfect for all sorts of smaller goods that need to be organized.

JEWELRY BOX*

- ◆ Keep delicate jewelry in its rightful place where it is easy to find and protected from other items going in and out of the safe.

*These accessories must be mounted to a solid steel shelf or barrel rack.

DPX - KEEP THINGS ORGANIZED

- ◆ The patented DPX storage system (U.S. patent #7,409,790) is exclusively available on Browning ProSteel safes.
- ◆ This unequalled organizational tool allows you to store long guns, handguns, shooting gear and more on the back of the safe door.
- ◆ The DPX gun rack allows as much as 30% more long gun capacity inside the safe, and makes the guns on the door easy to access.
- ◆ The Scope Saver increases storage and protects optics.
- ◆ DPX pouches and pockets hold valuables and gear where they are easy to find and free up shelf space for even more stuff.

DPX HANDGUN POUCHES

The military-style MOLLE system straps on the DPX panel allow handgun pouches to be placed virtually anywhere.

MESH POCKETS

See-through mesh pockets hold smaller items and make valuables fast and easy to locate visually.

DPX SCOPE SAVER

Store long guns with optics on the DPX door rack with the Scope Saver. The recessed panel protects scopes and increases gun capacity.

THE QUICK ACCESS DPX BARREL RACK

Flexible polymer wings protect the barrel finish, secure the barrel in place and allow firearms to easily be pushed into or pulled from the rack. (U.S. patent #D643500)

- ◆ Every Premium safe (Platinum Plus, Gold, Medallion and Silver) interior falls into one of the four standardized dimensions shown below.
- ◆ In order to fit additional layers of fire protection that, up until now, would have used interior storage space, exterior safe dimensions have grown to accommodate the additional insulating material in the walls.

Standard Interior (54" x 26" x 17")

STANDARD

- ◆ 4 Standard Shelves
- ◆ 2 Barrel Racks

Wide Interior (54" x 39" x 17")

WIDE

- ◆ 5 Standard Shelves
- ◆ 3 Barrel Racks

Tall Wide Interior (66" x 39" x 17")

TALL WIDE

- ◆ 8 Standard Shelves
- ◆ 3 Barrel Racks

Tall Extra Wide Interior (66" x 52" x 17")

TALL EXTRA WIDE

- ◆ 12 Standard Shelves
- ◆ 4 Barrel Racks

SAFE CAPACITY

HOW DO BROWNING PROSTEEL SAFES HOLD 30% MORE LONG GUNS?

- ◆ The long gun capacity is a series of three numbers, for example 11/22+7 for a 26 cubic foot safe.
- ◆ The first number is the long gun capacity in the safe body with a Half Shelf interior (11 in the example).
- ◆ The second number is the long gun capacity in the safe body with an All Gun interior (22 in the example).
- ◆ The "plus" number is the long gun capacity on the back of the door (+7 in the example).
- ◆ Total capacity grows up to 30% in the Half Shelf configuration because there is a full rack of long guns on the door back.
- ◆ "Fast Access Guns" increase in both Half Shelf and All Gun configurations. These guns are defined as those that are on the front row of the safe body and the door gun rack.

CAPACITY COMPARISON	BROWNING PROSTEEL 26 CU. FT. SAFE	OTHER BRAND 25-28 CU. FT. SAFE
BODY CAPACITY HALF SHELF INTERIOR	11 GUNS	11-14 GUNS
BODY CAPACITY ALL GUN INTERIOR	22 GUNS	22-28 GUNS
DOOR CAPACITY	7 GUNS	N/A
TOTAL GUN CAPACITY	18 GUNS (HALF SHELF) 29 GUNS (ALL GUN)	11-14 GUNS (HALF SHELF) 22-28 GUNS (ALL GUN)
FAST ACCESS GUNS	9 GUNS (HALF SHELF) 11 GUNS (ALL GUN)	2 GUNS (HALF SHELF) 4 GUNS (ALL GUN)

Due to the varying sizes of firearms, actual gun capacity may vary.

FIRE RESISTANCE

THREE FACTORS OF FIRE-RESISTANCE

- ◆ The amount of insulation is the most important factor. More insulation means more protection. (It really is that simple.)
- ◆ The construction of the safe is hugely important. Thicker steel, fully welded gap-free body construction and reinforced door frames all reduce heat-caused flex that could open gaps in the safe and allow heat to enter the safe. Strategic placement of insulation and external hinges means there are no gaps in fire insulation for improved protection.
- ◆ All Browning ProSteel safes include a Palusol® strip that expands to seal around the door frame and eliminate gaps where heat could enter.

FIRE TESTING PROCEDURE

- ◆ Years of experience developing new safes aids in understanding the fire protection a safe will offer based on its insulation and construction. All new safes are tested according to stringent test procedures.
- ◆ A finished safe is placed into the on-site test furnace. Thermocouples are placed between the safe and the furnace walls on all four sides of the safe to record ambient temperatures of the furnace and the safe.
- ◆ On initial startup of the furnace, all burners are lit so the temperature inside the furnace reaches a test temperature of 1200° F within the first five minutes of the test. The temperature of the thermocouples is recorded every minute and the burners are adjusted as needed to maintain an average temperature of 1200° F for the duration of the test.
- ◆ Three thermocouples are also mounted inside the safe, two just above the top shelf and the third in the middle of the safe. When the temperature inside the safe exceeds 275° F above ambient temperature, the time is recorded and the test is completed. For example, if the ambient temperature at startup is 75° F, when a thermocouple inside the safe reads 350° F, the test is done and the fire rating is given.
- ◆ In contrast, some safe manufacturers will slowly ramp up to the test temperature, leaving the majority of the test at much lower temperatures than the final rating shows.
- ◆ Others place the thermocouples at the bottom of the safe where there is less heat. This measures the coolest air, resulting in a higher fire rating claim. Worse yet, some base their fire ratings on design alone without actually testing the safe.

ProSteel provides a Gun Safe Warranty that is equal to the best in the industry on safes manufactured after January 1, 2006. The warranty covers:

- ◆ ATTEMPTED BREAK IN
- ◆ FIRE
- ◆ BREAK IN

If a safe is involved in one of the above situations and your homeowner's insurance policy does not cover the damage to the safe, ProSteel will repair or replace the safe. (Safe contents are not covered.) Shipping costs for a new safe, if necessary, are included. Some restrictions apply. See Safe Owner's Manual or browning.com for complete warranty information.

SAFE FEATURE ICONS

	<p>FORCE DEFLECTOR™ LOCKING SYSTEM The Force Deflector Locking System (U.S. patent #7,665,405) prevents bolt or handle forces from reaching the lock by using a rotating cam device. It prevents energy transfer to the lock better than most systems used in the safe industry.</p>		<p>LAYERS OF INSULATION The most important factor in fire protection is the total thickness of the insulation in the safe. More insulation means more protection from fire. We use ½" thick gypsum panels, so the number of layers multiplied by ½" represents the total insulation thickness in inches.</p>		<p>LOCKING BOLTS (VARIABLE SIZE) The rugged steel pieces that move behind the door frame to actually hold the safe door locked and closed. Bigger bolts, and more of them, provide greater security.</p>
	<p>UNI-FORCE™ LOCKING SYSTEM The finest Browning ProSteel safe locking mechanism uses robust cam locks and a large, multiple diversion bar system to prevent bolt or handle pressure from reaching the lock. Forces go to the cams and diversion bars, not the lock, for protection unmatched by other locking systems.</p>		<p>REINFORCED DOOR FRAME The door opening of the safe is strengthened by a U-shaped steel channel around the entire perimeter to create added pry and attack resistance.</p>		<p>BOLT DIRECTION Better safes have locking bolts extending from all four sides of the door for extra resistance to pry attack. Safes with bolts on three sides have them on both sides of the door and on the top edge.</p>
	<p>1" FORMED DOOR The 1" Formed Door is engineered with a rugged steel face, back and reinforcement panels to provide excellent strength and attack protection compared to the competition.</p>		<p>180° HEAVY DUTY HINGES Rugged hinges are machined from solid steel bar stock for strength. The hinges allow the door to swing open 180° for unhindered access to the safe interior. Hinge-side locking bolts maintain full security even if the hinges are cut off. The door is removable to simplify moving of the safe.</p>		<p>BODY THICKNESS (VARIABLE MEASURE) The thickness of the steel that comprises the safe body. A smaller gauge number means thicker steel, which provides more security than thinner steel. Our thickest safe body is ¾" (on Platinum Plus) and this specification is not shown in gauge measurement.</p>
	<p>DUO-FORMED® DOOR The best safe door we offer is formed from multiple layers of steel formed together to provide superior strength, pry resistance and attack protection. Full second panel for outstanding strength. The door face is 1¾" thick.</p>		<p>SCOPE SAVER With the Scope Saver, long guns with optics now fit on the DPX rack without taking up space inside the safe body. The optics are also protected from the bumps and dings of guns going into and out of the safe.</p>		<p>INTERIOR LED LIGHT PACKAGE The interior light package includes four LED light bars (five on tall safes) to illuminate the safe interior. And makes it easier to find items in the safe.</p>
	<p>OMNIBARRIER® LOCK PROTECTION SYSTEM A carefully engineered structure of steel hard plate and steel components designed to protect the safe lock from drill, punch and push attacks.</p>		<p>UL® SECURITY CONTAINER RATING The industry standard test and rating for home/personal safes. Requires minimum construction specifications and passing a laboratory attack test. Our premium models far exceed the minimum requirements for the UL Residential Security (Tool Attack) listing.</p>		<p>DPX SYSTEM The DPX Storage System (U.S. patent #7,409,790) includes a rack on the back of the door to store long guns and make them easier to access (Except Compact Safes). Pouches and pockets organize other valuables. See page 98 for a complete description.</p>
	<p>FIRE RATING (VARIABLE TIME) A laboratory measurement of time and temperature (in Fahrenheit) used to compare the relative amount of fire resistance provided by a safe. Safes with a longer fire rating time provide more fire protection than a safe with a shorter time.</p>		<p>PRY-STOP CORNER BOLTS Pry-Stop Corner Bolts (patent pending) provide better protection than other pry-defense designs. Innovative long locking bolts extend diagonally from a reinforced support at the corners of the door to protect against pry attack at the vulnerable corner areas.</p>		<p>AXIS Our exclusive Axis Adjustable Shelving (U.S. patent #D662341) is designed to maximize storage and provide convenience. Multiple shelf styles are available and can be moved to allow small and large items to fit in the safe and take up only the minimum amount of space. See page 98 for a complete description.</p>
			<p>PRY-STOP END BOLTS Superior to other bolt designs which allow the locking bolt support bar to bend. Pry-Stop End Bolts are over 2½ times longer and attach to a high-strength steel angle iron which prevents the locking bolt support bar from bending in a pry attack. The top and bottom locking bolts on the door side secure the critical door corners.</p>		<p>WHY STEP UP? Starting with the flagship Platinum Plus Series, there is a "Why Step Up?" section at the top of the description area for each series. This section is a list of features that distinguish that series from the series below it in the safe line up. "Why Step Up?" is an easy comparison between the Browning ProSteel safes.</p>

PREMIUM PROTECTION

FROM THE NAME YOU TRUST.
BROWNING PROSTEEL.

KEEPING YOUR STUFF YOURS IS WHAT WE'RE ALL ABOUT. WHEN YOU LEAVE HOME FOR A DAY AT WORK, A WEEKEND HUNTING TRIP OR THAT LONG ANTICIPATED FAMILY VACATION, YOU'LL REST EASY KNOWING THAT YOUR GUNS AND OTHER POSSESSIONS WILL BE THERE WHEN YOU RETURN. NEVER TRUST YOUR STUFF IN ANYTHING LESS THAN THE BEST THERE IS.

FIRE / SECURITY RATINGS

Fire and Security thermometers make it easier to compare the level of protection our safes provide in these two important areas. The "F" indicates fire protection and the "S" indicates security level. Higher numbers mean better protection.

HIGH GLOSS FINISH

All of our premium safes features an automotive quality high-gloss finish. Gloss safes are sprayed and hand polished to a deep shine. This level of detail ensures a safe finish worthy of any home.

FULL SELECTION OF ARTWORK

A wide selection of artwork is available on every Browning ProSteel safe. From ducks, to elk, to scrolls, to the iconic Browning Buckmark, there is artwork available to meet everyone's taste.

PLATINUM PLUS STANDARD FEATURES

WHY STEP UP TO A PLATINUM PLUS SERIES SAFE?

Massive 3/16" steel body • 1200°F/120 min. fire protection
• Grade VI interior package

ANTI-PRY FEATURES

Massive 3/16" steel body • Pry-Stop Corner Bolts at all four corners of the door • 1 1/2" chromed locking bolts, four-sided door coverage
• Uni-Force™ Locking System with Anti-Pry Tabs and extension arms • Fully reinforced integrated door frame • Tight-tolerance door fit • 1 1/8" thick Duo-Formed® Door

ADDITIONAL SECURITY FEATURES

Uni-Force Locking System • OmniBarrier® Lock Protection System
• UL® tool attack listed • S & G® Group II lock with key lock dial and five-year limited warranty

INTERIOR/CONVENIENCE AND APPEARANCE FEATURES

Innovative Axis Adjustable Shelving with NEW Jewelry Box, File Box and Pistol Rack
• Premium DPX Storage System • Quick Access DPX Barrel Rack with Scope Saver • Two DPX Handgun Pouches • Knurled five-spoke Buckmark handle • Scroll or game scene bonded to the safe door
• Elevated floor makes removing guns easier • High-gloss finish

GRADE VI INTERIOR FEATURES

Premium DPX Storage System with simulated leather trim
• Quick Access DPX Barrel Rack with Scope Saver System
• Interior cedar walls and ceiling • NEW Interior LED light package

FIRE PROTECTION

1200° F/120 min. fire protection • Five layers of 1/2" fire-resistant insulation in the body • Four layers of 1/2" fire-resistant insulation in the door • Premium 3-in-1 Palusol® fire seal for added fire protection

Found exclusively on Browning ProSteel safes, the Scope Saver keeps rifle scopes protected and ready for use.

NEW
AXIS ADJUSTABLE SHELVING
Silver Series safes come with an Axis interior standard, and include the NEW pistol rack accessory.

VALUE SAFES

CLASS-LEADING SECURITY FROM PATENTED INNOVATION.

SOME PEOPLE MIGHT THINK A "VALUE" SAFE MEANS SOME CORNERS HAVE BEEN CUT IN THE DESIGN AND MANUFACTURING. AND IT WON'T BE ABLE TO PROVIDE ENOUGH PROTECTION WHEN THE GOING GETS TOUGH. WITH A VALUE PROSTEEL SAFE FROM BROWNING, YOU CAN BE ASSURED OUR SAFE WILL PROVIDE PLENTY OF SERIOUS SECURITY FOR YOUR GUNS AND OTHER IMPORTANT VALUABLES.

FORCE DEFLECTOR SYSTEM

- ◆ The patented, class-leading Force Deflector Locking System prevents energy transfer to the lock better than many systems found on safes costing much more.
- ◆ This simple, innovative design uses a rotating cam to prevent forces on the bolt or handle from reaching the lock.

LOCKING BOLTS

- ◆ Bigger locking bolts, and more of them, equal better security as larger diameter locking bolts are much less likely to bend than smaller bolts.

HARDENED STEEL PINS

- ◆ Hardened steel pin lock protection is designed to combat drill attacks.
- ◆ Located directly in front of the locking mechanism, the smooth, hardened steel pins are extremely difficult to drill through. Unlike steel plate protection, the pins rotate freely and are more likely to bend or break drill bits.

RELOCKER

- ◆ The Force Deflector™ Locking System includes a relocker that is triggered during an attack on the safe.
- ◆ The relocker secures the boltwork in the safe and prevents it from being actuated.

1" FORMED DOOR

- ◆ The 1" Formed Door is engineered with a rugged steel face and reinforcement panels to provide excellent strength and attack protection compared to the competition.

POWDER COATED FINISH

- ◆ Browning ProSteel Value safes are powder coated for professional, even coverage, then baked to harden the finish.
- ◆ The attractive, durable textured finish is chip and scratch resistant.

PRY-STOP END BOLTS

- ◆ Pry-Stop End Bolts are more than double the length of standard bolts and are attached to high-strength steel angle iron that prevents the locking bolt support bar from bending in a pry attack.
- ◆ The top and bottom locking bolts help secure the door corners.

STRONG STEEL BODY

12-gauge steel makes the Select safes heavier and tougher to move, is more time consuming to cut or drill through and flexes less when heated for better protection in a fire.

NEW

DPX SCOPE SAVER

Found exclusively on Browning ProSteel safes, the Scope Saver keeps rifle scopes protected and ready for use.

NEW

LIGHT PACKAGE

Interior lighting makes locating items inside a safe much easier. This safe features the **NEW** interior LED light package that runs along the door frame to illuminate the entire safe interior.

BRONZE STANDARD FEATURES

WHY STEP UP TO A BRONZE SERIES SAFE?

1200° F/60 min. fire protection • Pry-Stop End Bolts for better pry resistance • Available in baked-on gloss or rugged textured charcoal finishes • Full DPX Storage System • Two DPX Handgun Pouches

ANTI-PRY FEATURES

12-gauge steel body • Pry-Stop End Bolts • 1" chromed locking bolts, three-sided door coverage • Fully reinforced integrated door frame • Tight-tolerance door fit • 1" formed door

ADDITIONAL SECURITY FEATURES

SECURITY DOOR

BUILT-IN CONCEALMENT AND SECURITY.

With the appearance of a standard residential door, the Security Door is the perfect option if you want to be more discreet about the presence and location of your guns and valuables. The Security Door includes a UL® Listed Type I Electronic Lock with a keypad that can be mounted and concealed up to seven feet from the vault to further hide the true nature of the door. The Security Door features a six-panel door style to help blend in with other residential doors and can be painted to match. The minimum rough door opening for the Security Door is 83" x 36".

SECURITY DOOR FEATURES 1 1/8" thick Duo-Formed® type door • 1 1/4" chromed locking bolts • 1" of fire-resistant insulation in the door face • Residential interior straight brass handle • UL® Listed Type I Electronic Lock • Concealed hinges • Internal lock release to open the door from within the vault • Door swings out a full 180° when open

Heritage Graphics Ducks Unlimited

Heritage Graphics NWTG

Heritage Graphics RMEF

Heritage Graphics NRA

HERITAGE GRAPHICS

Now it is possible to show your allegiance to the great organizations that work to preserve your rights and hunting heritage. The Heritage Graphics option can be ordered to replace the game scene on many safes. You can support your favorite organization by proudly showing its logo and graphics on a gorgeous Browning ProSteel safe. We make a donation to the respective organization for each Heritage Graphics option sold. Available on all safes in the Platinum Plus, Gold, Medallion, Silver and Select Series models.

Pointer Scene by Luke Frazier

Elk Scene by Leon Parson

Mule Deer Scene by David Jackson

Mountain Scene by David Jackson

SCENES / SCROLL

Game Scene Selection Available on Platinum Plus, Gold, Medallion, Silver and Select series models. Each series (Platinum, Gold, etc.) has a standard metallic game scene.

These scenes are permanently bonded to the door and can be applied only at the factory. Scroll is standard on safes. Scenes below are optional.

Whitetail Buck/Doe Scene by Luke Frazier

Mallards Scene by Luke Frazier

USER INSTALLED ACCESSORIES

VCI GUN SOCKS

Browning's VCI (Vapor Corrosion Inhibitor) Gun Sock seals out moisture. VCI penetrates into the smallest crevices where oils cannot reach, driving out moisture. Provides full protection by forming a vapor enclosure around your firearm from muzzle to butt. The VCI Sock, when used in a safe or cabinet, will offer additional protection to all metal items in the enclosed area. One size fits most firearms.

MSRP: \$18.00

LED SAFE LIGHTING KIT

The LED Safe Lighting Kit is the best aftermarket lighting solution available today. The expandable, linear design places bright, long-lasting LED lighting anywhere in the safe. A motion sensor turns on the lights when the door opens and automatically shuts them off after 30 or 60 seconds with no motion or when the door closes. Each kit comes complete with six LED light tubes with six LEDs per tube, three flexible connectors, mounting clips with hook and loop tape, A/C adaptor and a motion sensor power module.

MSRP: \$70.00

EVERDRY ELECTRIC DEHUMIDIFIER

The EverDry Electric Dehumidifier removes humidity from the interior of a safe and protects against rust. The 18" long EverDry should be used on safes 30" wide and larger. Cord is removable for installation.

MSRP: \$30.00

DRY-ZONE

Absorbs moisture without electricity, and is rechargeable in an oven. It can be reactivated indefinitely. One 500-gram box protects up to 37 cubic feet of enclosed space, about the volume of a standard 30" wide safe.

MSRP: \$20.00

FLEXIBLE EVERDRY ELECTRIC DEHUMIDIFIER

The Flexible EverDry is flat and easily bends to take up less space and makes installation easier, especially in small safes. Removes humidity from the interior of a safe and protects against rust. Plug is removable for installation. LED indicates unit is operating.

MSRP: \$40.00

ZERUST® PROTECTANT

This small capsule emits an invisible vapor that forms a corrosion- and rust-resistant barrier on metal surfaces. Volatile Corrosion Inhibitors (VCI) have been used for years to protect metal parts in industrial and commercial applications. One capsule protects a standard 30" wide safe for one year.

MSRP: \$8.00

AXIS SHELVEING OPTIONS AND USER INSTALLED ACCESSORIES

NEW

AXIS SOLID STEEL SHELF

The most basic shelf is made from tough steel with a protective polymer skin that protects valuables and handguns.

MSRP: \$30.00

NEW

AXIS BARREL RACK

With 11 slots for long guns, the barrel rack can be raised or lowered to accommodate rifles, shotguns, carbines and modern sporting rifles.

MSRP: \$27.00

NEW

AXIS PISTOL RACK

With a five handgun capacity, the pistol rack stores its cargo under the shelf, leaving the shelf available for possessions and gear.

MSRP: \$15.00

DPX HANDGUN POUCHES

More handguns can be stored in your safe with the versatile DPX Handgun Pouches. These versatile pouches include snap-straps to allow use on the MOLLE System used on the DPX and also hook and loop fasteners for use on carpeted interior surfaces. Set of two. (Not intended for use as a belt holster.)

MSRP: \$30.00

NEW

AXIS JEWELRY BOX

Keep delicate jewelry in its rightful place where it is easy to find and protected. The soft lined jewelry box drawer mounts beneath a sturdy steel shelf.

MSRP: \$80.00

NEW

AXIS FILE BOX

Important documents may be irreplaceable or valuable or both. Keep them in the file organizer.

MSRP: \$38.00

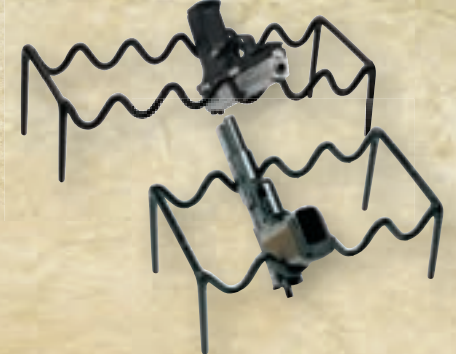

NEW

AXIS DRAWER

The sturdy drawer is perfect for all sorts of goods that need to be separated.

MSRP: \$60.00

PISTOL RACK

Store handguns more efficiently and increase storage space on shelves. Access to handguns is made easier by placing them in an upright position. 4 or 6 capacity gun models available.

MSRP: \$30.00 — 6-Gun

MSRP: \$20.00 — 4-Gun

SAFE ACCESSORIES

FACTORY INSTALLED OPTIONS

NEW

INTERIOR LED LIGHT PACKAGE OPTION

This integrated LED lighting package makes locating objects on shelves or identifying the right firearm convenient and easy. The four included LED light bars (five on tall safes) are wired to a motion door activated switch and illuminate when the door is opened. Factory installation adds a seamless look with no exposed wiring. Optional on Medallion and Silver Series safes. Standard on Platinum Plus, Gold and Select Series safes. Factory installed only. Suggested Retail: \$129.00

LOCK OPTIONS

S & G® ELECTRONIC LOCK

The S & G Electronic Lock is an advanced security system manufactured by the leader in the lock industry. Includes many technical security features. Available on all models. Suggested Retail: \$89.00

SECURAM BIOMETRIC LOCK

The SecuRam Biometric Lock uses the uniqueness of an individual fingerprint as the combination in this advanced security solution. The lock opens with either a fingerprint or a multi-digit code. It is highly secure and operates very quickly. Simple programming instructions. LCD Screen. Not available on Sporter, Bronze and Compact Series safes. Suggested Retail: \$279.00

COLLAR SIZING

Measure your dog's neck at the smallest part with a flexible measuring tape. Collars are sized from the buckle to the middle adjustment hole to allow room for your dog's growth and seasonal weight changes.

DOG LEADS

LEATHER

- Top-grain latigo leather • Contrasting stitching • Heavy-duty brass snap hook
- Comfortable loop handle • 4-foot length **MSRP** \$36.00

1302008804

WALKING

- Single ply webbing • Heavy duty metal snap hook • Neoprene loop handle for added comfort • 4-foot and 6-foot lengths **MSRP** Starting from \$26.00

TRAINING

- Single ply webbing • Sliding adjustable buckle design allows for expansion and to clip the handle around your wrist, belt, post or tree • Snap link end has an integrated traffic handle for more control of your dog in public places • 6-foot length **MSRP** \$33.00

ROPE

- Braided multi-filament rope • Resists wear and is semi-buoyant • Heavy-duty snap hook • 4-foot and 6-foot lengths **MSRP** Starting from \$26.00

ROPE SLIP

- Braided multi-filament rope • Resists wear and is semi-buoyant • Heavy-duty metal O-ring • Adjustable keeper • Slip collar design allows for easy one-handed correction • 4-foot and 6-foot lengths **MSRP** Starting from \$26.00

DOG ROPE CHECK CORDS

• Diamond braided rope features a solid core • Resistant to tangling or knotting • Highly buoyant for water training • Allows for long distance control of your dog • 30-foot open-ended rope allows your dog to run free without getting snagged **MSRP \$39.00**

COLLAPSIBLE WATER/FEED BOWL

• Folding ballistic nylon fabric • Waterproof liner • Ideal for travel and field use • Bottom prevents sliding and won't mar floors • Machine washable for easy care • Realtree Max-4 camo • 8" x 8" x 5" **MSRP \$26.00**

BUCKMARK TRAINING BUMPERS

• Heavy duty polymer resists wear and tear • Raised Buckmark logos improve grip • Valveless design eliminates leaking and aids buoyancy • Yellow color is highly visible against most backgrounds • Black color is best against bright or light colored backgrounds • Sliding throw rope • Large 3" x 12" is perfect for larger dogs and to simulate larger birds • Small 2" x 10" is ideal for smaller or younger dogs and for their initial retrieve training **LARGE MSRP \$13.00 SMALL MSRP \$11.00**

BUCKMARK CANVAS BUMPERS

• High denier poly cover resists wear and tear • Dense, close-cell foam creates a firm, realistic feel and aids buoyancy • Sliding throw rope • Yellow color for high visibility on most backgrounds • Black color for visibility on bright or light colored backgrounds • Large 3" x 12" is perfect for larger dogs and to simulate larger birds • Small 2" x 10" is ideal for smaller or younger dogs and for their initial retrieve training **LARGE MSRP \$14.00 SMALL MSRP \$13.00**

TRAINED RIGHT.

YOUR DOG DESERVES THE BEST THERE IS IN TRAINING GEAR.

YOUR HUNTING DOG NEEDS THE RIGHT KIND OF TRAINING, BEGINNING AS A PUP AND CONTINUING THROUGHOUT HIS LIFE. TRAIN HIM RIGHT FROM THE START WITH GENUINE BROWNING LEADS, BUMPERS AND WHISTLES. AT THE END OF THE DAY HE'LL CURL UP IN HIS OWN BROWNING BED AND GIVE A LITTLE WOOF AS HE DREAMS OF DUCKS AND PHEASANTS.

WATER/FEED BOWL

- Stainless steel water/feed bowl has angled base to prevent tipping • Rubberized bottom ring prevents sliding and won't mar floors • 8½" x 2¾" **MSRP** \$20.00

13000100

WATER BOX

- Unique self-filling design • Vacuum pressure keeps reservoir full without overflowing • Trapped air pressure in the well forces water to fill up reservoir while your dog drinks • Tip the box back to fill the well and set on level surface to fill the reservoir • Tip the box on its back and the well holds more than 2 gallons of water without spilling for easy transportation • 12" H x 10" W x 8" D **MSRP** \$94.00

13000201

RUSS KOMMER SIGNATURE **NEW**

TYPE Folding locking liner and full tang fixed blades **BLADE** Hollow ground, satin-finished AUS-8 stainless steel • Filet knife is 420 stainless steel • Laser-engraved with Russ Kommer's signature **HANDLE** Injection molded polymer rubber with brass spacer **FEATURES** Browning logo engraved on ricasso • Black nylon belt sheath with fixed blade models • Pocket clip on folder • These are the knives Russ Kommer designed for his own use as a professional hunting guide

RUSS KOMMER

For nearly 30 years Russ Kommer has earned his living as a highly respected big game hunting guide in Idaho and the wilds of Alaska. The work of a guide doesn't end with leading clients to trophy game animals; it starts there. Once an animal is on the ground the real work begins. Over the years Russ used many knives to dress and skin countless animals, yet found each knife lacking in performance. He drew upon his wealth of hands-on experience and started designing and producing his own knives. It turned out that Russ had a knack for this art and has become a talented, award-winning knifemaker.

What started as a hobby and the search for a better blade has led to numerous best-in-show awards. Russ creates and personally field tests his designs to ensure they meet the toughest standards — his own. Browning is honored to team with Russ to produce many of the knives throughout this catalog.

OUT OF DOORS.

GREAT KNIVES FOR THE GREAT OUTDOORSMAN.

BROWNING'S OUTDOORSMAN SERIES HAS YOUR WILD GAME PREPARATION NEEDS COVERED. FROM HUNTING CAMP TO COOKSTOVE TO CANDLELIGHT DINNER. YOU CAN CUT YOUR FIREWOOD, CLEAN YOUR GAME AND CARVE YOUR ROAST WITH OUR OUTDOORSMAN BLADES.

OUTDOORSMAN'S AXE

TYPE Axe **BLADE** One-piece head is hot-forged, hollow ground, high carbon 1055 tool steel • Integrated tang extends down into handle **HANDLE** Injection-molded polypropylene and fiberglass • Lightly textured for enhanced grip **FEATURES** Handle is shaped for easy hand placement when cutting kindling • Sheath included **MSRP** \$94.00

Includes tough nylon sheath with snap closure.

OUTDOORSMAN'S SHEARS

TYPE Shears **BLADES** High carbon tool steel **HANDLES** Tough polypropylene and rubber • Telescopes from 21" to 28" **FEATURES** Lower blade is serrated on one edge • Large guthook • Sheath included **MSRP** \$78.00

Includes tough nylon sheath with snap closure.

CAMPMATE KNIFE

TYPE Folding with liner lock knife **BLADE** 440 stainless steel knife blade, fork and spoon **HANDLE** Injection-molded checkered composite **FEATURES** Nylon sheath included **MSRP** \$32.00

CAMP SAWS

TYPE Folding camp saw **BLADE** 4116 stainless steel with push/pull saw teeth **HANDLE** Injection molded composite with rubber gripping inlays • Finger grooves and large tail radius for greater comfort and control **FEATURES** Button securely locks the blade in both the open and closed position • Nylon sheath can be worn in vertical or horizontal position

FIELD STEEL

TYPE Sharpening steel **HANDLE** Knurled for a sure grip **FEATURES** Diamond-coated two-piece steel reverses for use and storage • Stores compactly in its own sheath with belt loop **MSRP** \$32.00

Includes tough nylon sheath with snap flap.

COOL TOOLS.

KEEPING YOUR STOMACH FULL AND YOUR KNIVES SHARP IS EASY WITH THESE GREAT TOOLS FROM BROWNING.

PICKING THE RIGHT STEEL.

AH, STEEL — THAT MOST ADAPTABLE OF METALS FOR KNIVES AND CUTTING TOOLS. WE PICK EVERY BLADE STEEL IN EVERY KNIFE MODEL WE MAKE WITH CARE, SELECTING THE EXACT GRADE AND TYPE TO CREATE THE PERFECT BLEND OF TOUGHNESS, CORROSION RESISTANCE, EDGE HOLDING ABILITY, EASE OF SHARPENING AND LASTING VALUE.

THE CHART BELOW WILL HELP YOU BETTER UNDERSTAND BLADE STEELS SO YOU'LL BE ABLE TO SELECT THE PERFECT BROWNING KNIFE FOR YOUR NEEDS.

BROWNING BLADE STEEL INDEX					
STEEL TYPE	ATTRIBUTES	ROCKWELL HARDNESS	GOOD	BETTER	BEST
420	A tough carbon stainless steel that offers superior sharpenability with good edge retention and moderate corrosion resistance.	54	EDGE RETENTION / HARDNESS CORROSION RESISTANCE SHARPENABILITY		
AUS-6	A specialized stainless steel with vanadium added to improve wear resistance, sharpenability and corrosion resistance.	56	EDGE RETENTION / HARDNESS CORROSION RESISTANCE SHARPENABILITY		
440 Series	A classic all-around stainless for knife blades giving an excellent balance of sharpenability, good edge retention and high corrosion resistance.	56-60	EDGE RETENTION / HARDNESS CORROSION RESISTANCE SHARPENABILITY		
AUS-8A	A higher grade of Japanese vanadium stainless steel with additional carbon content. It offers improved wear resistance with reasonable sharpenability and excellent corrosion resistance.	58-60	EDGE RETENTION / HARDNESS CORROSION RESISTANCE SHARPENABILITY		
8Cr13MoV	A tough stainless that's usually tempered in the Rc56 to Rc58 range, it gives great corrosion resistance and edge retention along with good sharpenability.	56-58	EDGE RETENTION / HARDNESS CORROSION RESISTANCE SHARPENABILITY		
154CM/ATS-34	A premium, custom-grade U.S. or Japanese stainless used for both folding and fixed blades, it has a higher carbon and chromium content for greater hardness and outstanding edge retention.	58-61	EDGE RETENTION / HARDNESS CORROSION RESISTANCE SHARPENABILITY		
Sandvik® 12C27	A well-balanced Swedish stainless steel that provides high hardness with good wear resistance.	57-58	EDGE RETENTION / HARDNESS CORROSION RESISTANCE SHARPENABILITY		
X50 CrMo-15	A high-quality cutlery German stainless made with carbon, chromium and molybdenum to provide excellent sharpenability and good corrosion resistance.	56-60	EDGE RETENTION / HARDNESS CORROSION RESISTANCE SHARPENABILITY		
VG-10	A specialized, fine-grain Japanese stainless steel made with cobalt and vanadium that offers very good edge retention and hardness with all-around sharpenability and corrosion resistance.	59-60	EDGE RETENTION / HARDNESS CORROSION RESISTANCE SHARPENABILITY		
5Cr15MoV & 7-Cr	All-around stainless steels with similar qualities to the best 440 Series metals, providing good sharpenability, good edge retention and high corrosion resistance.	56-60	EDGE RETENTION / HARDNESS CORROSION RESISTANCE SHARPENABILITY		
N690Co	A premium grade of stainless steel from Austria with a higher cobalt content for greater hardness and exceptional edge retention, usually hardened at Rc58 to Rc61	58-61	EDGE RETENTION / HARDNESS CORROSION RESISTANCE SHARPENABILITY		

HOW TO CHOOSE A FLASHLIGHT

BROWNING IS A LEADING MANUFACTURER OF PORTABLE BATTERY-POWERED LIGHTING FOR HUNTERS AND SHOOTERS WITH MORE THAN 50 STYLES IN OUR PRODUCT LINE. TO CHOOSE THE BEST LIGHT, READ ON.

SIZE, WEIGHT AND POWER

When choosing a light, smaller, brighter and lighter are better. Today's high-output LEDs from manufacturers like Luxeon® and Cree® are so powerful and efficient they achieve the same light output as the old multi-cell C and D lights. The super bright Alpha and Alpha Max flashlights use a single AA battery yet are not much bigger than a shotgun shell.

LED VS. XENON BULBS

LEDs are preferred over Xenon bulbs for most uses, thus all Browning lights are now LED designs. LEDs use batteries more efficiently, illuminate at greater distances, emit a clean, even beam and will never burn out under normal use.

Like most technology, LEDs keep getting better every year. For 2013 many of our lights offer upgraded LEDs with 15% - 50% more output.

HAND-HELD OR HANDS-FREE

Headlamps and cap lights allow the use of both hands for tasks like dressing a deer, fixing a truck or finding a path through the woods. Modern technology makes many headlamps as powerful as larger hand-held flashlights. Several headlamps, such as MicroBlast and Phantom can be worn either as a headlamp, clipped a shirt pocket or to the brim of a hat.

LONG RUN TIME

By using advanced digital circuitry, highly efficient LEDs and low-resistance switches, we are able to offer extra long run times on many lights. Most Tactical Hunter lights will run for 20-60 hours on the low setting. These extended run times could be the difference between you getting home safely and having to spend the night in the woods.

WATERPROOF AND SUBMERSIBLE

Because the great outdoors doesn't always have great weather, we have redesigned several flashlights to be waterproof and submersible to 3 feet for 30 minutes (ANSI IPX7). Most of our other flashlights are O-ring sealed for greater water-resistance (IPX4). The new High Noon LED Spotlight is submersible and it floats.

BATTERIES

Lithium batteries are used in many of our highest-performing lights, such as Hunt Master and Nitro. Lithium batteries can pack twice the power of alkaline batteries for their weight, and operate well at very cold temperatures. Other lights in our line use AA and AAA alkaline batteries because they cost less than lithium and are readily available anywhere in the world. The latest integrated circuit designs in Browning's Pro Hunter, Chaos and Alpha flashlights allow alkaline batteries to approach the performance of lithium batteries.

SWITCH SETTINGS

Multiple switch settings (high, low and in-between) help preserve battery life and allow selection of colors and flashing options. The lock-out switches found on most of our lights keep the light from accidentally turning on in a pack or pocket. A disorienting Fast Strobe setting is now available on many Browning lights, and it has proven to be useful for self-protection and for signaling during an emergency.

RED, GREEN AND BLUE

Colored LEDs help preserve night vision and are great for map reading. They are less obvious than white light to many types of game animals.

ANSI FL-1 PERFORMANCE STANDARDS

We proudly participate in the ANSI FL-1 standards for measuring and stating performance claims for all portable lights. This includes Brightness (Lumens), Distance, Run Time, Water-Resistance, and Impact-Resistance. ANSI FL-1 provides the only reliable apples-to-apples comparison between models and is used by most major manufacturers. Look for these ANSI symbols on Browning light packaging.*

* For Browning lights with multiple settings, the lumens, battery life and distances are stated at the highest setting (100% power), unless indicated otherwise.

FLASHLIGHTS
BROWNING.COM

LUMENS = BRIGHTNESS

The output of a traditional 2D cell flashlight is approximately 15 - 20 lumens. The latest LED flashlights can have an output of more than 500 lumens.

BATTERY LIFE

Battery Life (Run Time) is defined as the time elapsed from when the batteries are new to when the light reaches 10% of the original brightness.

MAXIMUM DISTANCE

Maximum Distance is measured as the distance from the light source to where it decreases in brightness to 0.25 lux — about the brightness of the full moon on a clear night.

WATER-RESISTANCE

Water-Resistance (ANSI Standard IPX4) is tested by spraying water onto the light from multiple directions. This simulates a heavy, all-day rain.

WATERPROOF AND SUBMERSIBLE TESTING

Waterproof and Submersible Testing (ANSI Standard IPX7) assures water cannot get inside the light. This testing is conducted for 30 minutes at a water depth of 1 meter (about 39").

IMPACT-RESISTANCE

Impact-Resistance (ANSI Standard 1M) measures how well the light resists damage when dropped repeatedly from a height of 1 meter (about 39") onto concrete.

ON POINT

LENGTH 4" **BRIGHTNESS** 105 lumens **EFFECTIVE DISTANCE** 95 yards **FEATURES** Cree® XP-E LED emits a clean, white light • Uses one AA alkaline battery (included) • 90° angled head design stands vertically on a level surface for hands free use • High, low and fast strobe output settings • Waterproof • Submersible to three feet for 30 minutes • Aircraft grade aluminum construction with unbreakable lens • Soft rubber lens ring and tailcap ring • Lanyard hole • Lock-out tailcap switch • Deep Pocket carry clip rotates 360° **MSRP** \$78.00

3715510

NEW

3716610

ON POINT MAX

LENGTH 4.5" **BRIGHTNESS** 205 lumens **EFFECTIVE DISTANCE** 130 yards **FEATURES** Cree® XP-G LED emits a clean, white light • Uses two CR123A lithium batteries (included) • 90° angled head design stands vertically on a level surface for hands free use • High, low and fast strobe output settings • Waterproof • Submersible to three feet for 30 minutes • Aircraft grade aluminum construction with unbreakable lens • Soft rubber lens ring and tailcap ring • Lanyard hole • Lock-out tailcap switch • Deep Pocket carry clip rotates 360° **MSRP** \$118.00

BLACKOUT 6V

LENGTH 5.5" **BRIGHTNESS** 600 lumens **EFFECTIVE DISTANCE** 250 yards **FEATURES** Brightest CR123A two-battery flashlight • Powerful Cree® XM-L white LED that never needs replacing • Lock-out tailcap switch with momentary, continuous and fast strobe modes • Non-slip body and finger retention ring • All-aluminum body construction with optically clear scratch resistant glass lens • Waterproof • Submersible to three feet for 30 minutes • Drop tested to 1 meter • Incredible 36 hour run time on low output • CR123A batteries operate to -40° F and have 10 year shelf life **MSRP** \$157.00

3713410

BLACKOUT 9V

LENGTH 8.4" **BRIGHTNESS** 725 lumens **EFFECTIVE DISTANCE** 500 yards **FEATURES** Brightest CR123A three-battery flashlight • Powerful Cree® XM-L white LED that never needs replacing • Lock-out tailcap switch with momentary, continuous and fast strobe modes • Non-slip body and finger retention ring • All-aluminum body construction with optically clear scratch resistant glass lens • Waterproof • Submersible to three feet for 30 minutes • Drop tested to 1 meter • Incredible 50 hour run time on low output • CR123A batteries operate to -40° F and have 10 year shelf life **MSRP** \$204.00

3713510

NITRO HEADLAMP

BRIGHTNESS 205 lumens **EFFECTIVE DISTANCE** 160 yards **FEATURES** Advanced digital circuitry delivers maximum light output using a single CR123A lithium battery • Luxeon® Rebel white LED plus two red and two green LEDs are rated for 100,000 hour service life • 50% brighter LED for 2013 • Lock-out switch with settings for high and low output • Battery operates to -40° F • Glass-fiber reinforced polycarbonate housing with aluminum lens ring • Silent Hinge minimizes unwanted noise • Includes headstrap or can be used with hat clip **MSRP** \$86.00

3718620

CHAOS

LENGTH 6.0" **BRIGHTNESS** 150 lumens **EFFECTIVE DISTANCE** 130 yards **FEATURES** Cree® XP-E LED emits a clean, white light • Uses two AA alkaline batteries (included) • High, low and fast strobe output settings • Waterproof • Submersible to three feet for 30 minutes • Aircraft grade aluminum construction with unbreakable lens • Lock-out tailcap switch • Mossy Oak® Break-Up Infinity® camo • Dura-Touch Armor Coating **MSRP** \$94.00

BROWNING.COM

ALL IN LED.

LED IS THE HEAVYWEIGHT CHAMP IN BROWNING LIGHTS.

OUR LINE OF LIGHTS IS NOW ALL LED. THAT'S BECAUSE TODAY'S LED TECHNOLOGY OFFERS YOU THE LIGHT OUTPUT OF A TRADITIONAL HALOGEN OR XENON BULB COMBINED WITH GREATER DURABILITY AND LONGEVITY, OUTSTANDING BATTERY LIFE PLUS A WIDE VARIETY OF COLOR OPTIONS. LET A BROWNING LED LIGHT LEAD YOU INTO OR OUT OF THE DARKEST WOODS.

PRO HUNTER

LENGTH 5" to 5.5" depending on model **BRIGHTNESS** 25 to 100 lumens depending on model and mode **EFFECTIVE DISTANCE** 27 to 110 yards depending on model and mode **FEATURES** Long-running, powerful LEDs are rated for 50,000 to 100,000 hours and will not burn out under normal use • Rugged, lightweight ribbed polymer bodies provide maximum grip in wet or cold weather • Rugged aluminum lens rings • O-ring sealed and ANSI rated for water resistance • All models use affordable and easy to find AAA batteries (included) • Tactical-style lock-out end cap assures the light is not turned on accidentally • Carrying lanyard

PRO HUNTER RGB FLASHLIGHT

• Two high-intensity LEDs for long distance illumination • One wide view LED for maximum peripheral vision • One red-green-blue LED to enhance night vision and is shown to be stealthier around game animals • 40 lumen output on high setting • Black body with matte aluminum lens ring

PRO HUNTER LED

• Unbreakable, long-running LEDs • Center 0.5W LED pushes 25 lumens for illumination out to 55 yards • Two red and two green LEDs enhance night vision and safety, and are shown to be stealthier around game animals • Dura-Touch® Armor Coating enhances grip in all conditions

CLASSIC PRO

• The Classic Pro is rated at 100 lumens for illumination out to 110 yards • Tactical tailcap switch has high, low and flashing modes • Lock-out feature protects the batteries

TWIN BEAM+

• The ultimate hunting flashlight • Cree® XP-C LED throws 100 lumens for illumination out to 110 yards • Green Cree XP-C LED emits 70 lumens for the maximum in stealthy brightness without disturbing the game animals nearby • Soft-Sunshine LED limits glare for better up-close map reading and tracking • Flash mode in any setting (including green) • Memory feature returns to the most recent setting when the light is turned back on

CLOTHING

TECHNOLOGY MOVES AT A RAPID PACE IN TODAY'S WORLD, EVEN WHEN IT COMES TO HUNTING CLOTHING. OVER THE SPAN OF A FEW YEARS, WE HAVE MOVED BEYOND ITCHY WOOL AND STUFFY RUBBER OUTERWEAR TO THE LIGHTWEIGHT, BREATHABLE AND WATERPROOF TECHNICAL GEAR OF TODAY. NO QUESTION ABOUT IT, HUNTING CLOTHING IS BETTER THAN EVER AND BROWNING HAS LED THE INDUSTRY IN INNOVATION FOR DECADES. WHETHER IT'S FOR BIG GAME OR UPLAND HUNTING, ARCHERY, WATERFOWL OR EVEN THE TRAP RANGE, OUR TEAM OF EXPERTS ARE CONSTANTLY PUSHING THE BOUNDARIES TO BRING YOU THE BEST PERFORMING OUTDOOR GEAR.

HMX BI-COMPONENT WATERPROOF BREATHABLE FABRIC TECHNOLOGY IS HERE.

- ◆ Industry leading Bi-Component HMX fabric is different because it combines the advantages of the two most widely used waterproof and breathable technologies: Hydrophilic Monolithic and Hydrophobic Microporous.
- ◆ Hydrophilic Monolithic systems do not transport perspiration vapor, but only the liquid perspiration formed when the vapor condenses.
- ◆ Hydrophobic Microporous systems transport vapor, but do not transport condensed perspiration.
- ◆ Bi-Component HMX takes advantage of both technologies to move both water vapor and condensed water to the outside of the garment to protect from internal moisture and totally prevent water entry from the outside.

- A) Wicks moisture away.
- B) Pumps away perspiration.

BI-COMPONENT Waterproof breathable fabric (Shown magnified 300 times)

PRIMALOFT KEEPS YOU WARM, WHETHER IT'S WET OR DRY.

- ◆ PrimaLoft is a premium performance insulation engineered for superior warmth, water-resistance, loft, softness and compressibility.
- ◆ PrimaLoft fibers are the finest in the industry.
- ◆ PrimaLoft fibers are densely packed to retain heat better for improved thermal efficiency.
- ◆ PrimaLoft fibers are treated to repel water molecules and absorb less water to make it more water-resistant and faster drying than other polyester insulations.
- ◆ PrimaLoft fibers are tightly compressed for improved wind-resistance, less bulk and extreme compression. That's what makes our clothing with PrimaLoft insulation so good.

Being cold is a thing of the past with PrimaLoft insulation in the Browning Technical Clothing line-up. PrimaLoft is a premium performance, fine-fiber, high-loft insulation engineered to keep you warmer, drier and more comfortable in extreme conditions — even if it gets wet. PrimaLoft is so good, it was chosen by the U.S. Military with over 1,000,000 PrimaLoft military garments deployed in active service around the world.

PRE-VENT. FOR SUPERIOR WATERPROOF, WINDPROOF AND BREATHABLE PERFORMANCE.

- ◆ Pre-Vent is our go-to waterproof, windproof, breathable fabric.
- ◆ Pre-Vent keeps out rain, snow and wind while breathing away perspiration to keep you warmer and drier.
- ◆ Introduced in 2005 to meet the demands of hunters who were tired of getting wet during adverse weather conditions.
- ◆ Pre-Vent is used in 2-layer, 2.5-layer and 3-layer jackets, pants and gloves to meet different weather conditions.

RECOIL PROTECTION

REACTAR G2 PAD WITH IMPACT GEL™ FOR BETTER PERFORMANCE.

- ◆ The REACTAR G2 pad features a totally new, ultra-flexible recoil absorption material called Impact Gel™ that absorbs recoil forces better than any other pad on the market.
- ◆ The REACTAR G2 pad is only 8mm thick so it doesn't change your length of pull or point of aim.
- ◆ Increase comfort and reduce fatigue with a "Made in the USA" REACTAR G2 pad.

YKK® AQUAGUARD® ZIPPER TECHNOLOGY.

- ◆ Zippers are usually the last thing you think about when buying a parka. When designing a parka, however, it is one of the first. For 2013, YKK® Aquaguard® zippers are featured on many Browning parkas and jackets. The new Aquaguard zipper design features an innovative new tooth design that offers improved water repellency compared to standard zippers. Because it is so water-resistant, this new zipper allows garments to be designed without the traditional button-down storm flap for lighter, better looking gear.

ODORSMART CONTROLS ODORS BEFORE THEY BECOME A PROBLEM.

- ◆ Human odor is caused by bacteria that thrive on your skin. The bacteria's waste produces odors that are detected by deer and other big game animals.
- ◆ OdorSmart attacks the bacteria on the skin and in the "microclimate" immediately around the skin, helping to kill the bacteria BEFORE odors develop.
- ◆ OdorSmart will last for the life of the garment with normal use and care, and does not require recharging or special cleansers. Just wash OdorSmart items as instructed on the care label.
- ◆ OdorSmart technology is available in Browning base layers, in lining materials where it inhibits the growth of bacteria, and also in insulations where it attracts and neutralizes odor-causing bacteria in the structure of the insulation thus keeping it off the skin. The combination of OdorSmart in base layer, linings and insulation provides you with multiple layers of defense against odor.

NO MORE COLD HANDS!

- ◆ Cold hands are often caused by moisture collecting between the outer shell of the glove and the interior waterproof liner. It's just like inserting a small plastic bag inside a larger bag, then filling the space between the two bags with ice water. Your hand is dry, but your fingers get cold.
- ◆ The revolutionary OutDry® membrane lamination process eliminates the space between the outer shell fabric and the inner waterproof liner so there's no place for chilling moisture to collect.
- ◆ The waterproof liner is fused to the inside surface of the fabric shell, eliminating torn or loose fitting liners, soggy gloves and cold fingers.
- ◆ This unique construction also offers a sleeker fit and improved finger dexterity.

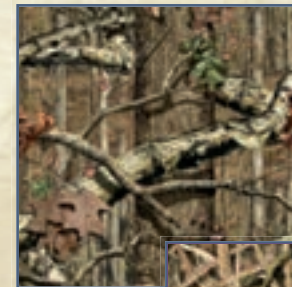

CAMOUFLAGE

MOST BROWNING CLOTHING ITEMS ARE OFFERED IN REALTREE® AND MOSSY OAK® CAMO.

- ◆ Realtree and Mossy Oak represent the backbone of the hunting camo market, and now the most popular Browning clothing items are available in patterns from both companies. This gives you the pattern that matches the other outdoor gear you have or plan to buy. No matter when and where you hunt, we have the gear you need in the camo pattern you want.

PRIME LOFT. THE NEW GENERATION OF INSULATION.

PRIMALOFT IS THE FINEST SYNTHETIC INSULATION AVAILABLE, WHICH IS WHY IT IS IN SERVICE WITH THE US MILITARY, AND NOW AVAILABLE FROM BROWNING. PRIMALOFT IS WARMER, SOFTER AND STAYS DRIER THAN OTHER SYNTHETIC INSULATIONS AND THE LOW BULK MATERIAL AND ATHLETIC FIT MAKES IT EXTREMELY PACKABLE AND IDEAL FOR LAYERING.

DOWN RIGHT WARM.

LESS WEIGHT AND MORE WARMTH
WITH 700 DOWN.

FOR MAXIMUM WARMTH AND MINIMUM WEIGHT, DOWN IS AS GOOD AS IT GETS. DON'T BELIEVE US? TAKE A LOOK AT WHAT CLIMBERS SUMMITTING MOUNT EVEREST RELY ON TO GET THEM TO THE TOP OF THE WORLD. FLUFFY 700 DOWN IS THE PERFECT INSULATOR. IT CAN BE WORN ALONE ON DRY DAYS AND THE MORE ATHLETIC CUT ALLOWS IT TO FIT COMFORTABLY UNDER A WATERPROOF SHELL WHEN THE SNOW STARTS TO FLY.

700 FILL POWER DOWN JACKET

- 700 fill power goose down insulation provides maximum warmth with the least weight and bulk
 - Backpack friendly design provides easy access to pockets
 - Lycra® cuff and hem
 - Contrasting side stripe
 - Stuffs into internal pocket
- SIZES** S-3XL
MSRP Starting from \$205.00

For more information on clothing technologies, see pages 194-195.

FEATURES

ANGLE-ENTRY POCKETS

- ◆ Angle-Entry pockets are designed around your arm and hand.
- ◆ When your hands are above your elbows they naturally point up, and when they are below your elbows they point down.
- ◆ The interiors of the chest accessory Angle-Entry pockets and the shell pockets are slanted down to align with your hand angles while the two handwarmer Angle-Entry pockets slant up.

RAGLAN SLEEVES

- ◆ Raglan sleeves are cut at a long tapering angle right up to the collar line.
- ◆ The top of the sleeve becomes one seamless piece of fabric all along the shoulder with no exposed seams to leak, even in the worst downpours.

ARROW GUSSETS

- ◆ The Arrow Gusset armpit design has a smooth, tapering shape as it rises along the side to under the sleeve.
- ◆ Offers you a better fit, enhanced range of movement and no binding.

FABRIC TECHNOLOGIES

PRIMALOFT® KEEPS HUNTERS WARM, IN ANY CONDITIONS, WET OR DRY.

- ◆ PrimaLoft is a premium performance insulation engineered for superior warmth, water resistance, loft, softness and compressibility.
- ◆ PrimaLoft fibers are the finest in the industry.
- ◆ PrimaLoft fibers are densely packed to retain heat better for improved thermal efficiency.
- ◆ PrimaLoft fibers are treated to repel water molecules and absorb less water to make it more water-resistant and faster drying than other polyester insulations.
- ◆ PrimaLoft fibers are tightly compressed for improved wind-resistance, less bulk and extreme compression. That's what makes our clothing with PrimaLoft insulation so good.

Being cold is a thing of the past with the addition of PrimaLoft insulation to the Browning Technical Clothing line-up. PrimaLoft is a premium performance, fine-fiber, high-loft insulation engineered to keep hunters warmer, drier and more comfortable in extreme conditions — even if it gets wet. PrimaLoft is so good, it was chosen by the US Military with over 1,000,000 PrimaLoft military garments deployed in active service around the world.

PRE-VENT. FOR SUPERIOR WATERPROOF, WINDPROOF AND BREATHABLE PERFORMANCE.

- ◆ Pre-Vent is our go-to waterproof, windproof, breathable fabric.
- ◆ Pre-Vent keeps out rain, snow and wind while breathing away perspiration to keep you warmer and drier.
- ◆ Introduced in 2005 to meet the demands of hunters who were tired of getting wet during adverse weather conditions.
- ◆ Pre-Vent is used in 2-layer and 3-layer jackets, pants and gloves to meet different weather conditions.

VARI-TECH GARMENT CONSTRUCTION (Product shown on page 227)

VARI-TECH DESIGN

- ◆ Vari-Tech Temperature and Motion Design mixes insulation weights.
- ◆ Heavier PrimaLoft® Synergy insulation is placed in the body to maintain core temperature.
- ◆ Lighter bonded 3-layer fabric insulation is placed in the sleeves for warmth, ease of movement and a full range of motion.

ARTICULATED KNEE

- ◆ Vari-Tech Temperature and Motion Design adds highly-tailored pleated leg construction.
- ◆ Pre-curved knee design follows the natural bend of your knee for less bunching of material behind the knee when sitting.
- ◆ Offers greater ease of motion when walking or when climbing in and out of boats and blinds.

DIRTY BIRD 4-IN-1 PARKA

SHELL Pre-Vent waterproof, breathable fabric shell • Angle-Entry pocket design • Two upper Angle-Entry handwarmer pockets • Two zippered chest Angle-Entry accessory pockets • Two lower bellows shell Angle-Entry pockets with magnetic closure and internal pleat • Raglan sleeve design eliminates top shoulder seam for a more waterproof design • Arrow Gusset armpit design and articulated elbow for greater range of motion • Overlay forearm patches to prevent wear • Detachable, adjustable hood • Inside security pocket • External and internal storm flap • Adjustable, watertight laminated cuffs • Molded shoulder strips prevent wear on shoulder areas • Internal waist drawcord • Mesh moisture barrier strip between shell and lining • X-Change System compatible • License tab

WATERFOWL
BROWNING.COM

DIRTY BIRD GIVES ADVANCED PROTECTION FROM NASTY CONDITIONS.

YOUR DOG DOESN'T COMPLAIN WHEN IT'S COLD AND WET OUTSIDE, AND YOU KNOW YOUR BROWNING SHOTGUN IS THERE FOR YOU NO MATTER WHAT. REWARD THEM BOTH WITH THE THUMP OF BIRDS HITTING THE WATER BY MAKING SURE YOUR CLOTHING IS GOOD ENOUGH TO KEEP YOU IN THE BLIND IN THE WORST WEATHER CONDITIONS. RELY ON BROWNING DIRTY BIRD TECHNICAL WATERFOWL CLOTHING TO KEEP YOU IN THE FIELD WHEN THE GOING GETS HARDCORE. THE WATERPROOF, BREATHABLE PRE-VENT® FABRIC SHELL KEEPS WATER OUT AND ALLOWS PERSPIRATION TO ESCAPE, WHILE PRIMALOFT® SYNERGY INSULATION KEEPS YOU WARM AND DOESN'T INTERFERE WITH YOUR GUN HANDLING.

GET NASTY DIRTY.

WIDE NYLON SHOULDER STRAPS TRANSFER THE LOAD TO YOUR SHOULDERS, YET STILL ALLOW YOU TO SWING THROUGH THE BIRD NATURALLY

QUICK-RELEASE STERNUM STRAP HELPS KEEP THE WEIGHT CENTERED BETWEEN YOUR SHOULDERS FOR IMPROVED BALANCE AND LESS FATIGUE

FULLY-ADJUSTABLE LOAD BEARING STRAPS PLACE THE LOAD'S CENTER OF GRAVITY WHERE IT'S MOST COMFORTABLE TO CARRY

ERGONOMICALLY-CONTOURED, PADDED ADJUSTABLE WAIST BELT OFFERS ADDED SUPPORT TO YOUR LOWER BACK AND ALLOWS PART OF THE LOAD TO BE CARRIED ON YOUR HIPS FOR GREATER COMFORT

QUICK-RELEASE COMPOSITE BUCKLE ALLOWS FOR QUICK ON AND OFF

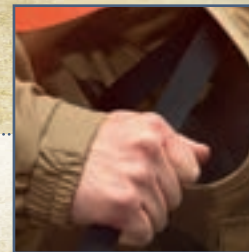

LIGHTEN UP A BIT.

PHEASANTS CAN BECOME SURPRISINGLY HEAVY AND UNCOMFORTABLE AFTER LUGGING THEM AROUND FOR A COUPLE OF HOURS. ADD IN WATER, SHELLS AND A SANDWICH AND YOU ARE IN FOR AN UNCOMFORTABLE WALK BACK TO YOUR TRUCK. THIS SEASON, TRY BROWNING BIRD'N LITE.

BASICALLY A BACKPACK INSIDE A JACKET OR VEST, BIRD'N LITE DISTRIBUTES YOUR BURDEN EVENLY ACROSS YOUR HIPS AND SHOULDERS TO MAKE CHASING BIRDS EASIER THAN EVER.

Sternum strap keeps shoulder straps in place

Load bearing straps are adjusted within game bag pockets

Weight is evenly distributed between the shoulders and hips

Adjustable waist belt secures the load to the hips

BLACK LABEL TACTICAL CLOTHING — THINK OF IT AS HARDWARE YOU WEAR.

TODAY'S TACTICAL CLOTHING HAS A HIGH COOL FACTOR, BUT YOU KNOW THAT SIMPLY SEWING A GRITTY LABEL ON EVERYDAY OUTDOOR CLOTHING DOESN'T MAKE IT TACTICAL. BROWNING BLACK LABEL BREAKS OUT FROM THE "ME-TOO" TACTICAL CLOTHING CROWD BY OFFERING YOU THE FIT, FUNCTION AND FEATURES YOU WANT AND NEED.

CONCEALACCESS ENTRY

- ◆ ConcealAccess side seams are secured with non-locking zippers or hook and loop fasteners yet open instantly to give you access to your legally-concealed sidearm.

REACTAR POCKETS

- ◆ Pockets inside the shoulders accept a REACTAR G2 pad that absorbs recoil from hard-kicking rifles and shotguns. The REACTAR G2 pad is sold separately.

SNAPSHOT ACCESS

- ◆ SnapShot magnetic buttons allow you instant access to a lawfully concealed sidearm carried under the shirt in a shoulder holster.

CONCEAL POCKETS

- ◆ Concealed pockets let you stow your carry permit or credentials, tactical lights and other items yet have them right at your fingertips.

MIC / RADIO LOOP

- ◆ Front placket loop keeps a small radio or a microphone handy for instant access with either hand from any position.

PEN POCKETS

- ◆ Pen pockets on the sleeve keeps your pens, pen lights or other similar items within easy reach.

ON-SLEEVE ZIP POCKET

- ◆ Keep your small items close at hand in the on-sleeve zippered pocket. This feature is especially handy when you're seated in a vehicle or when you're working undercover.

KNIFE CLIP OVERLAY

- ◆ Overlay on front pockets is extended downward to protect the pant from wear or abrasion caused by the pocket clips on knives, flashlights and pocket tools.

STASH POCKETS

- ◆ Leading Edge stash pockets provide you instant access to small items, especially when seated in a vehicle or kneeling on the range. The hidden zippers keep contents secure during movement.

KNEEPAD POCKETS

- ◆ Internal kneepad pockets allow use of various pads, while the opening is sized to make insertion a snap. (Kneepads are not included.)

STRETCH WAISTBAND

- ◆ Stretch waistband lets you move freely without binding or pinching, especially when you're wearing a lawfully concealed sidearm.

ACCESSORY POCKETS

- ◆ Flapped accessory pockets puts a phone, PDA, digital camera or spare magazine right at your fingertips.

LOOKIN' SHARP.

RICK CAMUGLIA

Rick is a long-time Browning shooter with multiple sporting clays titles, nearly all won with Browning autoloading shotguns. A short list of his victories includes multiple National and Regional FITASC Championships, nine-time New Mexico State Champion, two-time HOA Arizona State Champion and two-time HOA Colorado State Champion. He is also an eight-time NSCA All-American Team member. Rick prefers to shoot the Maxus autoloader.

ANDY DUFFY

Andy is the only shooter to win three NSCA National Championships with back-to-back wins in 1994 and 1995. He has been on the NSCA All-American Team 17 times, Team USA 20 times and won more world, national and local sporting clays championship titles than he can shake a stick at. In 2005, he was honored by being inducted into the NSCA Hall-of-Fame. When Andy isn't dusting clays with his Citori, you will find him instructing others in the ways of shotgunning. Andy recently shot a 100 straight at a registered shoot with a Citori 725.

JOHNNY MEITZEN

Johnny started shooting competitively in 1987 and is currently a NSCA Level III instructor. He has won a number of shooting titles including two-time NSCA Nationals Vet Champion and two-time NSCA Nationals FITASC Vet Champion. Johnny is a six-time All-American Sporting Team member, two-time Team USA Sporting member and two-time Team USA FITASC member. He also has many state and zone championship titles to his credit. Johnny is a die-hard Citori man. His current model of choice is the Citori 625 Sporting.

MATT HUGHES

Matt is a nine-time UFC® World Welterweight Champion and was inducted into the UFC Hall of Fame in 2010. Matt's toughness and work ethic are legendary in the UFC, something he attributes to growing up on a farm in rural Illinois. Matt spent a good portion of his early years hunting and shooting — passions that have never left him. Those passions now see him in front of the camera as the host of the Browning-sponsored "Trophy Hunters TV".

ROBBIE PURSER

Robbie started shooting skeet at the tender age of six. Over the years he has accumulated an impressive list of shooting titles including 1980 World Skeet Champion, 1991 and 1998 NSCA Champion, Zone 4 Champion, Quail Unlimited Champion, four-time Ducks Unlimited Champion, 2002 Sportsman Team Challenge Champion and an ESPN Great Outdoor Games gold medalist. He is also a twelve-time All-American Team member, a member of Team USA and a ten-time Georgia State Champion. All told, Robbie has more than 200 tournament wins to his credit. Robbie recently shot his first 100 straight at a registered shoot with a Citori 725.

KRISTY LEE COOK

Kristy brought her amazing voice to the TV screen on the 7th season of "American Idol®." Now Kristy is a rising country music singer and possesses an infectious passion for everything she does, whether it is performing, hunting or saving horses through the Kristy Lee Horse Heaven Foundation.

FRED ZINK

Fred founded Zink Calls™ in 2001 primarily to fulfill the needs of waterfowlers and professional callers who demanded high-end calls. A nationally-recognized goose caller in his own right, Zink's business continues to grow and set new standards in the call industry. Zink's high-octane 24/7 DVD series and Avian-X TV show speak to hunters with exciting footage that shares the hunting experience with the viewers. In 2013, look for Fred to be shooting Browning autoloaders as he continues his quest to bring new hunters into the sport and grow the outdoor industry.

BRODY SIKES

Brody is a rising star on the clay target scene, winning the 2010 North American Grand Prix FITASC event at Claythorne Lodge. Brody shoots a Browning Citori for clay targets and a Silver in the blind. A product of the popular SCTP development program, Brody and his Browning shotguns will be in the winner's circle for years to come.

FOSTER AND MATT BARTHOLOW

Foster and Matt are rising stars on the ATA trapshooting circuit, and both shoot Browning Citori shotguns. The brothers came up through the Scholastic Clay Target Program and have made their mark within the open ranks. Whether in a shoot-off with legendary Leo Harrison III or winning the Preliminary Doubles event at the Grand American, both will tell you that the Citori shotgun is a workhorse that just keeps on shooting, round after round, year after year.

ZAC COOPER

At four months of age, Zac Cooper was on a plane to Iowa for a whitetail hunt. He took his first two deer at age five, and hunting has since become a way of life for Zac. He has gained national recognition for his speaking ability, and has been a guest speaker at such events as the 2009 QDMA National Convention, the University of Florida's Field Day, the Sportsman's Spectacular, and Florida's National Field Day. Zac is also a leader in school, serving in student government while maintaining straight-A grades. Zac has two long-term goals: To be a positive influence on today's youth and to help get them into the sport of hunting. See him in his hunting DVD titled "Little Man, Big Dreams."

DEEANN MASSEY

DeeAnn was introduced to sporting clays shooting by her husband Jeff, who taught her to shoot in their backyard. She shot in her first tournament in the summer of 1996. In 1997, ten days before the Sporting Clays National Championship, she purchased her first 12 gauge Browning Gold. She used the Gold to tie for Ladies High Overall. Since then she has won two National Championships and has been a five-time runner-up. She has been on the 1st All-American Team twelve times and Team USA seven times. She has also won the Michigan State Ladies Championship twelve times, the Zone Three Ladies Championship ten times and has numerous other wins in local and regional competition. She has been a member of the Browning Pro Staff Team for thirteen years. DeeAnn currently shoots the Cynergy over and under.

KNIGHT AND HALE

David Hale and Harold Knight are two of the industry's best-known hunters. In 1972, David, a pig farmer, and Harold, a barber, teamed up to form Knight & Hale Game Calls. By creating innovative products like the Original Tube Goose Call and the patented inhale-exhale operation of the EZ Grunter Plus, David and Harold helped redefine the hunting industry. David and Harold use Browning firearms and clothing with confidence, knowing the high quality of Browning products satisfies the needs of the avid outdoorsman. You can watch David and Harold pursue big game, turkeys and waterfowl on their TV series "Knight & Hale's Ultimate Hunting."

BROWNING LICENSED PRODUCTS

THE BROWNING BUCKMARK IS THE MOST RECOGNIZABLE SYMBOL IN THE OUTDOOR INDUSTRY. PLACING IT ON YOUR VEHICLE, T-SHIRT, CAP, OR EVEN A BICEP TELLS THE WORLD ABOUT YOUR INTERESTS AND THE LIFESTYLE YOU LIVE. POLARIS

Warning: The Polaris *RANGER* and *RZR* are not intended for on-road use. Driver must be at least 16 years old with a valid driver's license to operate. Passengers must be at least 12 years old and tall enough to grasp the hand holds and plant feet firmly on the floor. All SxS drivers should take a safety training course. Contact ROHVA at www.rohva.org or (949) 255-2560 for additional information. Drivers and passengers should always wear helmets, eye protection, protective clothing, and seat belts. Always use cab nets. Be particularly careful on difficult terrain. Never drive on public roads or paved surfaces. Never engage in stunt driving, and avoid excessive speeds and sharp turns. Riding and alcohol/drugs don't mix. Check local laws before riding on trails. ATVs can be hazardous to operate. Polaris adult models are for riders 16 and older. For your safety, always wear a helmet, eye protection and protective clothing, and be sure to take a safety training course. For safety and training information in the U.S., call the SVIA at (800) 887-2887. You may also contact your Polaris dealer or call Polaris at (800) 342-3764. ©2012 Polaris Industries Inc.

BE A SAFE SHOOTER Read and follow all safety information in the owner's manual provided with each firearm before using the firearm. Additional copies are available for free download on the Browning website. Browning endeavors to make the safest firearms possible, however, firearm safety begins with you. At all times treat any firearm with intense respect for its power and potential danger. Always point the muzzle in a safe direction. There is no excuse for careless or abusive handling of any firearm.

BROWNING IS COMMITTED TO SERVING YOU Every effort has been made to ensure that all product photographs, descriptions and specifications in this workbook are accurate; however, inadvertent errors may occur. Changes in design or materials due to our continual effort to improve products may result in specification changes before subsequent publications are issued. Browning reserves the right to modify or change specifications without notice. If you have any questions regarding Browning products, please write to Browning, One Browning Place, Morgan, UT 84050-9326.
