2019

# Browning 2019.

1919 was a great year for John Moses Browning. On February 4, 1919 he was granted two U.S. Patent — Nos. 1,293,021 and 1,293,022. The first covered several improvements to the Model 1917 machine gun and the second was for the Browning Light Machine Gun — his legendary B.A.R. Later that year he was granted another patent for a pump-action .22 caliber rifle. This little rimfire saw production in the fabled Belgian factories of Fabrique Nationale for the European market, but was one of the few Browning-designed firearms that never made it to United States shores.

Fast forward 100 years and the Browning brand is poised for another successful year. From firearms to knives, and apparel to safes, there are new and improved products to be discovered in every category. Each of these new products have been developed, tested and proven to give you the edge you need when you venture into the field, tree stand, marsh, mountains or step to the firing line. Just as it was a century ago, Browning innovation, quality and the desire to be The Best There Is for our customers has led us to dominate the firearms industry yet again.

## Technology to Get You on Target.

John M. Browning developed his first shotgun more than 130 years ago — the lever-action Model 1887 which is widely considered to be the first successful repeating shotgun. Later innovations such as the Model 1897 pump, Auto-5 autoloader and Superposed over and under followed and helped to firmly cement Browning as an innovator in the firearms industry. At Browning, we continue to strive to carry on the work of our founder through designing new shotguns, and by continuing to improve the performance of existing models. From developing low-profile over and unders like the Cynergy, adding state of the art recoil pads to tame felt recoil or introducing a new choke tube system to improve shot pattern consistency, we are constantly working to keep you on target.

### FEATHER TECHNOLOGY

- Browning Feather technology significantly reduces the weight of an over and under shotgun, by about one pound, using a high quality alloy for the receiver rather than steel.
- Steel components are added to high wear areas, ensuring durability.

### STEEL BREECH FACE

- A steel breech face is dovetailed into the alloy receiver to ensure strength and long wear.

### STEEL HINGE PIN

- The full-width, steel hinge pin provides maximum strength and endurance.

### INFLEX RECOIL PAD

- Inflex recoil pads incorporate directional deflection construction that guides the comb down and away from your face, reducing felt recoil for greater shooting comfort and allowing faster, more accurate follow-up shots.
- The Inflex recoil pads are made from a soft material for the best recoil absorbing performance available.

### FLOATING RIB

- The floating rib allows the rib and barrel to expand at different rates and move independently of each other.
- The floating rib prevents point of impact shifts caused by the barrel heating.

### MICRO AND MICRO MIDAS FIREARMS

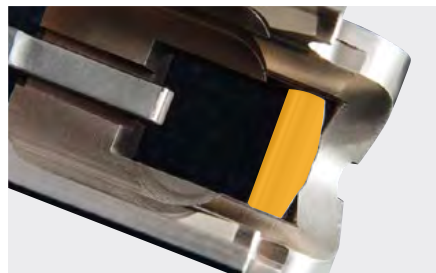

- Micro and Micro Midas firearms are specifically designed to give younger or smaller shooters a high quality, great fitting firearm.
- Micro and Micro Midas firearms are constructed with the same quality components and attention to detail as are all Browning firearms.

### BROWNING GROWTH INSURANCE PROGRAM

- Micro and Micro Midas models are eligible for the Growth Insurance Program that allows new owners to purchase a full-size stock at 50% off the retail price.
- Growth Insurance allows Micro and Micro Midas firearms to grow with the shooter to offer a higher rate of return on your firearm investment.
- Visit [browning.com](http://browning.com) for complete details.

## Total Barrel Dynamics

Total Barrel Dynamics is a system of features that work together to reduce shot deformation and improve pattern consistency and performance. Each component of Total Barrel Dynamics plays a part in keeping shot patterns dense to put more pellets on your target. To ignore any single aspect of the system weakens the overall performance. Look for Total Barrel Dynamics on A5, Maxus, BT-99 and on 12 and 20 gauge Citori 725, Citori and Cynergy models.

### VECTOR PRO LENGTHENED FORCING CONE

- The forcing cone is the tapered transition between the chamber and the bore that constricts the shot column. The longer the forcing cone is, the more gradual the constriction. Vector Pro is better than the competitors' forcing cone designs because it has a more gradual constriction.
- The Vector Pro forcing cone reduces stress on the shot column as it moves into the bore, reducing pellet deformation for more uniform patterns and more pellets in the center of the pattern.
- Lengthening forcing cones is a popular and expensive aftermarket practice done to increase shot pattern performance but it comes standard on A5, Maxus, BT-99 and on 12 and 20 gauge Citori 725, Citori and Cynergy models.

### BACK-BORED TECHNOLOGY

- Back-boring enlarges the bore to the maximum diameter to increase shot velocity and minimize pellet deformity for more uniform patterns and a reduction in felt recoil.
- Extensive testing has shown that Back-Bored Technology reduces the friction between the shot cup and the bore, but does not allow gases to slip past the shot cup that would result in reduced pellet velocity and blown patterns.
- Back-Bored Technology specifications minimize shot deformation and maximize pattern uniformity, consistency and density. Back-Bored Technology is standard on A5, Maxus, BT-99 and on 12 and 20 gauge Citori 725, Citori, Cynergy, BPS and Silver models.

### INVECTOR-DS

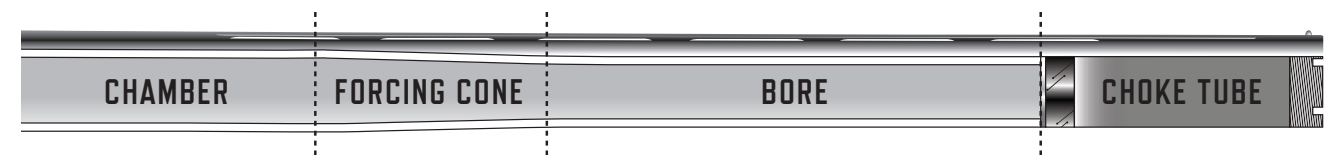

- “DS” stands for double-seal, our proprietary differential-banded brass seal. It compresses against the barrel wall to keep the choke tube threads clean and makes installation and removal easier than any other muzzle thread system.
- Invector-DS choke tubes combine muzzle-end threads and thin-wall construction for a longer, more gradually tapered choke tube that produces extremely consistent, dense shot patterns.
- From Cylinder to Extra Full, Invector-DS shot patterns tighten consistently in reliable, evenly scaled steps.
- Muzzle end threads minimize the flare at the end of the barrel for improved shotgun appearance. A slightly lighter overall barrel weight is achieved for a faster swing and improved balance.
- The more gradual taper of Invector-DS choke tubes reduces shot deformation for fewer flyers and gaps in the pattern and allows higher shot velocities for hard-hitting performance.
- Invector-DS is standard on A5 and Citori 725 models.
- View the full line of Invector-DS choke tubes on pages 171, 173 and 174.

### INVECTOR-PLUS

- Invector-Plus started the long choke tube revolution. An ever-growing collection of world, national and local championships is proof of its patterning performance.
- The Invector-Plus choke tube system works with Vector Pro and Back-Bored Technology to offer consistent, dense shot patterns with the constriction needed depending on the shooting situation.
- The long choke taper inside an Invector-Plus choke tube produces consistent patterns with more uniform densities and fewer flyers.
- Threads on the breech end of the choke tube help prevent gases from slipping between the choke tube and barrel that could damage the choke tube and the barrel.
- Invector-Plus is standard on 12 and 20 gauge Maxus, Citori, Cynergy, Silver, BPS and BT-99 models.
- View the full line of Invector-Plus choke tubes on pages 171 through 174.

### STANDARD INVECTOR

- The Standard Invector Interchangeable Choke Tube System offers consistent, dense shot patterns with the right constriction needed for the shooting situation.
- Threads on the breech end of the choke tube help prevent gases from slipping between the choke tube and barrel that could damage the choke tube and the barrel.
- Standard Invector is standard on 10, 16 and 28 gauge, and .410 bore Citori, Cynergy, Gold and BPS models.
- See pages 171 through 174 for our complete line of choke tubes.

Citori.

NEW

The Browning High Grade Program  
— Now with Four Times the Excitement.

It is a rare occasion when a shotgun is so beautiful, so functional, that it shouldn't be contained to just a single discipline. Such is the case with the 2019 Browning High Grade Program offering. The Browning Citori High Grade Side Plate Four Gauge Combo features a receiver with full side plates that are extensively engraved. It is this receiver that serves as the foundation to four interchangeable barrel sets that allow you to match the ammunition to the sport or quarry at hand, while enjoying the artistry of a shotgun that is sure to be among the crown jewels of your collection.

CITORI HIGH GRADE SIDE PLATE

A John M. Browning Signature leather fitted case that holds all four barrel sets is included.

SHOTGUNS

## Features and Benefits

### LOW PROFILE RECEIVER

- Improved recoil control and less muzzle jump are two of the biggest benefits of a low profile receiver. There is also the "one with the gun" feeling that makes the Citori 725 feel like an extension of your body.
- Places the front hand closer to the bore line for superior hand-eye coordination and pointability.
- Citori 725 receivers are machined from steel for a long life and feature a durable, attractive silver nitride finish.

### TRIPLE TRIGGER SYSTEM

- The Triple Trigger System fine-tunes finger-to-trigger reach on target models.
- Includes three interchangeable trigger shoes: Wide checkered, narrow smooth and wide smooth canted.

### PRO FIT ADJUSTABLE COMB

- The Browning Pro Fit Adjustable Comb makes it easy to find the perfect comb position.
- Pro Fit offers single bolt adjustment for both cast and drop. The revised design allows the stock to be professionally fit for shorter length of pull.
- Easy to read markings allow the shotgun to be dialed-in and are easily replicated should the comb be removed.

### PRO BALANCE SYSTEM

- The Pro Balance System allows you to fine-tune the balance point for a perfect mount and swing.
- Adding weights to the stock helps balance the shotgun, aids follow-up shots and the additional mass reduces felt recoil.
- Stock weights reduce muzzle jump for more accurate follow-up shots and allow a smoother follow through.
- Pro Balance weights are easy to install.

### PALM SWELL

- Optimizes finger-to-trigger placement.
- Provides a comfortable, secure grip.

### FLOATING RIB

- The floating rib allows the rib and barrel to expand at different rates, preventing changes to point of impact due to barrel heating.
- Porting reduces felt recoil for faster target acquisition and increased shooting comfort.
- Ventilated side rib increases air circulation to aid in barrel cooling.

### INVECTOR-DS CHOKE TUBE SYSTEM

- Invector-DS choke tubes combine muzzle-end threads and thin-wall construction for a longer, more gradually tapered choke tube that produces extremely consistent, dense shot patterns.
- From Cylinder to Extra Full, Invector-DS shot patterns tighten consistently in reliable, evenly scaled steps.
- The more gradual taper of Invector-DS choke tubes reduces shot deformation for fewer flyers and gaps in the pattern and allows higher shot velocities for hard hitting performance.
- The "DS" stands for double-seal. Our proprietary differential-banded brass seal compresses against the barrel wall to keep the choke tube threads clean and make installation and removal easier than any other muzzle thread system.
- See pages 171 to 175 for our complete line of choke tubes and wrenches.

### ABS CASE

- The sturdy, lockable ABS case is perfect for storage and transportation.

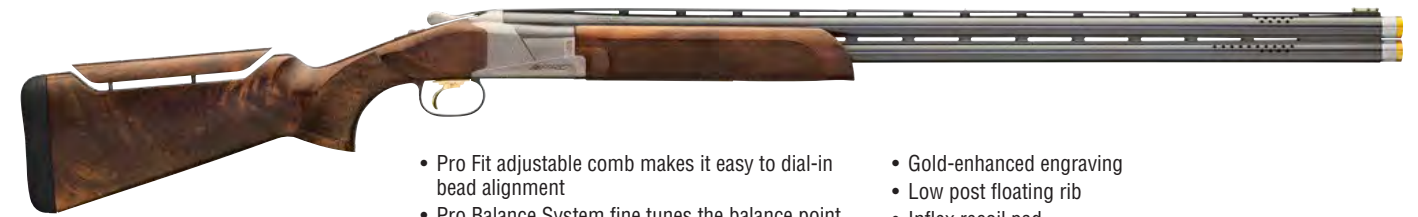

**ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.**

## Ready to Rock n' Roll.

No need for a trip to the gunsmith for expensive add-ons; Citori 725 Pro models are ready to compete straight out of the box. That's right, this pair of competition-ready over and unders offer multiple points of adjustability that let you customize the shotgun to match your body shape and shooting style in order to maximize both your performance and scores.

### PRO SPORTING WITH PRO FIT ADJUSTABLE COMB

Measurements in inches, pounds and ounces.

- Pro Fit adjustable comb makes it easy to dial-in bead alignment
- Pro Balance System fine tunes the balance point for a smooth swing and mount
- Gloss oil finish Grade III/IV walnut stock with close radius grip and palm swell
- Gold-enhanced engraving
- Low post floating rib
- Inflex recoil pad
- HiViz® Pro Comp sight and ivory mid-bead
- Five extended choke tubes
- Ideal for sporting clays/skeet

## Features and Benefits

### LOW PROFILE RECEIVER

- Improved recoil control and less muzzle jump are two of the biggest benefits of a low profile receiver. There is also the “one with the gun” feeling that makes the Citori 725 feel like an extension of your body.
- Places the front hand closer to the bore line for superior hand-eye coordination and pointability.
- Citori 725 receivers are machined from steel for a long life and feature a durable, attractive silver nitride finish.
- Feather receivers reduce weight by using a high quality alloy for the receiver rather than steel. Steel components are added to high wear areas, ensuring durability.

### TRIPLE TRIGGER SYSTEM

- The Triple Trigger System fine-tunes finger-to-trigger reach on target models.
- Includes three interchangeable trigger shoes: Wide checkered, narrow smooth and wide smooth canted.

### FIRE LITE MECHANICAL TRIGGER

- Exclusive mechanical trigger design.
- Unlike an inertia trigger, Fire Lite does not rely on recoil to set the next shot; instead, it offers immediate second shot capability.
- Features less take-up, a crisp break and shorter overtravel.

### ERGO BALANCED

- Incredibly balanced in the hands from pad to muzzle.
- Facilitates a light feel and fast swing.
- Promotes follow through.

### HIGH RIB

- Offers increased visibility — the barrels don't cover up the target.
- Improved cooling helps prevent heat waves from distorting visibility.

### FLOATING RIB

- The floating rib allows the rib and barrel to expand at different rates to eliminate stress.
- Prevents changes to point of impact due to barrel heating and the rib staying cool.
- Ventilated side rib increases air circulation to aid in barrel cooling.

### TAPERED LOCKING BOLT

- Unlike other low-profile over and unders, the Citori 725 features a transverse-mounted, full-width tapered locking bolt and full-width hinge pin just like other Citori models for maximum strength and longevity.
- The locking bolt engages a full-width tapered recess in the monoblock. Tapering the bolt and recess allows the bolt to seat deeper over time, accommodating for wear.

### FULL-WIDTH HINGE PIN

- The Citori 725 has a full-width hinge pin that provides maximum strength and long-lasting endurance.
- Competitors' trunnions provide only a fraction of the bearing surface that the full-width hinge pin of the Citori 725 provides.

### INTERCHANGEABLE CHOKE TUBES

- To maximize versatility and optimize shot pattern performance, the Citori 725 features Invector interchangeable chokes. 12 and 20 gauge models receive the Invector-Plus system and 28 gauge and .410 bore models benefit from the Standard Invector system. See pages 171 to 175 for our complete line of choke tubes and wrenches.

*Reach for the Gold.*

Designed to handle as great as they look, Browning Golden Clays models have long been viewed as the pinnacle of over and under shotgun style. Richly engraved and embellished with gold highlights, the silver nitride receiver finish blends beautifully with the finely-finished Grade V/VI walnut.

TRAP GOLDEN CLAYS

## Tougher than the Rest.

Most over and under shotguns with a low-profile receiver gain the advantages of improved recoil control, faster follow-up shots and reduced weight. But while other guns rely on a pair of trunnions for the monoblock pivot, the Citori 725 uses the rugged full-width hinge pin design that wears in, not out, and has kept the Citori shotgun a favorite of hunters and shooters for decades.

Measurements in inches, pounds and ounces.

## Tearing it Up. MATT & FOSTER

Brothers Matt and Foster Bartholow spend their time tearing up the ATA trap shooting circuit. Over the past few years the pair has amassed more than 200 trophies between them with their Browning Citori shotguns. Read more about Matt and Foster on page 282.

## Features and Benefits

### STEEL RECEIVER

- Citori receivers are machined from steel for a long life and feature a durable, attractive silver nitride finish.
- Feather receivers reduce weight by using a high quality alloy for the receiver rather than steel. Steel components are added to high wear areas, ensuring durability.

### TRIPLE TRIGGER SYSTEM

- Citori CX, CXS and CXT shotguns come equipped with the Triple Trigger System, which fine-tunes finger-to-trigger length of pull. One trigger shoe is included.

### LOCKING BOLT AND HINGE PIN

- The Citori features a heavy-duty, transverse-mounted, full-width tapered locking bolt that engages a full-width tapered recess in the rear barrel lugs. Tapering the bolt and recess allows the bolt to seat deeper, accommodating for wear. The hinge pin extends across the width of the receiver for maximum strength. Engineering like this ensures the Citori wears in, not out.

### HAMMERS AND HAMMER EJECTORS

- For positive primer ignition, Citori hammers are driven by powerful coil mainsprings. The convenient barrel selector allows you to choose which barrel fires on the first pull of the single trigger, and the second pull fires the remaining barrel. Ejectors are activated by a sharp hammer blow for more positive ejection than the push imparted by competitors' ejectors. The automatic ejectors eject fired hulls when the breech is opened and elevate unfired shells for easy removal.

### POINT OF IMPACT

- A big part of what makes Citori shotguns so versatile are the different points of impact (POI). CXS models feature a 50/50 POI that is preferred when a target presentation can come from anywhere, like a clay target soaring above you or a pheasant erupting from the brush. CX models feature a 60/40 POI that is great for all clay target sports and hunting as it allows you to float the target slightly to improve the sight picture. CXT models feature a 70/30 POI that is more suited to trap, where targets rise. The higher POI allows the target to be visible when the trigger is pulled.

### CHROME CHAMBERS

- For increased durability and corrosion resistance, all Citori shotguns have hard chrome-plated chambers to resist the toll that thousands of shells can take on lesser quality guns.

### STEEL SHOT PERFORMANCE

- The strength of Browning barrels is legendary, and they are built to handle the punishment of steel shot. Unlike some manufacturers' barrels that show pitting after shooting steel, Browning pioneered construction that maximizes steel shot performance and barrel durability.
- Browning barrels meet the strictest material and construction quality standards. The barrel blanks are made from rolled and tempered steel bars and are stress relieved to offer exceptional mechanical properties. The barrel blanks are then precision drilled, reamed and honed to exacting specifications.

### VECTOR PRO™ FORCING CONES

- Browning was the first manufacturer to recognize the performance advantages of a back-bored barrel and to make it a standard feature on shotguns. Longer, tapered Vector Pro forcing cone dimensions minimize shot deformation and maximize pattern uniformity, consistency and density. Back-boring increases bore diameter specifications and decreases friction between the shot cup and the bore to maximize shot pellet velocity and to reduce felt recoil. Reducing constriction from the forcing cone on the shot column results in fewer deformed pellets for more uniform patterns, and keeps more pellets in the central part of the pattern where they're needed to bag more upland birds, waterfowl and clay targets.
- Browning back-bore specifications represent the ideal bore dimensions. A larger bore diameter can let gases slip by the shot cup, resulting in both reduced pellet velocity and blown patterns. A smaller bore diameter means the forcing cone can deform pellets, leading to flyers and poor ballistic performance.

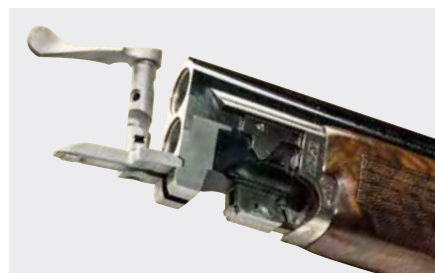

### INTERCHANGEABLE CHOKE TUBES

- To maximize versatility and optimize shot pattern performance and versatility, Citori shotguns feature the Invector-Plus system. See pages 171 to 175 for our complete line of choke tubes and wrenches.

## Name Your Games.

Technically speaking, most shotguns are crossovers — with one gun being used for birds, sporting clays and even an afternoon at the trap range. Every CX model starts out as a tried and true Citori, to which a few enhancements are applied. Those changes nudge each CX in a direction that optimizes it for your specific use, without straying too far from the multipurpose versatility you want.

*The Boys are Back.*

If you thought that you might have missed your chance to add a new Browning Citori Lightning to your collection, now is the time to rejoice. These three new models share the reputation for durability earned by their forebearers, and feature new receiver engraving artwork and stock checkering that provide updated style to this timeless design.

## Features and Benefits

### LOW PROFILE RECEIVER

- Improved recoil control and less muzzle jump are two of the biggest benefits of a low profile receiver.
- Places the front hand closer to the bore line for superior hand-eye coordination and pointability.
- Cynergy receivers are machined from steel for a long life and feature a durable, attractive silver nitride finish.

### REVERSE STRIKER MECHANICAL TRIGGER

- The Reverse Striker is a striker-based, mechanical trigger system that does not use the inertia from recoil to set the hammers.
- Reverse Striker offers the benefits of a crisp feel, reduced locktime and less overtravel than other over and under shotguns.
- Because inertia is not needed for the hammers to set, the design eliminates the possibility of the second barrel not firing.

### TRIPLE TRIGGER SYSTEM

- Cynergy CX and target models are equipped with the Triple Trigger System, allowing finger-to-trigger length adjustment and the ability to switch between styles of interchangeable trigger shoes: Wide checkered, narrow smooth or wide smooth canted are available. One trigger shoe is included.

### MONOLOCK HINGE

- The strong MonoLock Hinge design is the engineering behind the Cynergy's low profile receiver.
- Integrates the monoblock and the hinge for up to 300% more surface area to pivot on than traditional trunnion-style hinges.
- Rectangular locking pins provide extra strength and feature a "Wear-In Relief" that keeps the action tight.

### ADJUSTABLE COMB

- Composite models include an adjustable comb system that allows the fit of the gun to be customized.
- Drop at comb adjustments are made in 1/8" increments.
- For cast on/cast off customizing, we offer accessory combs that are shown below.

### CHROME CHAMBERS

- Cynergy shotguns feature hard chrome-plated chambers.
- Increased durability and corrosion resistance.
- Camo models have chrome-plated bores.

### IMPACT EJECTORS

- Impact Ejectors are aided by the punch of a secondary striker spring for positive, reliable ejection of fired hulls from the chambers.
- Unfired shells are elevated for easy removal.

### POINT OF IMPACT

- A big part of what makes the Cynergy CX guns so versatile is the 60/40 point of impact (POI).
- The slight upward bias of the 60/40 POI makes for an excellent general use shotgun that is equally capable both in the field and on the range.
- The higher bias makes rising targets, as encountered in trap, easier to hit.

### INTERCHANGEABLE CHOKE TUBES

- To maximize versatility and optimize shot pattern performance, Cynergy shotguns feature the Invector-Plus system. See pages 171 to 175 for our complete line of choke tubes and wrenches.

## A Versatile Platform.

The low-profile Cynergy receiver has proven to be a perfect platform for a wide variety of shotgun sports. From turkey to trap, the broad hinge surfaces and tight lock-up of the rugged MonoLock Hinge are ready for punishment, whether from 3-1/2" shells or year-after-year of trap loads.

### COMPOSITE ULTIMATE TURKEY MOSSY OAK® BREAK-UP COUNTRY®

Measurements in inches, pounds and ounces.

- Adjustable comb makes it easy to dial-in a perfect fit (cast on/off combs available)
- Inflex recoil pad
- 1/4" stock spacer
- Five choke tubes (extended Ultimate Full Turkey and Spreader; flush fit F, M, IC)
- Marble Arms® Bullseye rear sight
- Fiber-optic front sight
- Short Picatinny rail to mount red dot optic
- Crossover for hunting/turkey

# BT99

## Features and Benefits

### LOW PROFILE RECEIVER

- BT-99 receivers are machined from steel for a long life and feature a durable, attractive silver nitride or blued finish.

### FOREARM

- A beavertail forearm helps control recoil and assists hand-eye coordination.

### FLOATING RIB

- The floating rib allows the rib and barrel to expand at different rates and move independently of each other.
- Prevents point of impact shifts caused by the barrel heating.

### CHROME CHAMBER

- The chrome-plated chamber resists wear and corrosion.

### INTERCHANGEABLE CHOKE TUBES

- To maximize versatility and optimize shot pattern performance and versatility, BT-99 shotguns feature the Invector-Plus system. See pages 171 to 175 for our complete line of choke tubes and wrenches.

**ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.**

## NEW

### MAX HIGH GRADE

Measurements in inches, pounds and ounces.

- Adjustable, high-post rib offers POI adjustment from 50/50 to 100/0
- Graco adjustable comb makes it easy to dial-in a perfect fit
- Adjustable GraCoil® Recoil Reduction System increases comfort and offers length of pull adjustment
- Graco butt pad plate adjusts for angle and location

- Gloss oil finish Grade VVI walnut stock
- Hull ejector
- Pachmayr® Decelerator® XLT recoil pad
- HiViz® Pro Comp fiber-optic front sight with mid-bead
- Three extended Midas Grade choke tubes
- Universal BT Trap fitted case in classic brown included
- Ideal for trap

## Features and Benefits

### KINEMATIC DRIVE SYSTEM

- Kinetic energy is defined as the energy of motion.
- The A5 uses kinetic energy to power the recoil-operated Kinematic Drive System.
- Simplicity of design for consistent, reliable function with any load and under the full extremes of weather, temperature, moisture and grime.
- Kinematic Drive is so reliable that the A5 is the first ever autoloading shotgun to carry a 100,000 round or five-year guarantee.
- Clean operation because gases are sent out the barrel and away from the action.
- Extreme load versatility for reliable performance with virtually all factory ammunition down to one ounce field loads with no adjustments.

### ERGO BALANCED

- Balances in the hands from pad to muzzle.
- Facilitates a light feel and fast swing.
- Promotes smoother follow through.
- Places front hand closer to the bore line for superior hand-eye coordination and pointability.

### RECEIVER

- The Humpback Acquisition Advantage extends the sight plane for faster, more natural sight alignment.
- Speeds target acquisition.
- Constructed from rugged, lightweight aluminum alloy.

### INFLEX RECOIL PAD

- Inflex recoil pads incorporate directional deflection construction that guides the comb down and away from your face, reducing felt recoil for greater shooting comfort and allowing faster, more accurate follow-up shots.
- The Inflex recoil pads are made from a soft material for the best recoil absorbing performance available.

### TURNKEY MAGAZINE PLUG

- The patented TurnKey Magazine Plug is easily removed in seconds using just a door or car key.

### SPEED LOAD PLUS

- Patented feeding system sends the first shell loaded into the magazine directly into the chamber.
- Speed Unload feature makes emptying the magazine fast and easy, without chambering and ejecting every shell with the bolt handle.

### ERGONOMIC BOLT LATCH

- Conveniently located just ahead of the trigger guard.
- Locks the bolt to the rear when the magazine is unloaded and releases a shell from the magazine when the bolt is closed for faster loading.
- Oversized shape makes the bolt latch easy to locate and operate with or without gloves.

### INTERCHANGEABLE CHOKE TUBES

- To maximize versatility and optimize shot pattern performance and versatility, A5 shotguns feature the Invector-Plus system. See pages 171 to 175 for our complete line of choke tubes and wrenches.

### ABS CASE

- Sturdy, lockable ABS case is perfect for storing and transporting the A5.

**ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.**

## Classically Modern.

Considered to be one of John M. Browning's greatest inventions, the original Browning Auto-5 introduced the concept of the autoloading shotgun to the world. The new A5 shares the classic humpback receiver profile of the original, and offers modern ergonomics and materials that make it an excellent performer in the field.

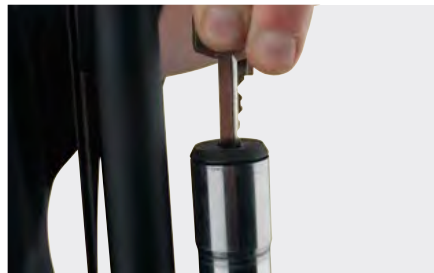

### WICKED WING MOSSY OAK® SHADOW GRASS BLADES

Measurements in inches, pounds and ounces.

- Cerakote Burnt Bronze camo finish on receiver, Burnt Bronze finish on barrel
- Fully chromed bore for corrosion resistance
- Composite stock with close radius pistol grip, textured gripping surfaces and is shim-adjustable for length of pull, cast and drop
- 1/4" and 1/2" stock spacers included for length of pull adjustment
- Three extended Invector-DS Banded choke tubes
- Briley® oversize bolt release
- Fiber-optic front sight and ivory mid-bead sight
- Ideal for hunting

## Score a Perfect 16.

There are many people who believe that 16 gauge is the perfect ammunition for a shotgun. And, arguably, they're right. The "in between" 16 gauge utilizes a smaller, lighter weight receiver than 12 gauge models and shoots a larger shot payload than a 20 gauge. These facts are evident in the A5 Sweet Sixteen. Light and fast-handling, the Sweet Sixteen is easy to carry all day, comes to the shoulder fast and offers a butter-smooth swing to match crossing or rising birds.

Measurements in inches, pounds and ounces.

### SWEET SIXTEEN

- Gloss finish walnut stock with close radius pistol grip is shim adjustable for length of pull, cast and drop
- 18 lines-per-inch checkering
- 1/4" and 1/2" stock spacers included for length of pull adjustment
- Gloss black anodized receiver finish
- Three Invector-DS choke tubes
- Fiber-optic front sight and ivory mid-bead
- Ideal for hunting/sporting clays

## Features and Benefits

### RECEIVER

- Constructed from rugged, lightweight aluminum alloy.

### POWER DRIVE GAS PISTON

- Extensive research has produced the most reliable gas piston design ever.
- The gas piston features oversized exhaust ports that dump gases faster with heavy loads to reduce recoil.
- 20% longer piston stroke travel increases reliability with light loads.
- An enclosed seal keeps residue out of the action for cleaner operation.
- The Power Drive Gas System works with the Inflex Technology recoil pad to reduce muzzle jump up to 44% compared to the competition.

### LIGHTNING TRIGGER

- The Lightning Trigger is the finest fire control system ever offered in an autoloading shotgun.
- Offers a smooth, crisp feel with minimal travel.
- Lock times average .0052 seconds, 24% faster than the nearest competing autoloader.
- Easy to remove for cleaning.

### INFLEX RECOIL PAD

- Inflex recoil pads incorporate directional deflection construction that guides the comb down and away from your face, reducing felt recoil for greater shooting comfort and allowing faster, more accurate follow-up shots.
- The Inflex recoil pads are made from a soft material for the best recoil absorbing performance available.

### TURNKEY MAGAZINE PLUG

- The patented TurnKey Magazine Plug is easily removed in seconds using a standard door or car key.

### SPEED LOCK FOREARM

- The patented Speed Lock Forearm replaces the traditional screw-on magazine cap.
- Makes taking down the Maxus for cleaning or storage fast.
- Makes attaching or removing the sling a snap.

### SPEED LOAD PLUS

- Patented feeding system sends the first shell loaded into the magazine directly into the chamber.
- Speed Unload feature makes emptying the magazine fast and easy, without chambering and ejecting every shell with the bolt handle.

### MAGAZINE CUT-OFF

- The magazine cut-off (not available on Sporting models) allows the chamber to be unloaded to change loads without cycling a shell from the magazine.
- Useful when hunting different bird species and different loads are instantly required.

### INTERCHANGEABLE CHOKE TUBES

- To maximize versatility and optimize shot pattern performance, Maxus shotguns feature the Invector-Plus system. See pages 171 to 175 for our complete line of choke tubes and wrenches.

### OPTIMAL DIMENSIONS

- The Maxus features a trim forearm and close radius pistol grip to maximize control.
- An externally relieved steel magazine tube reduces weight for a faster swing while retaining durability.
- Drop and cast can be tuned using the included stock shim kit.
- A low rib is in line with the top of the receiver and translates into dead-flat point of impact.

**ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.**

Measurements in inches, pounds and ounces.

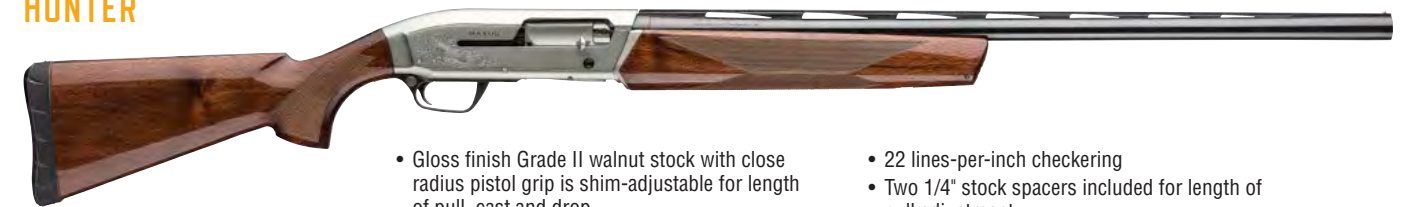

### ULTIMATE

- Gloss oil finish Grade III walnut stock with close radius pistol grip is shim-adjustable for length of pull, cast and drop
- Satin nickel receiver finish with brushed accents
- Laser engraved receiver (pheasants on the right, mallards on the left)
- 22 lines-per-inch checkering
- Engine-turned bolt finish
- Two 1/4" stock spacers included for length of pull adjustment
- Three Invector-Plus choke tubes
- Brass bead front sight
- Ideal for hunting/sporting clays

Less Muzzle Jump

The Softest Shooting Autoloader Ever

# MAXUS

*Ready for Maximum Effort.*

Rain, snow, mud, grit ... the Browning Maxus is built to deliver maximum performance in all shooting conditions. The soft-shooting Power Drive Gas System reduces felt recoil with heavy loads, and is more reliable with a wider variety of loads than the competition.

Cerakote Camo Finish

Briley® Oversize Bolt Release

## WICKED WING MOSSY OAK® SHADOW GRASS BLADES

Measurements in inches, pounds and ounces.

- Cerakote Burnt Bronze camo finish on receiver, Burnt Bronze finish on barrel
- Fully chromed bore for corrosion resistance
- Composite stock with close radius pistol grip, textured gripping surfaces and is shim-adjustable for length of pull, cast and drop
- Briley® oversize bolt release
- Three extended Invector-Plus Banded choke tubes
- 1/4" and 1/2" stock spacers included for length of pull adjustment
- Fiber-optic front sight and ivory mid-bead sight
- Ideal for hunting

SHOTGUNS

# MAXUS

## At Home on the Range.

While the Maxus excels in both the marsh and field, it also finds a home on the range. Maxus sporting clays models are fast cycling and fast to the shoulder, making them ideal for tricky target presentations.

The Power Drive Gas System also reduces felt recoil to minimize fatigue and keep you shooting all day long.

### SPORTING GOLDEN CLAYS

Measurements in inches, pounds and ounces.

- Gloss finish Grade III Turkish walnut stock with close radius pistol grip is shim-adjustable for length of pull, cast and drop
- Gold enhanced engraving of game birds transforming into a clay target (quail on the right, mallard on the left)
- 22 lines-per-inch checkering
- Engine-turned bolt finish
- Two 1/4" stock spacers included for length of pull adjustment

Silver.

## Features and Benefits

### RECEIVER

- Semi-humpback design is constructed from rugged, lightweight aluminum alloy.

### ACTIVE VALVE GAS SYSTEM

- The self-adjusting Active Valve Gas System in Silver autoloaders diverts gases from fired shells to operate the action instead of adding to recoil.
- When shooting light loads, most of the gases operate the action.
- With magnum loads, only a small amount of gas is necessary to operate the action, while the remaining gases are vented out the top of the forearm and away from the receiver for cleaner, more reliable operation.
- Superior recoil reduction from the Active Valve means faster, more accurate follow-up shots and all-day shooting comfort regardless of the loads being fired.

### INTERCHANGEABLE CHOKE TUBES

- To maximize versatility and optimize shot pattern performance, Silver shotguns feature the Invector-Plus system. See pages 171 to 175 for our complete line of choke tubes and wrenches.

### GRIPPING SURFACES

- Composite Silver models feature checkered gripping surfaces for a sure hold and a sleek feel in all climate conditions.

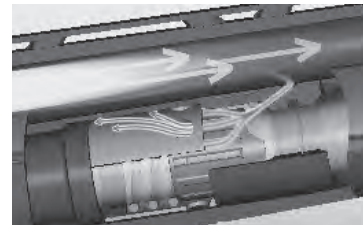

### TRIGGER

- The trigger assembly can be removed in just seconds for a thorough cleaning.
- The trigger guard is large and has carefully rounded edges to accommodate gloved fingers.

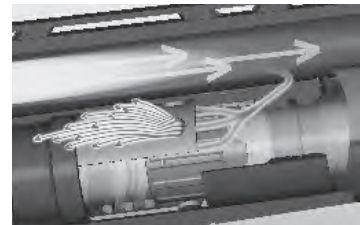

### LOAD VERSATILITY

- The Active Valve gas piston efficiently adjusts to reliably fire a wide range of loads. The piston automatically vents less gas with light loads ensuring reliability and more gas with heavy loads to mitigate felt recoil.
- 12 gauge 3" models fire everything from light, 1 oz., 2-3/4" field loads to the heaviest 3" magnums. The 3-1/2" version is built to handle a similar range, from 1-1/8 oz., 2-3/4" field loads up to hard-hitting 3-1/2" magnum loads.

**ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.**

Light Load (1 oz.)

Heavy Load (2 oz.)

## All-Weather Contenders.

The slide-action shotgun represents no-nonsense reliability, and no other pump is better than the Browning BPS. The BPS continues to be the shotgun shooters rely on — no matter the conditions they face, season after season.

### Features and Benefits

#### BOTTOM EJECTION AND LOADING

- Unique bottom ejection throws empty hulls straight down, out of the line of sight.
- The BPS is the best pump shotgun choice for both right- and left-handed shooters.

#### RELIABLE PUMP-ACTION

- The proven pump-action features rugged steel components.
- Rigid double action bars are made from heat-treated steel to eliminate twisting and binding for faster, more efficient slide-action operation.
- Reliable in all conditions.
- A convenient serrated slide release is located at the rear of the trigger guard.

#### RECEIVER

- The receiver is machined from a solid block of forged steel.

#### GRIPPING SURFACES

- Camo composite BPS models have in-molded checkered gripping surfaces for a sure hold.

#### TOP-TANG SAFETY

- The thumb-operated, top-tang safety on the BPS can easily be operated with the right or left hand, even with gloves on.

#### INTERCHANGEABLE CHOKE TUBES

- To maximize versatility and optimize shot pattern performance, the BPS features Invector-Plus interchangeable chokes. 12 and 20 gauge models receive the Invector-Plus system and .410 bore models benefit from the Standard Invector system. Interchangeable choke tubes. See pages 171 to 175 for our complete line of choke tubes and wrenches.

#### MAGAZINE CAPACITY

- 2-3/4": Four in the magazine, one in the chamber.
- 3": Three in the magazine, one in the chamber.
- 3-1/2": Three in the magazine, one in the chamber.
- A three-shot magazine adaptor plug is included.

**ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.**

## Performance as Solid as Steel.

There aren't many shotguns today that are built with a ready-for-anything forged steel receiver, but the BPS still is. This type of rock-solid construction may be considered overkill to some manufacturers, but to us it means the BPS is built for a lifetime of reliable performance.

*Deer Slayers.*

Browning slug guns are ideal for deer, bear and boar. Like every shotgun we manufacture, BPS and Silver slug guns offer the natural pointability, top-notch quality and unshakable reliability you demand.

**RIFLED DEER 12 GA.  
MOSSY OAK® BREAK-UP COUNTRY®**

# 10 GAUGE

## Big Bores for Big Birds.

The extra punch of big-bore 10-Gauge ammunition is made to bring down large birds such as turkey and geese. For hunting these heavy birds at extended ranges, a reliable Browning Gold autoloader or BPS pump-action 10 gauge is the shotgun you want in your hands.

### GOLD LIGHT

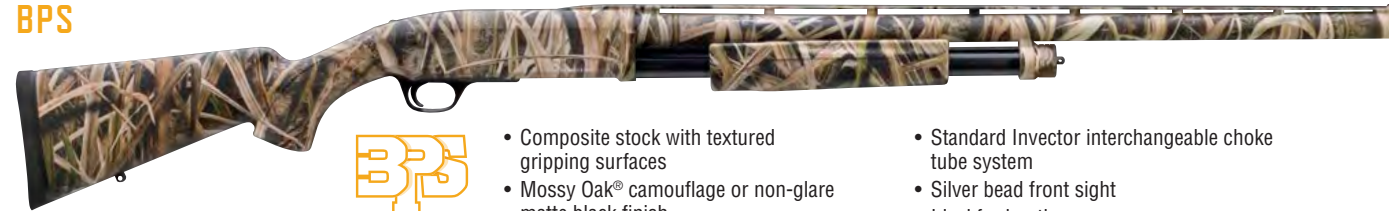

Measurements in inches, pounds and ounces.

- Composite stock with textured gripping surfaces
- Mossy Oak® camouflage finishes
- Standard Invector interchangeable choke tube system
- National Wild Turkey Federation model includes HiViz® 4-in-1 fiber-optic sight set and NWTF® decal on the buttstock
- Silver bead front sight
- Ideal for hunting

## Features and Benefits

### FEATHER TRIGGER

- The X-Bolt's three-lever Feather Trigger provides a clean, crisp pull with no take-up or creep and minimal overtravel.
- The trigger is screw adjustable from 3 to 5 lbs. and factory pre-set at approximately 3-1/2 to 4 lbs.
- An alloy trigger housing contains hard chromed steel components that are highly polished on all critical contact surfaces.

### X-LOCK SCOPE MOUNTING SYSTEM

- X-Lock mounts feature a four screws-per-base design that replaces the traditional two screw system.
- Offers more accurate placement and more secure attachment to the receiver.

### FREE-FLOATING BARREL

- Every X-Bolt action is individually bedded into the stock for a true free-floating barrel, not bedded using a master receiver like the competition.
- The barrel is free-floated by bedding the front and rear of the action to maintain barrel to stock spacing providing consistent accuracy.
- The recessed muzzle crown helps protect the rifling from damage.
- Barrels are triple checked for interior finish, straightness and air-gauged for uniformity.
- Hand-reamed chamber for precision accuracy.

### 60° BOLT LIFT

- Short 60° bolt lift is fast cycling so the hand easily clears the scope.
- The bolt is machined from solid steel bar stock for strength and custom rifle precision.
- Three locking lugs provide exceptional bolt strength.

### BOLT UNLOCK BUTTON

- The bolt unlock button works in conjunction with the top-tang safety to provide an extra margin of safety when checking and unloading the chamber.
- Located on top of the bolt handle, the bolt unlock button allows the bolt to be unlocked and opened with the tang safety in the on safe position.
- The convenient tang safety blocks the trigger sear and features a firing pin block for added security.

### INFLEX RECOIL PAD

- The Inflex Technology recoil pad features internal directional ribs that move the comb down and away from the cheek to increase shooting comfort.

### ROTARY MAGAZINE

- The unique rotary magazine is removable, durable, easy to load and feeds rounds from the center line, not off to the side like other rifles, for straight to the chamber feeds.
- Unique design holds U.S. patent numbers: 8,156,675; 8,484,875 and 8,745,912.

### TOP-TANG SAFETY

- Top-tang safety is easy to reach with the thumb.

### RATE OF TWIST

- Select X-Bolt Long Range models incorporate faster rates of twist to better stabilize longer, heavier bullets.
- 26 Nosler: 1-7", 6.5 Creedmoor: 1-7", 28 Nosler: 1-8", 7mm Rem Mag: 1-8", 300 Win Mag: 1-8"

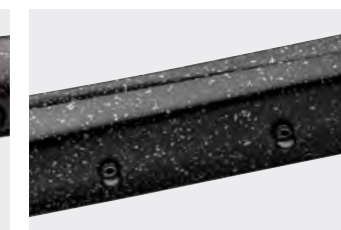

### PERSONALIZED ENGRAVING

- The bolt can be personalized with your name. Call (800) 333-3288 for information.

## Seeking Trophies. CHRIS AND NATE

Catch Chris Denham and Nate Simmons on *Western Hunter TV*. This exciting program is committed to teaching and entertaining viewers about the unique hunting opportunities available to those who seek trophies in the vast American West. From peaks in the Rockies to the arid desert lands of Arizona, follow along with this pair as they search the wilds for mule deer, elk, antelope and more. Learn more on page 282.

## NEW TUNGSTEN

- Second generation carbon fiber stock offers excellent stability
- Cerakote Tungsten finish protects better than traditional bluing or stainless steel
- Stainless steel barreled action
- Lightweight sporter contour, fluted barrel
- Threaded muzzle brake reduces recoil (thread protector included)
- Proprietary lapping process enhances the bore finish

Ergonomic Spiral Fluted Bolt Handle

Spiral Fluted Bolt Body

Generation 2 Carbon Fiber Stock

Stainless Steel Barrel and Action

## Built for Success.

Hell's Canyon Speed and Stalker models offer proven performance for hunters with no-nonsense features that maximize accuracy. A lightweight composite stock provides a stable platform that is unaffected by conditions or climate. The precision barrel is triple checked to offer optimal accuracy. The Feather Trigger optimizes shooter interaction at this most critical point with a crisp, light pull to help keep your shot on target.

### HELL'S CANYON SPEED

Measurements in inches, pounds and ounces.

Outdoor Life Editor's Choice Award Winner.

- Cerakote Burnt Bronze finish protects better than traditional bluing or stainless steel
- Fluted, sporter contour barrel for the ideal blend of accuracy and weight savings
- Threaded muzzle brake reduces recoil (thread protector included)
- Weather-resistant composite stock
- Exclusive A-TACS AU Camo®

## Tradition. Not Traditional.

It's tough to beat the time-honored tradition and beauty of checkered walnut in your hands. A Browning X-Bolt with a handsomely-finished wood stock gives you the very best of modern rifle manufacturing and performance, plus the warm feel of real wood that other materials just can't equal.

## Hunting Pioneers. RALPH, VICKI & RJ

Ralph and Vicki Cianciarulo have been in the hunting TV business longer than most and are considered to be pioneers in the industry as one of the first hunting couples on air. Now "The First Couple of Hunting TV" is set to become the first family, as their son, RJ is set to join them on their programs: *The Choice* and *Archer's Choice*. Learn more about the Cianciarulo family on page 286.

Optics, mounts and accessories shown not included.

## Big-Time Performance.

X-Bolt Micro rifles are sized to give younger and smaller shooters their best shot at success. Built to last with all the features of Browning full-size models, Micro models feature a compact stock that provides a shorter length of pull that is suitable for those of smaller stature. And the best part is, Micro guns are eligible for the Growth Insurance Program that allows the rifle to grow with the shooter.

### MICRO COMPOSITE

Optics, mounts and accessories shown not included. Measurements in inches, pounds and ounces.

- Non-reflective matte blued receiver finish
- Sporter contour barrel for the ideal blend of accuracy and weight savings
- Threaded muzzle brake reduces recoil (thread protector included)
- Weather-resistant composite stock with Dura-Touch Armor Coating
- Compact dimensions fit many shooters better
- Pachmayr® Decelerator® recoil pad
- Eligible for the Growth Insurance Program (see page 2 for information)

## Diamonds for the Rough.

You'll need to look far and wide to find a production bolt-action rifle that equals the beauty of a Browning White Gold Medallion — where polished stainless steel is surrounded by gloss finished, sharply checkered walnut. Along with the aesthetics, these rifles feature a free-floated barrel, a recoil-taming Inflex pad, and the smoothest trigger on the market.

### WHITE GOLD MEDALLION

Measurements in inches, pounds and ounces.

- Polished stainless steel receiver
- Sporter contour barrel for the ideal blend of accuracy and weight savings
- Raised cheekpiece
- Gloss finish Grade IV/V checkered walnut stock with rosewood fore-end tip and pistol grip cap

## Hit the Bullseye with an AB3.

Superior Browning rifle technology and accuracy is yours with the AB3. The AB3 is the latest bolt-action from Browning, and shares many of the same features as the flagship X-Bolt — including accuracy and reliability. Best of all, you'll have cash left over for outstanding optics.

### Features and Benefits

#### LARGE BOLT SURFACE

- The robust bolt offers additional rigidity.
- The bolt is machined from solid steel bar stock and machined internally to keep weight low.
- Three locking lugs provide exceptional bolt strength.
- Super smooth chrome bolt finish is great looking, quieter and offers smooth cycling.

#### INFLEX RECOIL PAD

- Inflex recoil pad softens recoil and allows faster, more accurate second shots.
- Internal structure is designed to pull the rifle down and away from the face to reduce felt recoil.

#### BOLT LOCK OVERRIDE BUTTON

- The bolt lock override button provides an additional margin of safety when checking and unloading the chamber.
- Located behind the bolt handle, the bolt lock override allows the bolt to be unlocked and opened with the tang safety in the on safe position.
- The convenient tang safety blocks the trigger sear and sear.

#### DETACHABLE MAGAZINE

- Polymer and steel construction is lightweight and extra tough.
- Unique spring and follower design minimizes follower tilt for more reliable feeding.

#### FREE-FLOATING BARREL

- Free-floating maintains barrel-to-stock spacing for consistent accuracy.
- Recessed muzzle crown helps protect the rifling from damage.
- Precision button-rifled barrel is triple checked for interior finish, straightness and air-gauged for uniformity.
- Hand-reamed chamber for precision accuracy.

#### 60° BOLT LIFT

- Short 60° bolt lift is fast cycling, allowing the hand to easily clear the scope.

**ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.**

## Features and Benefits

### RECEIVER

- Lightweight, sturdy machined aircraft-grade aluminum.
- Drilled and tapped to accept scope mounts.

### ACTION

- Lightning fast, glass-smooth rack and pinion lever-action.
- Strong rotating head, multiple-lug breech bolt with a recessed bolt face and side ejection.

### HAMMER

- The folding hammer provides an added measure of safety when the hammer is at half-cock.
- The fold-down hammer has four positions: Full-cock, half-cock, the folded hammer position, and the dropped, or fired position. The two positions at half-cock readily indicate the status of the rifle.

### DETACHABLE BOX MAGAZINE

- The detachable box magazine provides reliable feeding and allows the use of ammunition with superior pointed bullets.

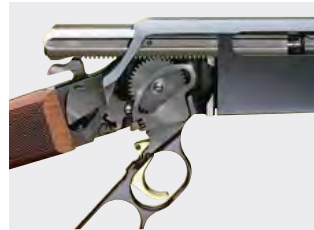

### TAKEDOWN FEATURES

- BLR Takedown models are just as accurate and reliable as their unified counterparts but much easier to transport and store.
- The rifle is easily and quickly assembled by simply sliding the barrel half into the receiver half and locking them together with the flip of a lever. The lever mechanically engages a stout locking lug into a recess in the bottom of the receiver. The system is rugged, precise and blends easily into the styling of the rifle.

**ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.**

Takedown Features

## Swing Time.

The Browning BLR is the lever-action for the modern age. Fast handling and accurate, the tough rack and pinion design offers smooth, fast cycling. These excellent rifles are available in a wide range of calibers that are ready to tackle game from varmints to bear and elk.

### LIGHTWEIGHT '81 STAINLESS TAKEDOWN

Measurements in inches, pounds and ounces.

- Rifle quickly takes down into two parts for travel or storage
- Non-reflective satin nickel receiver finish
- Matte stainless steel barrel
- Gray laminated, satin finish straight grip stock with cut checkering
- Barrel is drilled and tapped for optional scout-style scope mount (see page 157)
- TRUGLO®/Marble Arms® fiber-optic front sight and adjustable rear sight

## Stand-Out Rifles.

If you are looking for an autoloading rifle that has the ability to offer extra punch from magnum cartridges and has head-turning style, we present the Browning BAR. Available in a broad selection of calibers and models, the reliable, gas-piston operated BAR combines the strength of a multi-lug bolt for excellent accuracy with the nimble performance you rely on from Browning.

### Features and Benefits

#### ACTION

- The BAR is a gas-operated autoloader with a high-strength, multiple-lug rotating bolt that locks directly into the barrel.
- The seven-lug bolt and precise breech-to-chamber relationship gives the BAR exceptional accuracy and the strength to handle magnum loads.
- The strong and rigid action bar/inertia block link-up improves accuracy by reducing barrel vibration.
- The buffering system reduces wear and stress on the rifle's mechanism.

#### THE BOSS DEVICE

- The Ballistic Optimizing Shooting System (BOSS) is designed to maximize accuracy.
- The BOSS device quickly and easily tunes barrel harmonics to precisely match the specific ammunition fired, resulting in amazingly tight groups. The BOSS device is available as an option on the BAR Mark II Safari.

#### MAGAZINE

- Detachable box magazine with a unique hinged floorplate allows the shooter to lower the floorplate, detach the empty magazine and snap in a full magazine in mere seconds.

#### RECEIVER

- The BAR Mark II Safari uses a blued one-piece ordnance steel receiver with scroll engraving.
- The BAR MK 3 is built on an aircraft-grade aluminum alloy receiver.
- All BAR rifles are drilled and tapped for scope mounts. The bolt release lever is incorporated into the receiver.

**ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.**

## BOSS-CR ACCESSORY

- Offers all the accuracy and tunable advantages of the original BOSS device without the muzzle brake feature.
  - By simply replacing the original BOSS forward weight and recoil reduction components with the one-piece, non-ported BOSS-CR accessory, only the reduced recoil of the original BOSS is sacrificed.
  - Is designed to fit only BAR Mark II and A-Bolt centerfire rifles previously factory-fitted with the BOSS.
  - GLOSS BLUED for BAR Safari; A-Bolt models: Medallion and Gold Medallion
  - MATTE BLUED for A-Bolt models: Composite Stalker, Hunter, Euro-Bolt, Varmint, Eclipse Hunter and M-1000 Eclipse
  - STAINLESS for A-Bolt models: Stainless Stalker, White Gold, Medallion and M-1000 Eclipse
- It is important that the correct BOSS-CR be selected for a specific caliber and model of rifle.**

# T-BOLT

## Features and Benefits

### STOCK

- Stocks are full-size to more comfortably fit adults.
- Durable Composite models feature a Monte Carlo comb and include magazine storage in the buttstock.
- Walnut stocked Sporter models feature trim dimensions with a satin finish and cut checkering. Walnut Target/Varmint models feature a Monte Carlo comb and wide forearm for stability on the bench.
- All models include a bedded action and dual action screws for solid attachment.
- Sling swivel studs included.

### TRIGGER

- The three-lever trigger design combined with a short-travel firing pin give a crisp break, quick lock time, no take-up and minimal overtravel.
- Adjustable for pull weight.

### ACTION

- Receiver is machined from steel barstock.
- Features crossbolt lockup for strength and smooth operation.
- The mainspring runs directly through the massive pivot pin. Cocking effort is split between opening and closing for ease of operation. The bolt features dual extractors and a red cocking indicator band.
- Right-side ejection on both right- and left-hand models.

### TOP-TANG SAFETY

- Top-tang, thumb operated two-position safety can be operated without changing from a shooting grip.

### BARREL

- Target/Varmint models feature a 22" medium target profile.
- Sporter models feature a 22" medium sporter profile.
- Barrel is free-floating with a semi-match chamber and target muzzle crown.

### OPTICS READY

- Receiver is drilled and tapped for scope mounts (not included). See pages 156-157 for scope rings and bases for T-Bolt rifles.

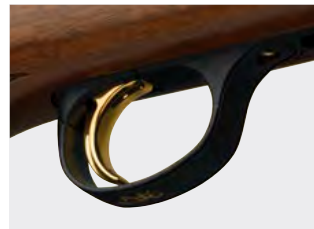

### BUTTSTOCK MAGAZINE STORAGE

- Composite stock models offer a convenient location to securely store an extra magazine.

### DOUBLE HELIX MAGAZINE

- 10-round capacity.
- The patented Double Helix rotary box magazine uses torsion spring driven interlocking gears for added reliability and easy loading and unloading.

**ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.**

## Distinguished Craftsmanship.

Expertly built from solid steel and walnut, the Browning BL-22 is a breed apart from other rimfire rifles. In addition to its upscale appearance, the BL-22 stands out with its short-throw lever action that is as smooth and quick as the day is long.

Measurements in inches, pounds and ounces.

100% Browning.

The greatness of John M. Browning lives on in the SA-22. From the simple, straightforward operating design to the unique takedown feature, these sought-after rimfires showcase the inventor's talent and eye for innovation. Unlike modern, mass-produced rimfires, the SA-22 is still expertly crafted from finely-finished walnut and steel. Well balanced, easy to load and accurate, the SA-22 is the perfect way to catch a glimpse inside the mind of the greatest firearms inventor of all time.

Features and Benefits

TAKEDOWN FEATURE

- The Semi-Auto 22 can be quickly taken down to a compact length of only 19-3/8" for storage or packing.

BARREL ADJUSTMENT

- The knurled knob allows play to be adjusted out of the barrel to ensure accuracy.

IN-STOCK MAGAZINE

- The tubular magazine is located in the stock to maintain the trim dimensions of the rifle.
- Cartridges load through a port in the right side of the buttstock.

BOTTOM EJECTION

- Bottom ejection makes the Semi-Auto 22 ideal for right- or left-handed shooters alike.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.

# BUCK MARK RIFLE

## Features and Benefits

### SAFETY AND SLIDE RELEASE

- Large manual thumb safety.
- The convenient manual slide release is easily operated with the shooting or support hand.

### SIGHTS

- Sporter model features a TRUGLO®/Marble Arms® fiber-optic sight system.
- The rear sight is adjustable for windage and elevation.

### OPTICS RAIL

- All Buck Mark Rifles include an integrated optics rail.

### MAGAZINE RELEASE

- Located adjacent to the trigger guard for convenient operation.

### ACTION

- The straight blowback design offers enhanced simplicity and reliability.

### FRAME

- Machined to exacting tolerances from a solid billet of 7075-T6 aluminum. The stock structure is a part of the pistol frame, reducing weight and the number of parts.
- Tough anodized finish.

### BARREL

- Sporter model features lightweight, tapered sporter-weight barrel. Target models feature a bull barrel.
- The chamber in every Buck Mark Rifle barrel is hand-reamed and the muzzle crown is recessed to protect it from damage that could degrade accuracy.

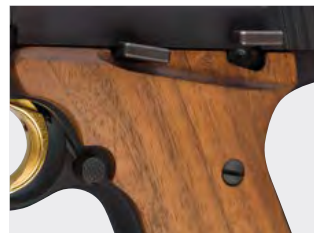

### SLIDE

- Serrated for an improved cocking grip.

### MADE IN THE USA

- Buck Mark Rifles are proudly made in the USA.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.

## Features and Benefits

### EASY-TO-REACH CONTROLS

- Large manual thumb safety.
- The convenient manual slide release is easily operated with the shooting or support hand.
- The magazine release is positioned adjacent to the trigger guard for convenient operation.

### ACTION

- The straight blowback design offers enhanced simplicity and reliability.

### FRAME

- Machined from aircraft grade aluminum alloy.
- Tough black anodized finish.

### SIGHTS

- The 16-click per revolution adjustable Pro-Target™ sight is standard on all models.
- This sight provides a finer degree of adjustment over the industry's standard of 12-clicks per revolution.
- Fiber-optic TRUGLO®/Marble Arms® front sights are available on select models.

### ABS CARRY CASE

- The Buck Mark ships in a sturdy ABS case or padded pistol rug.

### BARREL

- Most models have bull barrels for improved stability. Lite models have a steel barrel liner inside an ultralight aluminum sleeve.
- The chamber is hand-reamed and the muzzle crown is recessed to protect it from damage that could degrade accuracy.

### GRIPS

- Several wood, laminate and composite styles are available. Overmolded Ultragrip FX (UFX), soft nitrile rubber Ultragrip RX® (URX) and wood Ultragrip Deluxe® (UDX) ambidextrous grips have ergonomic finger grooves for enhanced control.

### MAGAZINE

- The steel magazine body is heat treated for long-term feeding reliability and long life. The coil spring provides a consistent follower angle. 10-round capacity.

### MADE IN THE USA

- Buck Mark pistols are proudly made in the USA.

## Features and Benefits

### SAFETY

- Large manual thumb safety and grip safety.

### SLIDE

- Vertical serrations provide an improved cocking grip.
- The convenient manual slide release is easily operated with the shooting or support hand.

### FRAME

- Aircraft grade aluminum alloy or engineering grade composite.
- Walnut grip panels on select models.

### ACTION

- The straight blowback design offers enhanced simplicity and reliability.

### MAGAZINE

- The steel magazine body is heat treated for long-term feeding reliability and long life.
- The coil spring provides a consistent follower angle.
- 10-round capacity.

### MAGAZINE RELEASE

- Positioned adjacent to the trigger guard for convenient operation.

### ABS CARRY CASE

- 1911-22 pistols are shipped in a sturdy ABS case.

### MADE IN THE USA

- 1911-22 pistols are proudly made in the USA.

**ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.**

## Features and Benefits

### EXTENDED AMBIDEXTROUS SAFETY

- Ambidextrous thumb safety is easy to operate for both right- and left-handed shooters.
- Extended design is easier to reach with the strong hand and ensures secure thumb engagement.

### BEAVERTAIL GRIP SAFETY

- The beavertail design prevents the hand from being pinched between the grip safety and the hammer.
- Raised bump ensures positive operation.

### FRAME

- Engineering grade composite.
- Available with 1913 Picatinny-style rail on the dust cover to mount lights or lasers.

### FLAT MAINSPRING HOUSING

- Makes the grip more comfortable for a wider range of shooters.

### MAGAZINE

- The steel magazine body is heat treated for long-term feeding reliability and long life.
- The coil spring provides a consistent follower angle.
- 10-round capacity.

### COMBAT-STYLE SIGHTS

- Combat-style sights offer rapid target acquisition.

### STEEL 3-DOT SIGHTS

- Sturdy steel construction.
- Three-dot style for easy alignment.

### FIBER-OPTIC SIGHTS

- Speeds target acquisition.
- Sturdy steel construction.
- Three-dot style for easy alignment.
- Adjusts brightness based on surrounding light.

### ABS CARRY CASE

- Black Label 1911-22 pistols are shipped in a sturdy ABS case.

### MADE IN THE USA

- Black Label 1911-22 pistols are proudly made in the USA.

## Get Control.

We offer a wide range of Black Label Model 1911-22 pistols with features designed to enhance your shooting experience. An extended ambidextrous safety makes manipulation easier for more shooters, and the beavertail grip safety helps prevent hammer bite. Options such as the accessory rail and multiple sight options let you choose the pistol you want.

## The Right Size, the Right .380.

John M. Browning invented both the Model 1911 pistol and the .380 ACP cartridge. Whether he ever envisioned that the two would go together as sweetly as chocolate and peanut butter is unknown, but this pairing of two of his time-honored inventions is a perfect match.

# Carry with Confidence.

Slim and lightweight, a Black Label Model 1911-380 is a great choice for concealed carry. This is especially so if you are experienced with the controls and smooth, light single-action trigger pull of the full-size 45 ACP versions.

PISTOLS

### JOHN M. BROWNING

Born in 1855, John M. Browning dedicated his life to inventing revolutionary firearms that were destined to shape the future.

Many of his later designs began life in the factories in the Herstal region of Belgium. And it is in Belgium where some of his famous designs live on — including his most lasting legacy: The B25.

First manufactured by Fabrique Nationale d'Herstal in 1925, the B25 was the world's first widely successful over and under shotgun. It was the result of Browning's creative genius and experience combined with more than 400 years of FNH manufacturing expertise.

Often copied, the B25 has never been equalled, and remains an icon for hunters and target shooters everywhere.

John M. Browning was a prolific innovator and a legend in the truest sense; so it's befitting that his name should grace a range of exquisitely crafted firearms.

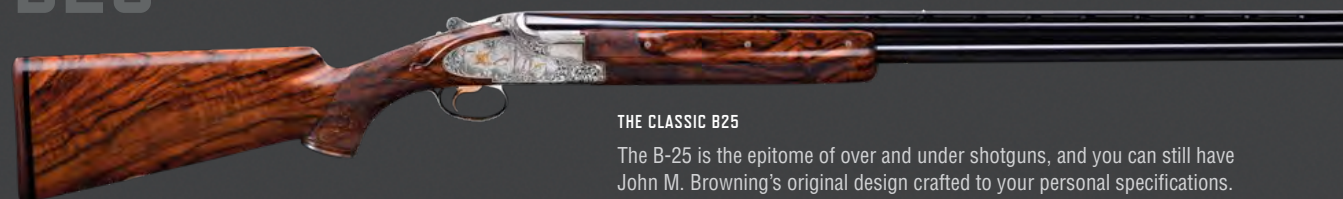

The John M. Browning Collection is the very best of what we do.

For complete ordering information in the United States please contact your nearest Browning dealer.

**THE BEST THERE IS®**

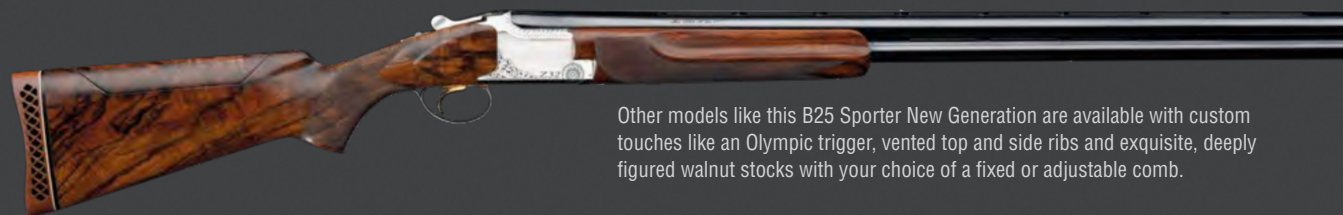

WWW.JOHNMBROWNINGCOLLECTION.COM

## B25

THE CLASSIC B25

The B-25 is the epitome of over and under shotguns, and you can still have John M. Browning's original design crafted to your personal specifications. For example, the full side plate design of this B25 Side Plate Trap creates a stunning canvas for traditional engraving and precious metal inlays.

Other models like this B25 Sporter New Generation are available with custom touches like an Olympic trigger, vented top and side ribs and exquisite, deeply figured walnut stocks with your choice of a fixed or adjustable comb.

## HI POWER

John M. Browning's Hi Power is a timeless classic and is widely considered to be his finest handgun design. It naturally becomes the pistol of choice for anyone wanting to showcase the unmatched skill and craftsmanship of our artisans in their personal firearm collection. The parts to produce these prized handguns are running out, as is the opportunity to order one. Get yours today.

JOHN M. BROWNING COLLECTION

*Introducing the B15 Beauchamp  
Grade B and Grade C*

**TRADITIONAL BEAUTY COLLIDES  
WITH MODERN INNOVATION**

The John M. Browning Collection is honored to present the Grade B and Grade C B15 Beauchamp models. These over and under shotguns showcase the storied reputation of Belgian finish work and the precision of modern design and manufacturing.

Following the traditionally sleek lines of storied field guns of the past, the beauty of the Grade B shines through. The low-profile receiver is replete with full side plates to better showcase the extensive engraving of pheasant and quail scenes. Additional chasing is performed by our artisans and adds dimension to these beautiful firearms.

Moving to the Grade C, the owner will receive an even more extensive and richly engraved acanthus scroll pattern that fills the bottom and sides of the receiver. This engraving also features hand chasing to increase the contrast and depth within the pattern.

Both Grade B and Grade C models feature polished blued barrels with a solid top rib. Checkered Grade V wood is expertly matched to the receiver and barrel set. A rich satin oil finish is the ideal match for a field gun, and ties the bluing of the barrels and silver nitride receiver together perfectly.

B15 BEAUCHAMP GRADE B

HAND FINISHED **B15** IN BELGIUM

*Introducing the B15 Beauchamp  
Grade D and Grade E*

**YOUR PERFECT OVER AND UNDER  
SHOTGUN DOES EXIST**

Walk the fields with the John M. Browning Collection and find the sought-after place where technology and craftsmanship become one. Fancy Grade D and Grade E B15 Beauchamp models incorporate the latest in Browning over and under performance and handling. It culminates with fit and assembly in the old-world style by the skilled hands of legendary Belgian armorers and engravers.

Precision engraving on the full side plate receiver is the standout feature of the smooth-handling Grade D. The additional chasing performed adds contrast and depth to the intricate pheasant and quail scenes, and sets this over and under apart from the crowd.

Traditional Belgian artistry steps to the forefront with the absolutely exquisite Grade E. Extensive chasing to the acanthus scroll engraving adorns the entire receiver and extends to cover every steel surface.

Grade D and Grade E models are fitted with a buttstock carved from highly-configured Grade V wood. The stock is then finished in a smooth satin oil finish and capped with an engraved grip cap and skeletonized buttplate. The forearm is a mock three-piece style that adds strength to this traditional style.

# Safes

## Leading the Way.

Innovation is a storied piece of the Browning legacy and that spirit carries over to our safes. Browning ProSteel safes lead the industry with advanced security measures that guard against break-in from drill, punch and pry attacks. Fire protection is also a priority, with multiple features that work together to increase protection from catastrophe and contribute to our honest and excellent ratings.

### PRY-STOP CORNER BOLTS

Pry-Stop Corner Bolts (U.S. patent #8,276,527) provide better protection than other pry-defense designs. Innovative long locking bolts extend diagonally from a reinforced support at the corners of the door to protect against pry attack at the corner areas.

### PRY-STOP END BOLTS

Superior to other bolt designs which allow the locking bolt support bar to bend. Pry-Stop End Bolts are over two and one-half times longer and attach to a high-strength steel angle iron that prevents the locking bolt support bar from bending in a pry attack. The top and bottom locking bolts on the door side secure the critical door corners.

### PRY-STOP TABS

Pry-Stop Tabs are pieces of angled steel added to the top and bottom bolts and inside of the safe door. These reinforcements work together to increase pry resistance.

### OMNIBARRIER® LOCK PROTECTION SYSTEM

A carefully engineered structure of steel hard plate and steel components designed to protect the safe lock from drill, punch and push attacks.

### DUO-FORMED DOOR

The best Browning ProSteel safe door is made from multiple layers of steel formed together to provide superior strength, pry resistance and attack protection. Full second panel for outstanding strength. The door face is 1-11/16" thick.

### FORMED DOOR

The Formed Door is engineered with a rugged steel face. Back and reinforcement panels provide excellent strength and attack protection compared to the competition.

### REINFORCED DOOR FRAME

The door opening of the safe is strengthened by an integrated return flange to create added pry and attack resistance.

### UNI-FORCE™ LOCKING SYSTEM

The finest Browning ProSteel safe locking mechanism uses robust cam locks and a large, multiple diversion bar system to prevent bolt or handle pressure from reaching the lock. Forces go to the cams and diversion bars, not the lock, for protection unmatched by other locking systems.

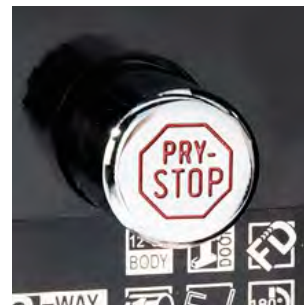

### FORCE DEFLECTOR™ LOCKING SYSTEM

The Force Deflector Locking System (U.S. patent #7,665,405) prevents bolt or handle forces from reaching the lock by using a rotating cam device. It prevents energy transfer to the lock better than most systems used in the safe industry.

### 180° HEAVY DUTY HINGES

Rugged exterior hinges allow the door to swing open 180° for unhindered access to the safe interior. Door locking bolts maintain security if the hinges are cut off. Fire protection is better with external hinges because no insulation is removed to accommodate the hinges.

Pry-Stop End Bolts

OmniBarrier® Lock Protection System

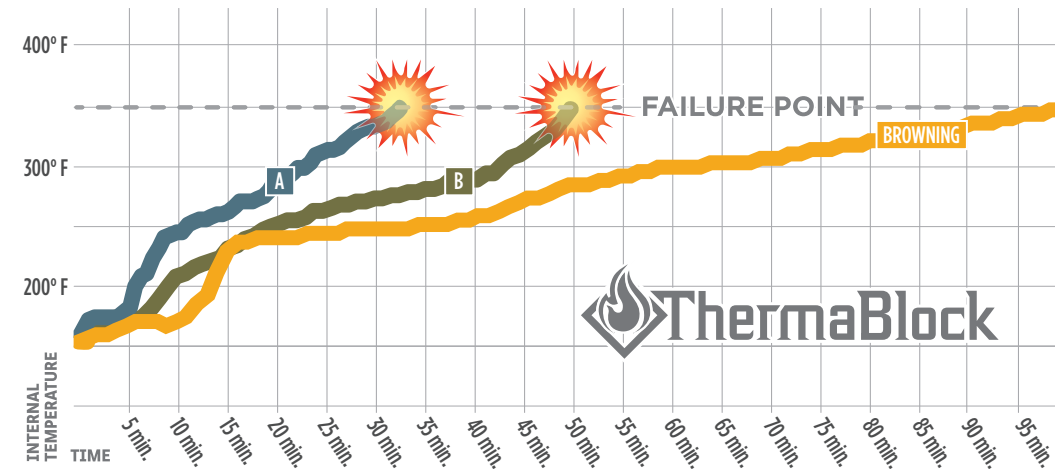

Pry-Stop Corner Bolts

Uni-Force™ Locking System

## Stay Cool When it Gets Hot.

Browning ProSteel safes feature multi-faceted ThermaBlock fire protection technology. The three main components of ThermaBlock are: 1) our external door hinges that don't require fire insulation to be removed 2) thicker sheets of fire insulation and 3) the interlocking arrangement pattern of the fire insulation that eliminates gaps. Together, these three pieces remove areas where heat can migrate into a safe and raise the internal temperature. The chart below demonstrates that a Browning ProSteel safe with ThermaBlock offers two to three times the fire protection of a comparable safe.

\* Competitor A safe: Rated 90 minutes at 1650° F / † Competitor B safe: Rated 90 minutes at 1200° F / †† Browning ProSteel safe: Rated 100 minutes at 1680° F

## Don't Cut Corners.

It may not seem to matter, but hinge type is crucial to fire protection. To accommodate an internal hinge, fire protection material must be removed where the hinges attach. In a fire, the unprotected hinge areas allow the internal temperature of a safe to rise to a significantly higher temperature than in a Browning ProSteel safe with external hinges and no gaps in the fire protection.

**BROWNING PRO STEEL EXTERNAL HINGES**  
External hinges eliminate gaps in the fire insulation to block heat from entering the safe.

**COMPETITORS' INTERNAL HINGE**  
Internal hinges allow up to eight times more heat to radiate inside the safe through gaps in the fire insulation.

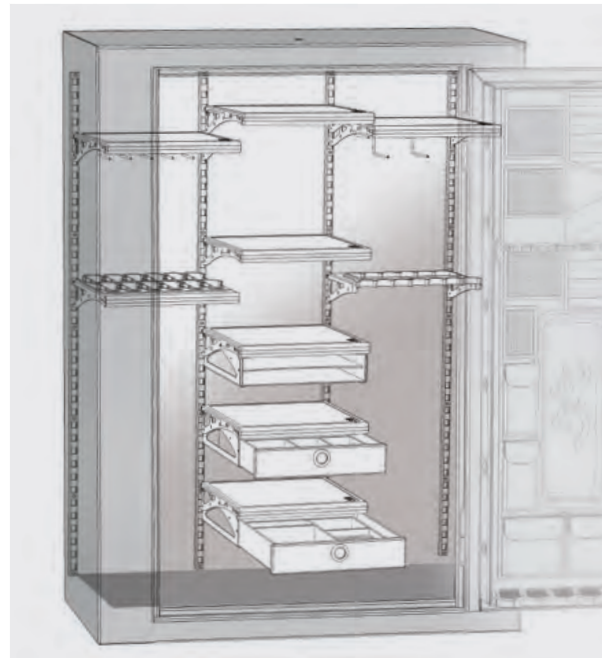

Browning ProSteel safe with 1-7/8" thick insulation after 100 minutes at 1680°.

Leading competitor safe with 1-7/8" thick insulation after 90 minutes at 1680°.

## Unmatched Convenience and Storage Solutions.

Browning ProSteel safes have the most versatile interiors in the industry to store more of your valuables.

Beginning in 2018, Axis and CMS shelves and accessories are interchangeable for Browning ProSteel safes greater than 20 cubic feet in size.

### AXIS ADJUSTABLE SHELVING

The exclusive Axis Adjustable Shelving (U.S. patent #D662341) is a completely customizable system with an array of shelves that can be configured to meet virtually every need. The Axis shelf is made from a single piece of sturdy steel. Covered in a soft, protective silicone rubber that is highly durable and designed to protect guns and valuables. It also adds a sleek appearance to the safe interior. Axis accessories, featured on page 111 are designed to easily mount to the solid steel shelf or barrel rack. (Compatible with safes that feature Axis Adjustable Shelving built in 2013 or later.)

### CMS (CANTILEVERED MODULAR SHELVING)

CMS shelves are constructed of wood, covered in soft carpet and built upon a tough steel frame. CMS borrows essential components from the patented Axis Adjustable Shelving (U.S. patent #D662341) to retain much of the adjustability of the higher-end system. Like Axis, CMS can be adjusted up and down, side to side, added and removed to fit a wide range of valuables.

## Protection for a Lifetime.

Differences among gun safes are difficult to see on a sales floor, but you can be confident that you won't find another brand that lives up to the high standards set by Browning. Our safes combine quality construction, proprietary technology and patented interior designs to elevate them above the rest. In addition to exclusive features, all Browning ProSteel safes carry the UL RSC (Underwriters Laboratories Residential Security Container) rating — the industry standard that defines a home security safe. The UL

RSC rating ensures that a safe meets construction specifications and has passed a series of independent laboratory test attacks. Confidence in Browning ProSteel product leads to the best warranty in the gun safe industry — a lifetime warranty that covers attempted break in, break in, or fire. If one of our safes is involved in one of these situations and your homeowner's insurance policy does not cover the damage to the safe, ProSteel will repair or replace the safe. (Safe contents are not covered.)

## Store Up to 54% More Long Guns.

### HOW DO BROWNING PROSTEEL SAFES HOLD 54% MORE GUNS?

- The long gun capacity is a series of three numbers, for example 13/26+7 on a 26 Cu. Ft. safe.
- The first number is the long gun capacity in the safe body with a Half Shelf interior (13 in the example).
- The second number is the long gun capacity in the safe body with an All Gun interior (26 in the example).
- The "plus" number is the long gun capacity on the back of the door (+7 in the example).
- Total capacity grows up to 54% in the Half Shelf configuration because there is a full rack of long guns on the door back.
- "Quick Access Guns" increase in both Half Shelf and All Gun configurations. These are guns on the front row of the safe body and the door gun rack and can be quickly accessed.

CAPACITY COMPARISON	COMPETITOR 25-28 CU FT SAFE	BROWNING PROSTEEL 26 CU FT SAFE	RESULT
Total Gun Capacity - Half Shelf Interior	13 Guns	20 Guns	54% More
Total Gun Capacity - All Gun Interior	27 Guns	33 Guns	22% More
Fast Access Guns - Half Shelf Interior	2 Guns	14 Guns	600% More
Fast Access Guns - All Gun Interior	7 Guns	21 Guns	200% More

## The Inside Advantage.

The patented DPX storage system (U.S. patent #7,409,790) is available exclusively on Browning ProSteel safes. This unequalled organizational tool allows long guns, handguns, shooting gear and valuables to be stored on the back of the safe door. The DPX Quick Access Barrel Rack puts long guns on the door for instant access and the available Scope Saver increases storage and protects optics. DPX pouches and pockets keep valuables and gear where they are easy to find and free up shelf space for even more items.

### QUICK ACCESS BARREL RACK

**BROWNING EXCLUSIVE** Flexible polymer wings protect the barrel finish, secure the barrel in place and allow firearms to easily be pushed into or pulled from the rack. (U.S. patent #D643500)

### MESH POCKETS

See-through mesh pockets hold smaller items and make valuables fast and easy to visually locate.

### ACCESSORY POCKETS

Accessory pockets organize items and offer quick access.

### HANDGUN POUCHES

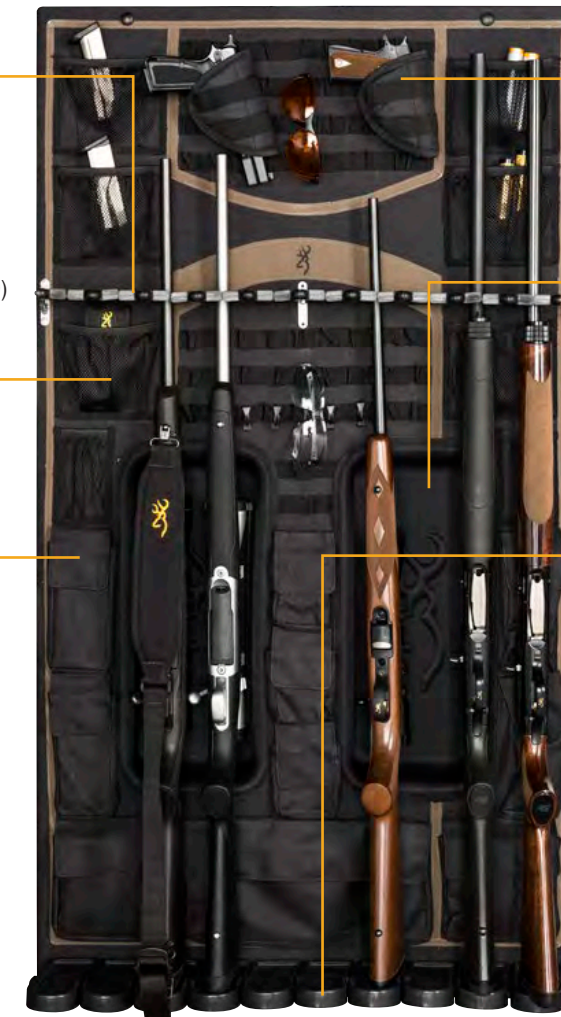

The military-style MOLLE System straps on the DPX panel allowing handgun pouches and other MOLLE items to be placed virtually anywhere.

### SCOPE SAVER

**BROWNING EXCLUSIVE** Store long guns with optics on the DPX door rack with the Scope Saver. The recessed panel protects scopes and increases gun capacity.

### STOCK TRAY

The molded stock tray secures the stock in position and helps prevent rifles from coming in contact with one another.

## The Best of the Best.

Premium Platinum safes are The Best There Is. Each is constructed using thicker 3/16" (7-Gauge) steel for added weight and pry resistance. ThermaBlock fire protection is designed to keep heat and flames at bay for two hours. The distinguishing feature of the Platinum is the handsome Grade VI cedar interior. Platinum safes are made in the USA.

PP65T

## Features

### SECURITY

- Heavy duty 3/16" (7-Gauge) steel body
- 1-11/16" Thick Duo-Formed® Door with full coverage 10-Gauge inner plate
- Uni-Force Locking System
- OmniBarrier® Lock Protection System
- Pry-Stop Corner Bolts extend diagonally from the corners of the door to protect against pry attack at the crucial corner areas
- 1-1/2" diameter chromed locking bolts on all four sides of door (top/sides/bottom)

### FIRE PROTECTION

- ThermaBlock 1750° F/120 min.

### APPEARANCE AND CUSTOMIZATION

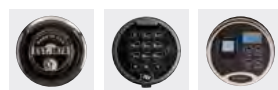

- Automotive grade gloss finish in your choice of color
- Pinstripping and choice of graphic
- Grade VI cedar interior adds a luxurious quality to the safe
- Five-spoke handle in your choice of finish

### STORAGE AND CONVENIENCE

- Premium DPX Storage System with Quick Access DPX Barrel Rack and Scope Saver
- Axis Adjustable Steel Shelving with Drawer and Multipurpose Insert, File Box and Pistol Rack
- High Capacity Barrel Racks each store up to 13 long guns and offer quick access to 7 (per rack)
- Axis Pistol Shelf holds up to 12 handguns
- Electrical Outlet allows electrical accessories to be added without taking apart power cords
- Interior LED lighting around the door frame makes locating items inside the safe much easier
- Elevated floor protects gun stocks

## The Fan Favorite.

Silver safes include all of our exclusive interior storage and convenience features at a very attractive price. A solid 11-Gauge steel body not only adds weight and strength for protection against break in, it also resists flex from heat and contributes to the 100 minute fire protection rating. Silver safes are made in the USA.

SR65T

## Features

### SECURITY

- 11-Gauge Steel Body
- 1-11/16" Thick Duo-Formed® Door with full coverage 10-Gauge inner plate
- Force Deflector™ Locking System
- Hardened steel pin lock protection
- Pry-Stop End Bolts
- 1-1/4" diameter chromed locking bolts on all four sides of door (top/sides/bottom)

### FIRE PROTECTION

- ThermoBlock 1680° F/100 min.

# AXIS® SHELVING

*Get More from Your Safe.*

Axis Adjustable Shelving (U.S. patent #D662341) and CMS Adjustable Shelving can be configured to fit most any need for your safe, and the accessories on this page add to the tremendous potential. The accessories below are compatible with all Axis- and CMS-equipped safes built in 2018 and newer and are greater than 20 cubic feet in size.

### PISTOL SHELF

Holds up to 12 handguns. The soft surface protects handguns from damage.

CODE MSRP  
154140 45.00

### STEEL SHELF

The basic shelf is made from tough steel with a protective polymer skin.

CODE MSRP  
154100 40.00

### PISTOL RACK

Holds five handguns and leaves the shelf available for other possessions and gear.

CODE MSRP  
154102 22.00

### SCOPED PISTOL RACK

With a deeper drop and heavy-gauge rods, handguns with optics are easier to store.

CODE MSRP  
154118 22.00

### HIGH CAPACITY BARREL RACK

Store more long guns in the same space with the high capacity barrel rack.

CODE MSRP  
154114 35.00

### BARREL RACK

11 slots accommodate rifles, shotguns, carbines and modern sporting rifles.

CODE MSRP  
154101 36.00

### BOW HANGER

Lock up and protect expensive archery equipment while taking up minimal space.

CODE MSRP  
154117 28.00

### FILE BOX

Important documents are kept safe and easy to find in this handy file box.

CODE MSRP  
154105 55.00

### VERTICAL FILE HOLDER

This file holder makes it easier to locate and organize important documents.

CODE MSRP  
154119 25.00

### DEEP DRAWER

The deep drawer is the perfect home for larger or oddly shaped items.

CODE MSRP  
154120 120.00

### DRAWER

This sturdy drawer is perfect for all sorts of goods that need to be separated.

CODE MSRP  
154104 70.00

### DRAWER WITH JEWELRY INSERT

This insert protects and organizes valuables such as watches, rings and necklaces.

CODE MSRP

Lock 'em Down.

Head 'em up and move 'em into a Rawhide safe. A tough 11-Gauge steel body and Pry-Stop End Bolts improve resistance to break-in. The excellent 1550° F/80 min. fire rating offers additional protection. A standout feature is the faux leather-trimmed interior that adds a touch of rugged class. A full DPX door storage rack adds storage while improving access to more long guns.

# VAULT DOORS/SECURITY DOOR

## Big Security for Big Collections.

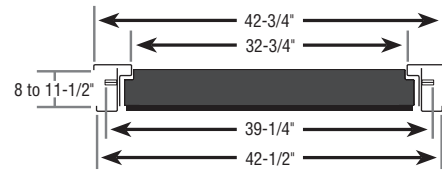

Large collections of guns and valuables call for a walk-in gun room sealed with a Browning ProSteel Vault Door. To protect your collection, Vault Doors feature high-end security, fire insulation and the flawless finish that Browning ProSteel safes are regarded for, and they are available in a variety of finishes to match the interior of your home.

Internal Lock Release

Standard Door Dimensions - Top View

Clamshell Door Dimensions - Top View

## Features

- 7-Gauge steel frame
- Designed to fit a variety of wall types and installation requirements
- OmniBarrier® Lock Protection System
- Uni-Force™ Locking System
- 1-7/8" of fire-resistant insulation in the door
- Knurled five-spoke Buckmark handle
- External ball-bearing hinges
- Paluso® expanding fire seal
- Also available with a black primer finish that is ready to paint and match any decor
- Internal lock release to open the door from within the vault

### STANDARD SPECIFICATIONS

- The minimum rough door opening for the Standard Vault Door is 83" H x 36" W.
- External L-frame with 1/2" diameter steel J-bolt anchors (included) can be poured in place in new construction or installed in an existing door frame by using expansion anchors or lag bolts (not included).
- Door frame L-flange will fit any wall with a minimum thickness of 5-1/2".
- Available in Out-Swing Model only.

### CLAMSHELL SPECIFICATIONS

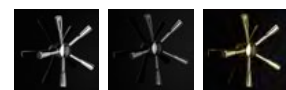

- The minimum rough door opening for the Clamshell Vault Door is 82" H x 40" W.
- Clamshell flange design uses an internal and external flange for additional security and improved appearance.
- Can be secured into an existing door frame using the clamshell flange or, for additional security, using expansion anchors or lag bolts (not included).
- Clamshell flange has a 3-1/2" range of adjustment to fit walls with a minimum thickness of 8" to a maximum thickness of 11-1/2".
- Available in both In-Swing and Out-Swing Models.

## USER-INSTALLED ACCESSORIES

*Get the Most from Your Safe.*

Get the most from your safe with our line of safe accessories. These accessories help you store more gear and guns, better organize interior space, add lighting to make items easier to locate and ensure your possessions are protected from humidity.

### DOOR ORGANIZERS

- Browning safe door organizers increase gun capacity, free-up shelf space and improve organization in your safe by utilizing the inside surface of the door
- Store your most used guns and valuable items on the door for fast access
- Accommodates a wide range of long guns
- Document pouch keeps important papers within easy reach
- MOLLE System straps allow for versatile storage options for handguns and is compatible with any MOLLE pouch, holster or strap

#### SMALL

- Size: 14" W x 48" H
- Two handgun pouches
- One document pouch
- Two long gun (up to 47" long) storage pouches and barrel straps

100.00

#### MEDIUM

- Size: 20" W x 48" H
- Three handgun pouches
- One large document pouch
- Three long gun (up to 47" long) storage pouches and barrel straps
- One multipurpose pouch

130.00

#### LARGE

- Size: 27" W x 48" H
- Four handgun pouches
- Two document pouches
- Four long gun (up to 47" long) storage pouches and barrel straps
- Two multipurpose pouches

150.00

### LED LIGHT

- This battery-powered LED light adds 75 lumens of bright light to your safe interior
- Motion sensor activated

- Attaches with hook and loop fasteners
- Requires 3 AA batteries (not included)

25.00

### BOLT DOWN HARDWARE KIT

- Includes four lag screws for anchoring to wood floors and four concrete bolts and concrete anchors for securing to concrete

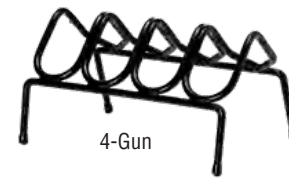

- Wood and concrete drill bits are also included

15.00

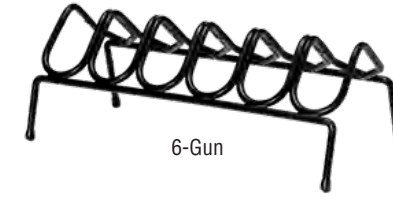

### PISTOL RACKS

- Store handguns more efficiently
- Increases storage space on shelves
- Access to handguns is made easier by placing them in an upright position

4-Gun

15.00

6-Gun

20.00

### ZERUST VCI PROTECTANT

- Small capsule emits an invisible vapor that forms a corrosion- and rust-resistant barrier on metal surfaces
- Vapor Corrosion Inhibitors (VCI) have been used for years to protect metal parts in industrial and commercial applications
- One capsule protects a standard 30" wide (approximately 26 cu. ft.) safe for one year

8.00

### DPX ACCESSORIES

- Take full advantage of the DPX storage system with these accessories
- Store more guns without taking up shelf space with DPX Handgun Pouches (sold in sets of two)
- Store shorter firearms and make them easily accessible with DPX barrel loops and DPX stock risers

Handgun Pouch

31.00

Barrel Loop

23.00

Stock Riser

23.00

### LED SAFE LIGHTING KIT

- The LED Safe Lighting Kit is the best aftermarket lighting solution available today
- The expandable, linear design places bright, long-lasting LED lighting anywhere in the safe
- A motion sensor turns on the lights when the door opens and automatically shuts them off after 30 or 60 seconds with no motion or when the door closes
- Each kit comes complete with six LED light tubes with six LEDs per tube, three flexible connectors, mounting clips with hook and loop tape, A/C adaptor and a motion sensor power module

80.00

### VCI GUN SOCK

- VCI (Vapor Corrosion Inhibitor) penetrates into the smallest crevices and drives out moisture where oils cannot reach
- Provides full protection by forming a vapor enclosure around the firearm from muzzle to butt
- Drawstring closure
- Gives additional protection to all metal items in an enclosed area such as a gun safe or cabinet
- Fits rifles and shotguns 48" to 56"

14.99

### VCI GUN SOCK - TWO PIECE

- Vapor Corrosion Inhibitor (VCI) forms a protective vapor enclosure around the entire firearm
- Adds protection to all metal items in an enclosed gun safe or cabinet
- Drawstring closure
- Two piece design fits most takedown rifles and shotguns

19.99

## USER-INSTALLED ACCESSORIES

### DRY ZONE MOISTURE REDUCER

- Absorbs moisture without electricity and is rechargeable in an oven
- Can be reactivated indefinitely
- One 500-gram box protects up to 37 cubic feet of enclosed space, about the volume of a standard 30" wide safe

30.00

### EVERDRY™ ELECTRIC DEHUMIDIFIER

- The EverDry Electric Dehumidifier removes humidity from the interior of a safe and protects against rust
- The 18" long EverDry should be used on safes 30" wide and larger
- Cord is removable for installation

30.00

### FLEXIBLE EVERDRY™ DEHUMIDIFIER

- The Flexible EverDry is flat and easily bends
- Takes up less space and makes installation easier, especially in small safes
- Removes humidity from the interior of a safe and protects against rust
- Plug is removable for installation
- LED indicates unit is operating

40.00

### S&G® ELECTRONIC LOCK RETROFIT KIT

- The S&G Electronic Lock is an advanced security system manufactured by the leader in the lock industry
- Includes many technical security features
- Kit includes lock and installation DVD (Installation by a professional locksmith is recommended)

165.00

### SECURAM™ SCANLOGIC BIOMETRIC LOCK RETROFIT KIT

- The SecuRam ScanLogic Biometric Lock uses the uniqueness of an individual fingerprint as the combination in this advanced security solution
- The lock opens with either a fingerprint or a multi-digit code
- It is highly secure and operates very quickly
- Simple programming instructions
- LCD Screen (Installation by a professional locksmith is recommended)

360.00

# FITTED GUN CASES

## Making the Case for Protecting a Classic Browning.

One of the grand traditions of the shooting sports is having a genuine Browning fitted luggage case for a favorite Browning firearm. Our cases are constructed with solid wood frames and plush padded interiors. Their durable vinyl exteriors have the look and feel of fine aged leather accented by brass fittings. These cases become the perfect backdrop for showing off a fine Browning firearm and will provide decades of tasteful protection.

- Includes three sizes of magnetic bases to fit virtually any shotgun rib
- Includes four interchangeable LitePipes of different diameters to match different lighting conditions

CODE MSRP  
12859 | 24.99 |

Firearms, ammunition and accessories shown not included.

# SCOPE MOUNTS/BASES/RINGS

## Integrated Scope Mount System.

Our Integrated Scope Mount System eliminates alignment problems and the possibility of a loose connection between the base and ring. The ring and base become a single, ultra-rigid unit machined from 7000 series aluminum alloy and are available in .400" Low height, .500" Medium height and .600" High height versions to fit many popular Browning firearms.

## T-BOLT

HEIGHT	DIAM	FINISH	CODE	MSRP
Low	1"	Matte Blued	12338	69.99

The height is determined by measuring from the top of the base to the bottom of the scope ring. Barrel contour, optic size and preferred eye relief all affect the fit of the scope on a rifle.

### LOW HEIGHT (.300")

For scopes with an objective up to 44mm and a standard barrel contour.

### MEDIUM HEIGHT (.400")

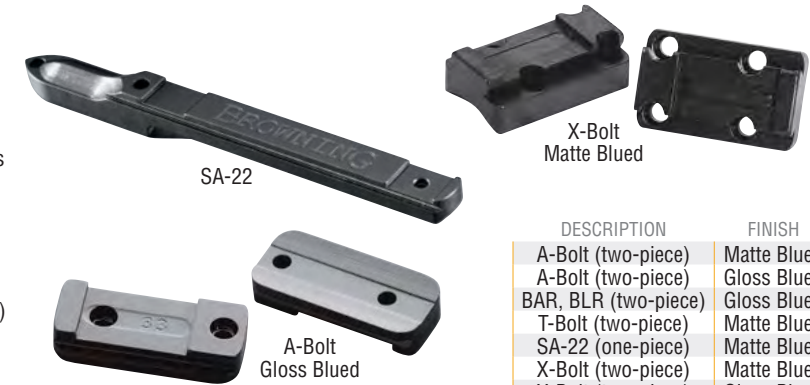

For scopes with an objective up to 50mm and a standard barrel contour.

### HIGH HEIGHT (.500")

For scopes with an objective up to 56mm and a standard barrel contour.

## SCOPE BASES

- Machined from solid steel
- Double recoil shoulder design holds rings securely, even under magnum recoil
- These bases are only compatible with Browning scope rings listed below
- T-Bolt two-piece and SA-22 one-piece bases are alloy and are only compatible with Browning rimfire rings (Code 12365)

- Rear: 5-1/2" W x 5" H x 5" D

CODE	MSRP
129100	54.99

### MOA RAIL REST

- Ballistic nylon construction
- Rubberized top holds gun in place while shooting
- V-shaped ears provide a solid platform to support firearm without lateral movement
- Polymer pellet fill provides a solid rest
- Retaining buckle fits over most tree stand top rails and shifts easily to align firearm with target
- 6-3/4" W x 10-1/2" H x 3-1/4" D

CODE	MSRP
129105	44.99

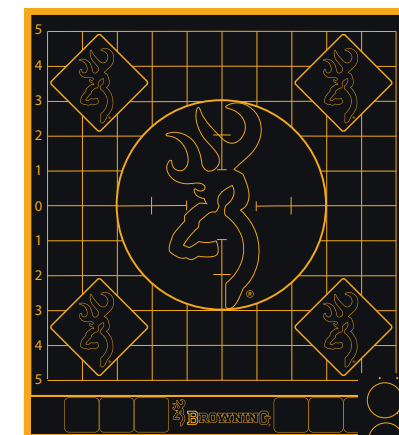

## BOSS-CR

- Offers all the accuracy and tunable advantages of the original BOSS device without the muzzle brake feature.
- By simply replacing the original BOSS forward weight and recoil reduction components with the one-piece, non-ported BOSS-CR accessory, only the reduced recoil of the original BOSS is sacrificed.
- Is designed to fit only BAR Mark II and A-Bolt centerfire rifles previously factory-fitted with the BOSS.

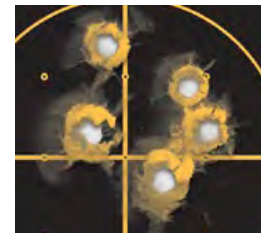

- GLOSS BLUED for BAR Safari; A-Bolt models: Medallion and Gold Medallion
  - MATTE BLUED for A-Bolt models: Composite Stalker, Hunter, Euro-Bolt, Varmint, Eclipse Hunter and M-1000 Eclipse
  - STAINLESS for A-Bolt models: Stainless Stalker, White Gold, Medallion and M-1000 Eclipse
- It is important that the correct BOSS-CR be selected for a specific caliber and model of rifle.**

Circle, Black	129124	

# HEARING/EYE PROTECTION

## CADENCE ELECTRONIC

- Omnidirectional mic amplifies ambient sound but cuts off above 82dB
- Adjustable volume control
- Cushioned headband and low profile earcups
- Requires two AAA batteries (not included)
- 24dB NRR passive protection

CODE MSRP  
12690 | 64.99 |

## BEHIND THE HEAD

- Behind-the-head band doesn't interfere with hat
- Slim profile adjustable earcups
- 22dB NRR

CODE MSRP  
12695 | 19.99 |

## HDR

- Our most protective earmuff
- Padded adjustable headband
- Comfortable foam earcups
- NRR 37dB

CODE MSRP  
12699 | 44.99 |

## JUNIOR BUCKMARK

- Adjustable-fit earmuff with padded headband
- Lighter weight and reduced size to fit smaller heads
- High visibility green color
- NRR 19dB

CODE MSRP  
126372 | 24.99 |

## BUCKMARK II

- Cushioned headband and comfortable foam earcups
- NRR 27dB
- 36 NRR with foam plugs
- Available in several popular colors

NEW	COLOR	CODE	MSRP
	Black	12682	24.99

## BRNG RANGE KITS

- Shooting glasses with clear polycarbonate lenses and rubber tipped temples
- Adjustable-fit folding earmuffs with padded headband provide a NRR of 27dB
- Soft foam earplugs improve overall NRR up to 31dB
- Available in black/gold or black

COLOR	CODE	MSRP
Black/Gold	126381	34.99
Black	126383	

## DISPOSABLE FOAM EARPLUGS

- Bulk container with approximately 100 pairs of disposable orange foam earplugs
- Use alone or under shooting earmuffs
- For shooting coaches, instructors, group range outings, home or shop projects or any high-noise environment
- NRR 32dB

CODE MSRP  
12606 | 34.99 |

## BANDED EARPLUGS

- Foam earplugs conform to the outer ear canal
- Folding plastic headband
- NRR 22dB
- Includes one pair of replaceable foam earplugs

CODE MSRP  
12686 | 8.99 |

# HEARING/EYE PROTECTION

## All Eyes Are On Browning.

Browning protective glasses are every bit at home on the shooting range as they are when working around the house, in the yard or at the shop. We have an exciting look, feel and color to match nearly any taste for men, women and kids. Browning Sound Shield offers an innovative solution that combines both eye and hearing protection into a single convenient unit.

### SOUND SHIELD

- Tall, frameless lens profile
- Soft rubber standoff nosepiece
- Color accented rubberized temples
- Earpieces open to release a corded, retractable earplug that's washable and replaceable
- NRR 25dB
- Available with yellow or lightly tinted indoor/outdoor lens
- Men's models have larger lens for larger faces and greater coverage

DESCRIPTION/COLOR	CODE	MSRP
Men's, Yellow	12744	
Men's, Indoor/Outdoor	12743	29.99

Women's, Indoor/Outdoor, Fuchsia

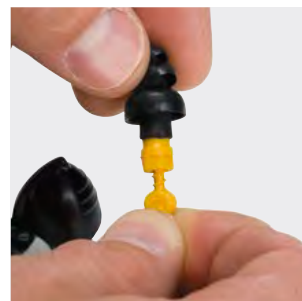

Replacement Earplugs

Sound Shield is the perfect solution to the problem of having to search for both eye and ear protection items in a crowded shooting gear bag.

The end of each earpiece opens to release a corded retractable earplug, so you never have to fumble in your pocket or pouch for earplugs.

User-replaceable earplugs have a noise reduction rating of 25dB.

Sound Shield eyewear offers a full-wrap lens design that helps eliminate blind spots or target blocking sometimes found on center-frame designs.

Tinted/Gold

### SHOOTERS FLEX

- Full-wrap polycarbonate lens and highly flexible frame and temples
- 99.9% UV protection
- Built-in nosepiece
- Also provides great protection when working in the yard, garage or shop
- Available in clear with black rubber temple tips or gray tinted with gold rubber temple tips

COLOR	CODE	MSRP
Clear/Black	12761	7.99
Tinted/Gold	12762	

Black/Gold

Black/Pink

### ON-POINT SHOOTING

- High-grade wrap-around lens offers a wide field of vision
- Matte black frame
- Adjustable nosepiece
- Vented temples with flexible tips and lanyard eyelets
- Also provides great protection when working in the yard, garage or shop
- Microfiber storage bag included (not shown)
- Available in clear with gold or pink rubber temple accents

COLOR	CODE	MSRP
Black/Gold	127173	19.99
Black/Pink	127151	

### ALL-PURPOSE INTERCHANGEABLE

- High-grade wrap-around frameless lens offers a wide field of vision
- Includes smoke, rose, yellow and clear interchangeable lenses
- Matte black and gray temple earpieces with rubber tips and lanyard eyelets
- Clear soft polymer nosepiece
- Also provides great protection when working in the yard, garage or shop
- Zippered neoprene carry case included (not shown)

CODE	MSRP
12765	44.99

Eye protection meets or exceeds ANSI Z87.1 impact standards. Hearing protection meets or exceeds ANSI S3.19 noise reduction standards.

## GUN MAINTENANCE

All items are packaged in an industrial-grade molded polymer case for easy storage.

### UNIVERSAL DELUXE CLEANING KIT

- Everything needed for gun cleaning
- 2 three-section T-handle brass cleaning rods fit .17 caliber and larger
- 13 nylon jag tips
- 4 nylon slotted tips
- 3 thread adaptors
- 14 phosphor bronze bore brushes
- 9 cotton bore mops
- 3 muzzle guards
- Non-woven cleaning patches
- 3 detail cleaning brushes: Nylon, steel and phosphor bronze
- Industrial-grade molded hard case with integrated handle and snap latches

CODE MSRP  
12447 | 69.99 |

Comes complete with this Browning branded hard case.

### UNIVERSAL 28-PIECE CLEANING KIT

- Everything needed for gun cleaning
- 1 three-section T-handle brass cleaning rod fits .22 caliber and larger
- 5 brass jag tips
- 2 nylon slotted tips: .22 and 12 ga.
- Brass accessory adaptor
- 8 phosphor bronze bore brushes
- 5 cotton bore mops
- Non-woven cleaning patches
- Nylon detail cleaning pick
- Double-ended nylon brush
- Presentation-grade branded hard case with brass hardware

CODE MSRP  
12482 | 49.99 |

ACCESSORIES

### RIFLE FIELD CLEANING KIT

- Everything needed for cleaning your rifle in the field
- Flexible polymer coated T-handle pull-through cable
- 3 phosphor bronze bore brushes: .22, .27 and .30
- 3 brass jag tips: .22, .27 and .30
- Brass slotted tip
- 40 non-woven cleaning patches
- Empty poly lube/solvent bottle with twist closure pinpoint spout
- Black zippered nylon field case with belt loop

CODE MSRP  
124301 | 17.99 |

### RIFLE CLEANING KIT

- Everything needed for rifle cleaning in the field or at the bench
- Four-section T-handled brass cleaning rods fits .22 caliber and larger
- 2 phosphor bronze bore brushes: .22 and .30
- 2 phosphor bronze chamber brushes: .22 and .30
- Brass slotted tip
- 2 cotton bore mops: .22 and .30
- Double-ended nylon brush
- 2 plastic detail cleaning picks
- Clear-topped plastic hard case

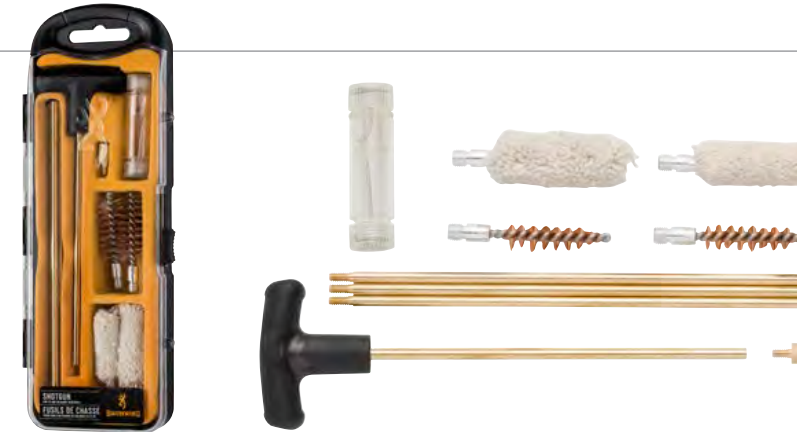

CODE MSRP  
124201 | 21.99 |

### SHOTGUN FIELD CLEANING KIT

- Everything needed for cleaning your shotgun in the field
- Flexible polymer coated T-handle pull-through cable
- 2 phosphor bronze bore brushes: 12 ga. and 20 ga.
- 2 cotton bore mops: 12 ga. and 20 ga.
- 40 non-woven cleaning patches
- Empty poly lube/solvent bottle with twist closure pinpoint spout
- All packaged in a black zippered nylon field case with belt loop

CODE MSRP  
124302 | 17.99 |

### SHOTGUN CLEANING KIT

- Everything needed for shotgun cleaning in the field or at the bench
- Four-section T-handled brass cleaning rods
- 2 phosphor bronze bore brushes: 12 ga. and 20 ga. plus a brass accessory adaptor
- 2 cotton bore mops: 12 ga. and 20 ga.
- Empty two-compartment poly bottle with twist closure for oil and grease
- Clear-topped plastic hard case

CODE MSRP  
124203 | 21.99 |

### PISTOL FIELD CLEANING KIT

- Everything needed for cleaning your pistol in the field
- Two-section T-handle brass cleaning rod fits .22 caliber and larger
- 3 phosphor bronze bore brushes: .22, .38/9mm and .45
- 3 brass jag tips: .22, .38/9mm and .45
- 2 brass slotted tips
- Thread adaptor
- 40 non-woven cleaning patches
- Empty poly lube/solvent bottle with twist closure pinpoint spout
- All packaged in a black zippered nylon field case with belt loop

CODE MSRP  
124303 | 17.99 |

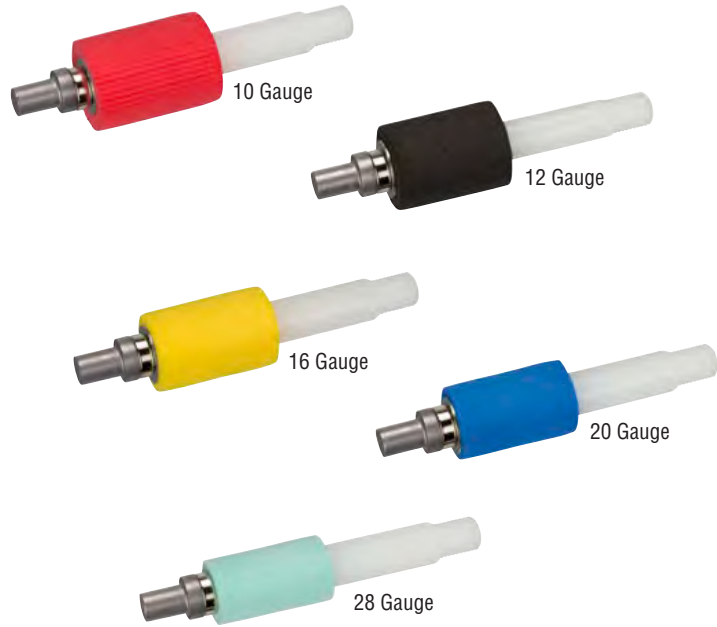

### PISTOL CLEANING KIT

# GUN MAINTENANCE

## SHOTGUN PIG™ POLYMER BARREL CLEANING JAGS

- Provides 100% contact with interior of barrel
- Color coded by gauge and threaded for standard shotgun cleaning rods
- Withstands common solvents and lubricants and will not harm barrel
- Fabric cleaning patch can be attached via magnet on end of jag
- Available individually, all 5, and 12 and 20 gauge combo packs

DESCRIPTION	CODE	MSRP
10 Gauge	1291610	
12 Gauge	1291612	
16 Gauge	1291616	14.99
20 Gauge	1291620	
28 Gauge	1291628	
12 & 20 Gauge Combo	129161220	24.99

## GUN CLEANING MAT

- Soft, felt-like fabric protects both firearms and furniture
- Waterproof Zorb Tech™ backing stops spills from migrating and inhibits the soak-through of cleaners
- Washable, dryable and highly stain resistant
- 16" H x 54" W

CODE	MSRP
12420	29.99

## SCREWDRIVER TOOL SET

- Compact 51-piece tool set
- Custom-molded driver handle with magnetic tip
- Rugged fitted plastic case with clear lid and sliding closure
- 12 flat head bits, 8 hex bits, 4 Phillips bits, 2 extra-long Phillips bits, 7 Torx® bits, 4 Robertson bits, 4 tri-wing bits, 3 clutch bits, 2 spline bits, 3 torq bits and one 1/4" socket adaptor

CODE	MSRP
12401	34.99

## SNAP CAPS

- Precisely matches 12 gauge shell dimensions
- Safely withstands repeated dry-firing practice
- Will not harm firing pins or chambers
- Packaged in pairs

CODE	MSRP
12465	34.99

Firearms shown not included.

## PRE-PACKAGED 4-STEP GUN CLEANER

- Includes Carbon Cleaner, Bore Polish, 10 oz. Solvent Degreaser and Gun Oil

CODE	MSRP
123400	49.99

## STEP 1: CARBON REMOVER

- Proprietary formula quickly removes carbon buildup
- Evaporates quickly
- Contains no ammonia and is pH neutral
- 4 oz. bottle with pinpoint applicator

CODE	MSRP
124023	14.99

## STEP 2: BORE POLISH

- Proprietary formula improves bore condition while safely removing accuracy-harming copper buildup
- Removes copper, lead and powder residue
- Evaporates quickly
- Contains no ammonia and is pH neutral
- 4 oz. bottle with pinpoint applicator

CODE	MSRP
124024	17.99

## STEP 3: SOLVENT AND DEGREASER

- Safely removes residue from Carbon and Bore Polish cleaners
- Fast-drying solvent displaces water and leaves no residue
- Contains no chlorine and is ozone safe
- Rapidly cuts through oil and grease
- 19 fl. oz. aerosol can

CODE	MSRP
124025	14.99

## STEP 4: GUN OIL

- Proprietary formula passes strict military requirements
- Low surface tension provides excellent lubrication and corrosion protection
- Contains no synthetics
- Available in 2 oz. bottle with pinpoint applicator or 6 fl. oz. aerosol can

SIZE	CODE	MSRP
2 oz.	124032	9.99
6 oz.	124040	17.99

# MAGAZINES

CODE	MSRP
112055190	34.99

# CHOKE TUBE TECHNOLOGY

## Choke Points – How to Select the Right Choke Tube.

The key to making a successful shot is selecting the right choke tube for a specific hunting situation or a challenging target presentation. Choose from Extra-Full constrictions for turkey and predators to pattern-spreading Timber n' Teal tubes for close-in flooded timber waterfowling. You can trust that every Browning choke tube is made to the most exacting standards. They will provide you with perfect, dense shot patterns over many years of shooting and hunting.

## Features and Benefits

### INVECTOR-DS CHOKE SYSTEM

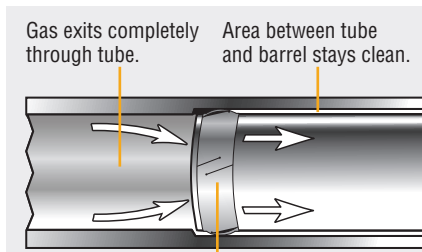

- Invector-DS choke tubes combine muzzle-end threads and thin-wall construction for a longer, more gradual taper that produces extremely consistent, dense shot patterns that tighten consistently in reliable, evenly scaled steps.
- Muzzle threads minimize the flare at the end of the barrel for improved appearance, a faster swing and improved balance.
- A proprietary differential-banded brass seal compresses against the barrel wall when tightened to keep the choke tube threads clean and make installation and removal easier than any other muzzle thread system.
- Invector-DS is standard on A5 and Citori 725 models.
- View the full line of Invector-DS choke tubes on pages 171, 173 and 174.

### INVECTOR-PLUS CHOKE SYSTEM

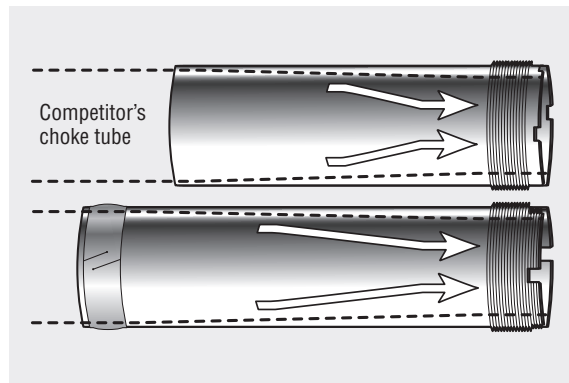

- The Invector-Plus interchangeable choke tube system works with Vector Pro and back-boring to offer consistent, dense shot patterns.
- The longer choke taper inside an Invector-Plus choke tube produces consistent patterns and is far more durable than choke systems in competitors' guns, especially with steel shot.
- Invector-Plus eliminates gases slipping between the choke tube and barrel that could damage the choke tube and the barrel.
- Invector-Plus is standard on 12 and 20 gauge Maxus, Citori, Cynergy, Silver, BPS and BT-99 models.
- See pages 171 through 175 for our complete lineup of choke tubes and choke tube wrenches.

### STANDARD INVECTOR

- The Standard Invector interchangeable choke tube system is for non back-bored Browning barrels and offers consistent, dense shot patterns. It's far more durable than the choke systems found in competitors' guns, especially with steel shot.
- Standard Invector eliminates gases slipping between the choke tube and barrel that could damage the choke tube and the barrel and it's standard on 10, 16 and 28 gauge, and .410 bore Citori, Cynergy, Gold and BPS models.
- See pages 171 through 175 for our complete lineup of choke tubes and choke tube wrenches.

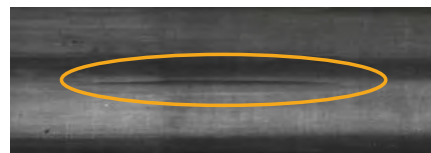

Gas exits completely through tube. Area between tube and barrel stays clean. Invector-DS tubes have a special brass seal with multiple cuts that compresses against the barrel wall and completely seals against gas leakage.

Longer overall length, as much as 1-1/8" over a leading competitor, allows a more gradual choke taper on Invector-DS tubes for denser shot patterns, better pattern percentages and faster shot velocities.

Browning Invector choke tube is still flawless after 500 rounds of steel shot.

Competitor's choke tube is grooved and pitted after shooting 500 rounds of steel shot.

# CHOKE TUBES

## INVECTOR-DS EXTENDED

- Extended length tubes are easy to change and add approximately 3/4" to the overall length of the barrel
- Proprietary differential banded brass gas seal eliminates residue buildup and makes chokes easy to remove and install
- Integrated spring suspension holds the seal tight, yet allows expansion against the barrel wall for a perfect fit and a smooth transition for shot column entering choke
- Gas is controlled at the interface between choke and where it seats in the bore
- From Skeet to Full choke, patterns tighten consistently and reliably
- Choke tube wrenches are listed on page 175
- Flat choke tube wrench is not compatible with Invector-DS choke tubes

INVECTOR-DS

## INVECTOR-DS FLUSH

- Standard tubes fit flush with the end of the barrel but are longer than competitors' tubes
- Proprietary differential banded brass gas seal eliminates residue buildup and makes chokes easy to remove and install
- Integrated spring suspension holds the seal tight, yet allows expansion against the barrel wall for a perfect fit and a smooth transition for shot column entering choke
- Gas is controlled at the interface between choke and where it seats in the bore
- From Skeet to Full choke, patterns tighten consistently and reliably
- Choke tube wrenches are listed on page 175
- Flat choke tube wrench is not compatible with Invector-DS choke tubes

## MIDAS GRADE EXTENDED

- Extends beyond the end of barrel for easy removal and installation
- Stainless steel with black oxide finish
- Laser-etched gold accent band
- Minimum gap geometry plus high-resolution "RMS" finish reduce plastic buildup in bore
- Invector-Plus long taper choke tube technology in 12 and 20 gauge
- Produces tighter patterns than Browning Invector-Plus flush choke tubes
- 28 gauge and .410 bore are Standard Invector chokes
- Choke tube wrenches are listed on page 175
- Flat choke tube wrench is not compatible with Midas Grade Extended choke tubes

Full Strut Turkey Express Sabot Invector-DS Turkey

## SPECIALTY EXTENDED

- Constructed of stainless steel for the ultimate in performance and durability
- Knurled portion extends beyond the end of the barrel for easy removal and installation
- Full Strut Turkey tube has directional porting, a camo front band and is optimized for tight patterns with #4, #5 and #6 shot sizes
- Express Sabot rifled tube has a red front band and is rifled to produce optimal accuracy from both Foster and sabot slugs
- Invector-DS Turkey tube has a black accent band and an extra full constriction for improved long range patterning
- Choke tube wrenches are listed on page 175
- Flat choke tube wrench is not compatible with Specialty Extended choke tubes

## WICKED WING EXTENDED

- Available in three constrictions for close, medium and long range shooting
- Constructed of 17-4 stainless steel with black oxide finish for the ultimate in performance and durability
- Diamond knurled portion extends beyond the end of barrel for easy removal and installation
- Specifically designed for steel shot, particularly Browning BDX waterfowl ammunition
- Long Range tube produces a 70% pattern
- Medium Range tube produces a 50% pattern
- Close Range tube produces a 30% pattern
- Two-pack includes one Long Range and one Close Range tube
- Choke tube wrenches are listed on page 175
- Flat choke tube wrench is not compatible with Wicked Wing Extended Choke Tubes

## The Fastest Way to a Razor-Sharp Blade.

Innovative quick change blade design, versatile performance and no-nonsense looks make our patent-pending Speed Load knives and saws must-have cutting tools. You know you're holding some serious cutting edge technology when you have a Speed Load knife or saw in your hand.

### Features and Benefits

#### SECURE BLADE LOCK

- The Speed Load blade lock is the essence of simplicity. Just press in on the release button while pressing down on the back of the blade spine and lift the blade up and out of the frame.
- Insert a new blade by reversing the process and making sure the release button fully engages the slot in the blade.
- Folding blade models have a rugged liner lock that keeps the blade securely in position when open.

#### COMFORTABLE GRIPS

- Speed Load knives are offered with a variety of handle materials including G-10 laminate and rugged injection molded composites with soft rubber inserts for improved grip.
- The handle's grip is further improved by adding attractive sculpting and textured patterns to help prevent slipping, even when wet.

#### BLADE STORAGE

- The Speed Load Hunting and Fixed Blade knives and the Speed Load Saw come with rugged nylon belt sheaths that help keep the knife secure and provide a hard polymer insert case for storage of additional blades.

#### TASK-SPECIFIC BLADES

- Speed Load blades come in a variety of blade profiles, contours and edge treatments. Just pick the blade that best suits the cutting task at hand.
- Speed Load knives are available in your choice of stainless steel or ceramic blade models.
- The Speed Load Hunting model also accepts standard utility knife blades that are readily available in any hardware store or home improvement center.
- Not all blades are fully interchangeable between all models.

Secure Blade Lock

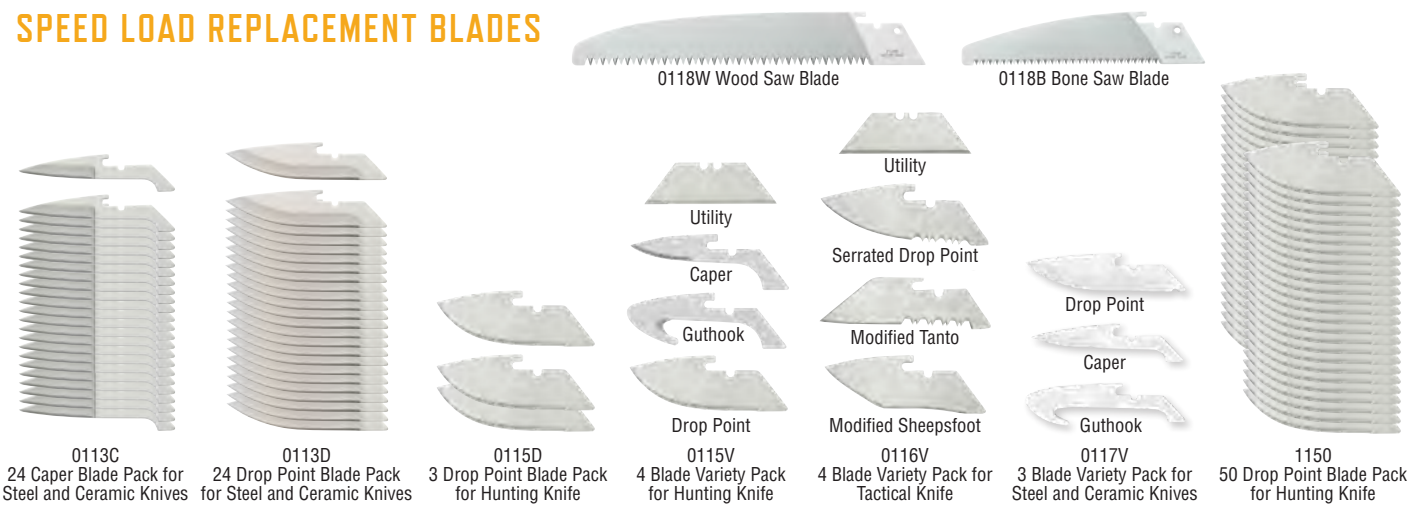

Comfortable Grips

Blade Storage

### SPEED LOAD REPLACEMENT BLADES

- Replaceable high carbon steel, stainless steel or ceramic blades for Speed Load knives and saws
- Choose from single saw blades, multi-blade variety packs and bulk packs
- 24-blade packs contain 6 blade storage boxes, 50-blade packs contain 5 blade storage boxes
- Blades are not interchangeable between all models

## Selecting the Right Browning Light.

When it comes to portable battery-powered lighting for hunters and shooters the brightest solutions come from Browning. With plenty of choices in our product line you'll find a light that's ideal for every need.

### SIZE, WEIGHT AND POWER

When choosing a light, smaller, brighter and lighter are better. Today's high-output LEDs are so powerful and efficient they achieve the same light output as the old multi-cell C and D lights. The Trak USB keychain light is no bigger than a magnum pistol cartridge, yet it shines with a powerful 121 lumens.

### LED VS. XENON BULBS

LEDs are preferred over traditional Xenon bulbs for most uses, thus all of our lights are now LED designs. LEDs use batteries more efficiently, illuminate at greater distances, emit a clean, even beam and will never burn out under normal use. Like most technology, LEDs keep getting better every year. For 2019 several of our lights offer upgraded LEDs with 15% - 100% more output.

### HAND HELD OR HANDS FREE

Headlamps and cap lights allow the use of both hands for tasks like dressing a deer, fixing a truck or finding a path through the woods. Modern technology makes many headlamps as powerful as larger hand-held flashlights. The Blackout 6V headlamp puts out 860 lumens and is brighter than all but three of our Browning hand-held flashlights.

### LONG RUN TIME

By using advanced digital circuitry, highly efficient LEDs and low-resistance switches, we are able to offer extra long run times on many lights. Many flashlights and headlamps will run for 20-48 hours on the low setting. The High Noon 3C spotlight will run for 4 days at the low setting. These extended run times could be the difference between getting home safely or spending a night in the woods.

### WATERPROOF AND SUBMERSIBLE

Because the great outdoors doesn't always have great weather, we have redesigned most lights to be waterproof and submersible to 3 feet for 30 minutes (ANSI IPX7). Most of our other lights are O-ring sealed for greater water resistance (IPX4). The High Noon LED spotlight is submersible and it floats.

### BATTERIES

Lithium batteries are used in many of our highest-performing lights, such as the Kingpin, Ruckus lantern and High Noon Rechargeable spotlight. Lithium batteries pack twice the power of alkaline batteries for their weight, and operate well at very cold temperatures. Other lights in the line use AA and AAA alkaline batteries because they cost less than lithium and are readily available anywhere in the world. The latest Lithium-ion (Li-ion) and Lithium-polymer (Li-poly) rechargeable batteries in the USB Charge series offer high energy density with no memory effect and minimal power loss during storage. And you can top off the battery charge at any time and always begin your adventure at maximum brightness.

### SWITCH SETTINGS

Multiple switch settings (high, low and in-between) help preserve battery life and allow selection of colors and flashing options. The lock-out switches found on most of our lights keep the light from accidentally turning on in a pack or pocket. A rapid strobe setting is available on some of our lights, and it has proven useful for self-protection and for signalling during an emergency.

### RED, GREEN AND BLUE LEDs

Colored LEDs help preserve night vision and are great for map reading. They are less obvious than white light to many types of game animals and they don't interfere with night vision.

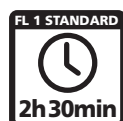

### ANSI FL-1 FLASHLIGHT PERFORMANCE STANDARDS

We proudly participate in the ANSI FL-1 flashlight performance standards for measuring and stating performance claims for all portable lights. This includes brightness (lumens), distance, run time, water resistance and impact resistance. FL-1 provides the only reliable apples-to-apples comparison between models and is used by most major manufacturers. Charging times are approximate for most AC power sources. Charging times from other power sources may be significantly longer. On lights with multiple settings, the lumens, battery life and distances are stated at the highest setting (100% power), unless otherwise indicated. Weights are measured as carrying weight, including battery. Look for these FL-1 symbols on our light packaging.

### LUMENS = BRIGHTNESS

The output of a traditional 2D cell flashlight is approximately 15 - 20 lumens. The latest LED flashlights can have an output of more than 3500 lumens.

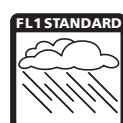

### BATTERY LIFE

Battery life (run time) is defined as the time elapsed from when the batteries are new to when the light reaches 10% of the original brightness.

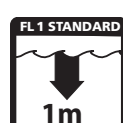

### MAXIMUM DISTANCE

Maximum distance is calculated as the distance from the light source to where it decreases in brightness to 0.25 lux — about the brightness of the full moon on a clear night.

### WATER RESISTANCE

Water resistance (FL-1 Standard IPX4) is tested by spraying water onto the light from multiple directions. This simulates a heavy, all-day rain.

### WATERPROOF AND SUBMERSIBLE

Waterproof and submersible (FL-1 Standard IPX7) assures water cannot get inside the light. This test is conducted for 30 minutes at a water depth of 1 meter (about 39").

### IMPACT RESISTANCE

Impact resistance (FL-1 Standard 1M) measures how well the light resists damage when dropped repeatedly from a height of 1 meter (about 39") onto concrete.

## Browning - Always Seen in the Best Light.

Browning lights are designed to be the most rugged and efficient lights on the market. Today we offer a full line of lighting products ranging from basic flashlights and headlamps to high-performance lights with the latest USB charging capabilities. Across the line, Browning is the brilliant brand that's perfect for pocket, purse, pack or pickup.

## Features and Benefits

### MULTI-MODE OPERATION

- Many of our lights offer a choice of continuous full output, continuous low output and a rapid strobe mode.
- Many models also offer multi-color LEDs for specialized tasks, to extend run times, prevent spooking game animals and preserve night vision.

### PUSH-BUTTON TAILCAP SWITCH

- The multi-mode, push-button tailcap switch allows partial depression, giving you a quick flash for search or identification, plus a full depression click to provide a continuous beam for task illumination.
- The textured rubber-covered switch prevents finger slippage during activation.
- The rotating lock-out tailcap prevents accidental activation in a pocket or pack, and a quick twist enables the light.

### WIDE-ANGLE TECHNOLOGY

- This latest LED technology creates a clear, soft, ultra-intense wide-angle beam to open up the shadows, making it the perfect choice for close-distance task lighting or working around your vehicle, home or campsite at night.

### USBcharge

- The USB interface has become the modern standard for recharging portable electronic devices. That's why we have a complete line of USB compatible lights and power stations.

### POWER BANK

- For 2019, in addition to the standard Power Bank Charging Station, there is a USB "power out" feature built into the Skyway flashlight, Ruckus lantern, the High Noon Rechargeable spotlights, and Kingpin.
- The Browning USB Power Bank charging station is built around a 4400 mAh battery that has plenty of juice to keep all your USB lights and other electronic devices topped off and running at peak performance.

### ALL-WEATHER SEALS ON USB PORTS

- The flexible rubber seals on USB charging ports help keep moisture out of your Browning light or power station, preventing damage during rain, snow or unexpected splashing.

### BUILT-IN USB CHARGERS

- All 20 of our USB charge lights are equipped with built-in chargers, either in the light or in the battery. To top off the battery you simply plug your light into a USB port, just like you do with your mobile phone or tablet.
- The indicator light monitors your battery status — red for charging, green for fully charged, and several models have a yellow indicator to remind you it's time to recharge.

### DUAL FUEL

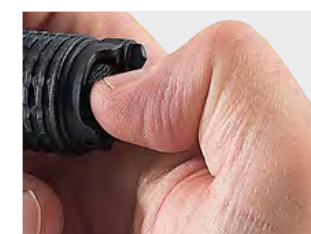

- There are 12 of our USB charge lights designed to run on standard AA, C, D or CR123A batteries or on USB rechargeable batteries.

### FL 1 1-METER WATERPROOF CERTIFICATION

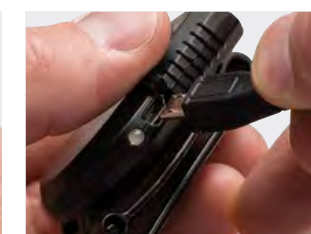

- The majority of our lights are certified to meet the latest ANSI FL 1 Flashlight Performance Standards to operate after being submerged in 1 meter (about 39") of water for 30 minutes. It can be a real lifesaver in a water survival situation (or even if you just leave your spotlight in the duck boat for the winter).

All measurements in inches.  
If you are in between measurements, select the next size larger.

**1 SLEEVE**

Starting from the center of the back of the neck, measure along the shoulder and down the elbow to the wrist bone.

**2 CHEST**

Measure under the armpits, around the widest part of the chest and shoulder blades.

**3 WAIST**

Measure around the waist where pants are normally worn. Tape should be a little loose, enough to get one finger between the tape and the body.

**4 INSEAM**

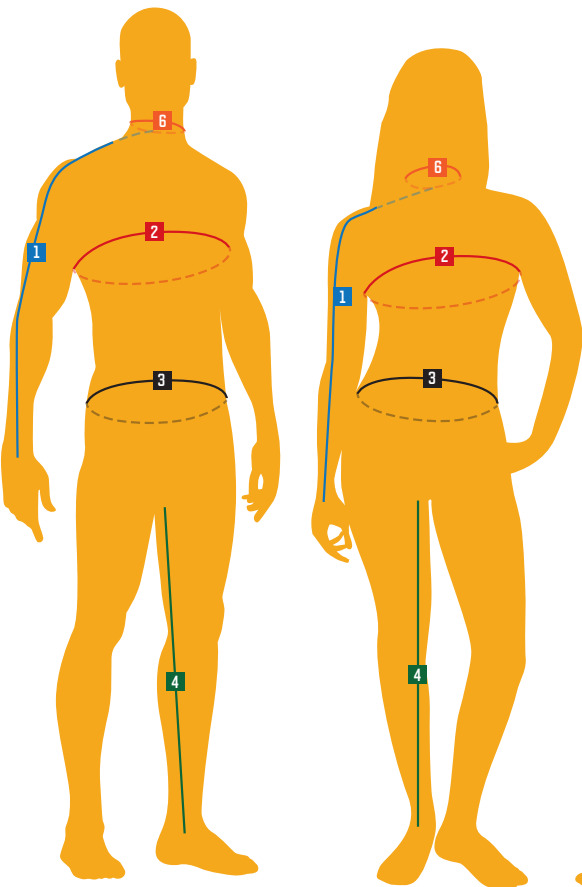

While standing, measure from the crotch to the point pants normally end. This should be approximately at the top of the shoe and just above the heel in the back.

**5 GLOVE**

Close hand slightly and measure around the knuckles, excluding thumb.

**6 NECK**

Measure around the base of the neck with the head up and eyes forward.

**HERO FIT** Built for more agile hunters. Trim dimensions eliminate extra bulk and weight. Tough, stretchable fabrics maximize mobility.

MEN'S HERO FIT – TOP

## The Best There Is for Hunters.

At Browning, we take pride in being at the forefront of clothing development for hunters. From the most cutting edge camo patterns, to the finest in waterproof/breathable technology, to the warmest insulations, we utilize the best technology to improve your outdoor experiences.

### Features and Benefits

**HARNES ACCESS**

- Select Browning outerwear offers convenient Harness Access.
- Allows a treestand safety harness to be comfortably worn underneath a parka or jacket.
- Improves concealment as the harness does not interfere with the camouflage pattern on the garment.

**RUGGED SLIDER BUTTONS**

- These large, low-profile buttons are easy to fasten and undo, even in cold, wet conditions.
- Unlike buttons that are simply sewn on, the Slider Button is held in place by a durable loop of webbing that laces through two slots and is then securely sewn right into the seam. This military-style button is more secure.
- These durable buttons won't come off in the laundry or in the field.

**PRIMALOFT® INSULATION**

- PrimaLoft® is a premium performance insulation that is engineered for superior warmth, water resistance, loft and compressibility.
- PrimaLoft has the best warmth-to-weight ratio in the industry. The fibers are more densely packed and retain heat better than other insulations for improved thermal efficiency.
- Water-resistant PrimaLoft fibers are permanently treated to repel water and prevent absorption, making PrimaLoft faster drying than other synthetic insulations.
- The fine-fiber, high-loft insulation keeps you warmer in extreme conditions, even if it gets wet.
- PrimaLoft is the choice of the U.S. Military. Over 1,000,000 PrimaLoft military garments are deployed in active service around the world.

**SILVADUR™**

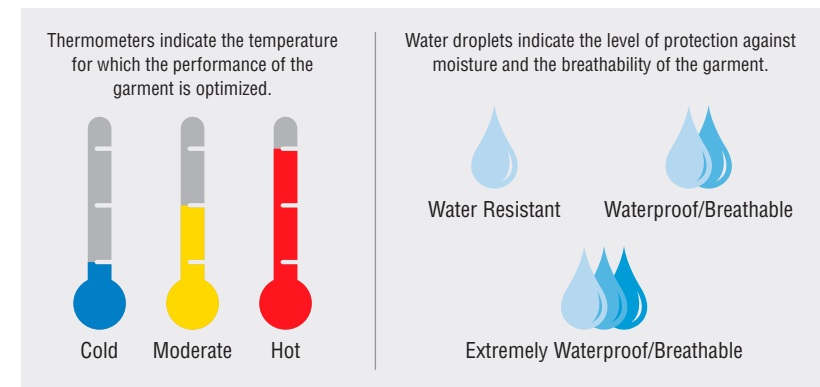

- Minimizing human odors in the field is a vital component of hunting. SILVADUR™ technology neutralizes the growth of odors on fabrics, helping to keep odors hidden from the sharp senses of game animals. Fabrics treated with SILVADUR technology provide long-lasting odor control.

**SILENTSNAPS**

- SilentSnaps use a quiet polymer interface that won't spook game, yet are easy to use in any condition.

**TEMPERATURE/CONDITIONS ICONS**

- We make clothing for all weather conditions. Look for the temperature and water resistance icons to determine what garments are best suited to your hunting conditions.

Temperature/Conditions Icons

## Control Your Climate.

When it comes to protecting adventure seekers from the elements, Gore® has earned the right to call themselves the best. For nearly 50 years their products have been tested in the most severe environments on the planet and have consistently passed the test. From Himalayan mountain peaks to Amazon jungles; from the North Pole to Antarctica, people have trusted Gore products to keep them warm, dry and comfortable.

Browning is proud to work with Gore to make our technical outerwear the most protective and comfortable that hunters can buy. In addition to being waterproof, the main advantage of Gore-Tex® is the enhanced breathability of the membrane, which is just the ticket for fast-moving, hard-core hunters. The excellent waterproof and windproof properties of Gore-Tex offer the best protection from the extreme and unpredictable elements that often occur in the backcountry.

## Features and Benefits

### 3-LAYER GORE-TEX® TECHNOLOGY

- The Gore-Tex® membrane is bonded to both the outer material and the inner lining.
- Zero movement between the layers reduces wear and tear for greater durability.
- Reduces excess bulk and weight to a minimum.
- Provides breathable comfort and durable waterproof and windproof protection over a wide range of outdoor activities.

### 2-LAYER GORE-TEX® TECHNOLOGY

- The Gore-Tex® membrane is bonded to the outer material and protected on the inside by a separate lining.
- The separate lining inside ensures comfort, freedom of motion and versatility.
- Provides breathable comfort and durable waterproof and windproof protection over a wide range of outdoor activities.

### HOW DOES GORE-TEX® WORK?

The Gore-Tex® membrane is an extremely thin layer of expanded polytetrafluoroethylene (ePTFE) with over 9 billion pores per square inch. The pores in the Gore-Tex membrane are too small to allow water droplets and wind to pass through.

The pores are, however, large enough to “breathe,” allowing moisture vapor from evaporating perspiration to pass through the membrane.

With Gore-Tex, you are protected from the elements and your own perspiration, even when hiking. Because your skin stays dry, even under exertion, you stay warm and comfortable.

This breathable comfort and durable waterproof and windproof protection is perfect for hunters of all activity levels.

Every stitch is a potential leak, that is why every seam in Browning Gore-Tex garments is taped.

Every Browning Hell's Canyon Speed piece not only meets our standards, they meet the standards of Gore. All new Gore-Tex product prototypes are put through a battery of tests in Gore labs. Only if they meet their strict weatherproof performance standards are they approved for production.

And with Gore-Tex, it isn't just about short-term waterproofness; there is an emphasis on the long-term durability and protection you get from the fabric. Gore-Tex is designed to effectively deliver the goods, keeping you dry and warm for many years to come.

### THE GORE® RAIN ROOM

The Gore® Rain Room is more impressive than it may sound. This two-storm room can mimic nearly any style of precipitation, with water plunging from the ceiling and also from ports in the walls. To meet the minimum rain rating, a garment must bear 30 minutes of rain at a rate of 3" per hour. To earn the maximum storm rating, garments must withstand 60 minutes of rain at a monsoonal rate of 22" per hour. If a garment has a weakness to water, the Rain Room is sure to expose it. Browning Gore-Tex garments pass the rigors of the Rain Room with flying colors.

### THE GORE® ENVIRONMENTAL CHAMBER

The Gore® Environmental Chamber is a state-of-the-art testing laboratory that is capable of recreating between 85 to 95 percent of the environments on the earth's surface.

The range of conditions is achieved through accurate control of temperature (-50C→+50C), relative humidity (5-98%), wind speed (0-10 m/s), and natural solar radiation (0-1100 W/m2) that can replicate a complete solar cycle from sunrise to sunset.

This high-tech room allows Gore to evaluate the performance of its products in a variety of conditions and collect data on the protection provided and comfort of the wearer.

As the wearer exercises and begins to perspire, wind speed and temperature can be adjusted to check for the windproofness and breathability of the fabric.

### GORE-TEX INFINIUM™: THE SCIENCE BEHIND COMFORT

GORE-TEX INFINIUM™ is a new approach to weathering the storm from Gore, the industry leaders in comfort science.

The GORE-TEX INFINIUM™ membrane manages the environment by blocking out wind while allowing moisture vapor from perspiration to escape. This breathable protection reduces the chilling effect of wind while reducing the risk of overheating when you are active.

A durable outer fabric treatment (DWR\*) provides you with the additional protection of water repellency.

### RIGOROUS PRODUCT TESTING

A battery of laboratory tests have been developed to ensure that products that wear the Gore® name are up to their standards. Manufacturers using Gore technologies, like Browning, are required to send samples to Gore labs where they are put through the wringer, literally, guaranteeing that survival indoors translates into dry comfort outdoors.

#### FLEX

The Gelbo Flex test is designed to check how well a fabric will perform in high stress areas such as the knee and elbow. Repeat motion checks for holes, cracking and excessive wear of the fabric.

#### TOUGHNESS

Our fabrics undergo the Martindale Abrasion test that measures the abrasion resistance of the fabric. The Puncture, Propagation and Tear (PPT) test measures how resistant the fabric is to penetration by sharp objects and how the fabric reacts if compromised.

#### BREATHABILITY

The Moisture Vapor Transfer Rate test measures breathability. Body temperature water is separated by a Gore-Tex® membrane. A cup with a Potassium Acetate salt solution is placed on the membrane. The cup is weighed before and after the test to determine how much water vapor passes through the membrane.

#### WASHING

Washing clothing usually wears it out faster than wearing it does. Rows of washing machines, without timed cycles, stress Gore® products and enable longevity testing. They also confirm that normal washing won't result in decreased performance.

Speed Up.

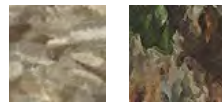

If you want to hunt faster, harder and in more comfort than you believed possible, it's time to gear up with Browning Hell's Canyon Speed. This high-tech outerwear has undergone scrutiny from every angle in order to become the best it can be and exceed the demands of backcountry hunters. Speed is designed with the newest weather-resistant fabrics and features a slim fit that trims away excess bulk and weight.

*Too Good Not to Share.*

The CFS Rain Jacket is simply too good and too versatile to keep it pigeonholed in the big game category, so we've added more patterns and colors to the mix to broaden its appeal. This lightweight, packable piece is now available in three camo patterns for big game hunters; and waterfowlers can pick from two marsh patterns. There's a colorway tailored for upland hunters with blaze shoulder overlays and even a solid charcoal for the ultimate in versatility, fitting in on the street and the wilds alike.

## A Mountain of Comfort.

Wasatch has long been a staple in the Browning apparel line. This versatile fieldwear is appreciated for its soft, comfortable fabric that is ideal for a variety of conditions. From cool to hot temperatures, spring turkey to summer dove to fall deer hunts; Wasatch represents the basic gear hunters need for the majority of their time in the field. Wasatch fieldwear features a traditional full cut, and the rugged, lightweight six ounce cotton fabric maximizes breathability and moisture transfer when you are in motion.

### WASATCH SHIRT

- Lightweight 6 oz. cotton
- Silvadur™ technology provides long-lasting odor control
- Seven-button front with long tails
- Double-pleated back for full range of motion

## Wicked Good Protection.

When wicked waterfowling weather sets in, that's when you'll appreciate the protection of Browning Wicked Wing. For 2019 Wicked Wing has undergone a massive overhaul, with a new focus placed on maximizing comfort in the field so that you can keep your eyes to the sky instead of dreading cold and wet conditions. In partnership with our friends at Gore®, this new line of gear offers improved resistance to water and wind blowing across the marsh. Insulation from PrimaLoft® and high-pile fleece offer proven protection from the frigid temps you experience on a frosty morning in a layout blind.

## Upland All-Terrain.

Time-honored traditions in upland game hunting call for a fine over and under shotgun, a keen canine and enough wool and waxed cotton to keep the elements at bay. While tough fabrics like treated canvas and cotton certainly had their places in the field, modern technology is always at the ready to keep you warmer, drier and more comfortable as you tick off the miles and bag your limit.

## Get Lost.

Should your upland excursions require covering more ground, or you simply appreciate maximum comfort, Bird'n Lite vests will get you there and back again. Made with heavy-duty construction from durable materials, Bird'n Lite provides the carrying capacity and comfort of a backpack with the look of a traditional hunting vest. The load bearing system distributes weight between your shoulders and hips, and stabilizes that hefty bag limit to minimize fatigue.

NEW

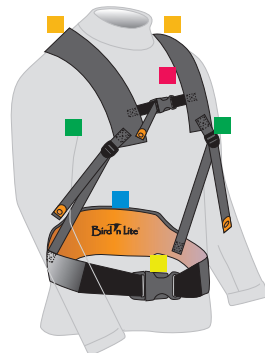

Back

### BIRD'N LITE STRAP VEST 2.0

- Weight distribution system secures the load
- New heavy-duty polyester overlay fabric
- Padded blaze shoulder straps
- Front-loading bloodproof game bag with load stabilizing strap
- Oversized shell pockets with internal shell loops and snap closures
- Front pockets designed to hold full box of shells
- Built-in rucksack
- Adjustable belt
- Lined handwarmer pockets
- Integrated sleeve and hose guide for water pack
- Water bottle pockets
- Available with or without Pheasants Forever® embroidery
- Regular Fit

DESCRIPTION	CODE	MSRP	SIZE
Tan/Blaze	30543358	149.99	M-L, XL-2XL
Tan/Blaze without PF Embroidery	30593358		

- Wide nylon shoulder straps transfer the load to the shoulders, yet still allows you to swing through the bird naturally.
- Quick-release sternum strap helps keep the weight centered between your shoulders for improved balance and less fatigue.
- Fully-adjustable load bearing straps place the load's center of gravity where it's most comfortable to carry.
- Ergonomically-contoured, padded adjustable waist belt offers added support to your lower back and allows part of the load to be carried on your hips for greater comfort.
- Quick-release composite buckle allows for quick on and off.

# Meet the Pros.

From world-class shooters to the hardest of the hardcore hunters to unique personalities, the members of the Browning Pro Staff all share a love of the outdoors, the shooting sports and the greatest gun brand in the world. Pro Staff members are chosen for their skill, professionalism and enthusiasm in promoting the Browning brand. Look for these faces at major shooting events and on your television screen.

Mike Carney

Curt Wells

## Bowhunter

*Bowhunter TV* strives to educate, entertain and demonstrate to viewers how they can become better archers and more effective hunters, and to inspire their print, digital and TV audiences to enjoy bowhunting as a year-round pursuit and family lifestyle.

Host Mike Carney has worked on *Bowhunter TV* since the program's inception in 2005. A hardcore equipment junky, Mike loves testing and evaluating bowhunting gear on the program's popular Tech Talk segment.

Living in Illinois, Mike is a whitetail fanatic with a tremendous understanding of property management. When he isn't hunting, his fingers are in the dirt, improving the local herd health and potential of the ground he manages.

Chris Denham

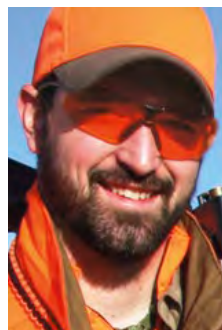

Nate Simmons

## THE WESTERN HUNTER

Chris Denham and Nate Simmons are the hosts of *Western Hunter TV*, a program committed to teaching and entertaining viewers hunting in the vast expanse of the American West.

Chris brings notable credentials to the program. He is the publisher of *Western Hunter Magazine* and has spent the better part of 30 years in the hunting industry. As a passionate hunter and guide, he possesses a great deal of knowledge about the region and its game animals. One of his most important endeavors is the group Outdoor Experience 4 All, which helps children with terminal or life-limiting illnesses get into the field on a hunting trip of their own.

Nate Simmons is an accomplished outdoor writer and the producer and co-host of *The Western Hunter TV*. As a bowhunter, Nate is known to take extreme to a new level with his hardworking, do-it-yourself style.

Andrew Vavra

Logan Hinners

Anthony Hauck

Andrew Vavra, Logan Hinners and Anthony Hauck are the hosts of Pheasants Forever's *Rooster Road Trip*, an exciting online program that takes hunters road tripping across the country, hunting exclusively on public land, in pursuit of America's most popular upland game bird.

Their dedication to hunting and conservation goes well beyond the entertainment industry. Andrew is a published writer, accomplished blogger and serves as the Marketing Manager for Pheasants Forever. Logan is a die-hard hunter and designer. Anthony also works at Pheasants Forever as the Director of Public Relations.

Go to [pheasantsforever.org](http://pheasantsforever.org) to view episodes of *Rooster Road Trip*. While there, join Pheasants Forever and help ensure the future of the pheasant and its habitat.

Foster Bartholow

Matt Bartholow

## FOSTER AND MATT BARTHLOW

Foster and Matt are stars on the ATA trapshooting circuit, and both shoot Browning trap shotguns. The brothers came up through the Scholastic Clay Target Program and have made their mark within the pro ranks. Matt has earned several Grand American Championship titles, holds the 2nd longest recorded singles run at 1,840, achieved his Grand Slam (and Grand American Grand Slam), owns several South Dakota State Champion titles and is a three time All-American Team member.

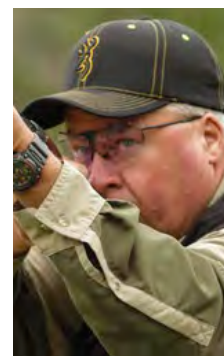

Foster is also a Grand American Champion and set a shoot off record at the Grand with 200 targets in program and 900 in shoot off. He is a two-time All-American Team member, achieving his Grand Slam (and Grand American Grand Slam) shooting 200 singles, 100 doubles and 100 handicap from the 27 yard line. He too holds multiple South Dakota State Champion titles.

As host of the popular TV series, *Avian-X*, Fred Zink shares the excitement of waterfowling as he embarks on hunts throughout the U.S. and Canada. Along the way he shares the secrets of his highly successful calling tactics and strategies.

Fred founded Zink Calls™ in 2001 as a way to put exceptional calls into the hands of waterfowlers and professionals who demanded high-end calls. A nationally-recognized goose caller in his own right, Zink's business continues to grow and set new standards in the industry.

Zink's high-octane 24/7 DVD series is designed to speak to hunters with exciting footage that shares his hunting experiences with his viewers.

## ROBBIE PURSER

Robbie Purser started shooting skeet at the age of six. During his career he has earned an impressive list of prestigious titles including 1980 World Skeet Champion, two-time NSCA Champion, Zone 4 Champion, Quail Unlimited Champion, four-time Ducks Unlimited Champion and is an ESPN Great Outdoor Games gold medalist. He is a twelve-time All-American Team member, a member of Team USA and a ten-time Georgia State Champion. Robbie is also set to become inducted into the National Sporting Clay Association Hall of Fame in 2018.

## JOHNNY MEITZEN

Johnny Meitzen has been a Browning Pro Staffer for years and is a member of the Texas Sporting Clays Hall of Fame.

Johnny started shooting competitively in 1987 and over his lifetime has fired over 500,000 shells in competition, winning a number of shooting titles including two-time NSCA Nationals Vet Champion and two-time NSCA Nationals FITASC Vet Champion. Johnny is a six-time All-American Sporting Team member, two-time Team USA Sporting member and two-time Team USA FITASC member. He also has many state and zone championship titles to his credit. He is an NSCA Level III instructor and a die-hard Citori man who currently shoots a Citori 725 Sporting.

## TURKEY HUNTER

Russell Knight grew up hunting under the tutelage of his father. As a hobby, they enjoyed filming their hunting adventures. They would later watch the films and use them as a tool to increase their success. Little did he know, or even imagine, that someday his love of the outdoors would become his career. In addition to hosting *Turkey Hunter*, Russell now operates as a field producer and videographer for several major hunting and fishing television productions.

Gohunt.com is the community for western hunters to go for all the information they need to pursue their passion for the outdoors.

Gohunt.com started in early 2013 when Lorenzo Sartini realized that although there are more than two million active big game hunters in the western USA, there wasn't a place with feature articles, photo galleries and valuable editorial content. He set out to change that.

Gohunt.com is now an open, interactive platform that encourages active conversations and connections among hunters and features breaking news, hunting lifestyle content, expert advice and data-based insights.

Bob Redfern's experience as an outdoor TV personality extends back more than 35 years. With his lifelong devotion to promoting hunting, shooting sports, fishing and conservation efforts, Bob ventured out on his own in 2001 to begin the highly successful outdoor series, *Bob Redfern's Outdoor Magazine*.

Bob enjoys bringing the outdoors and the best it has to offer to the screen each week, featuring real-life hunting and fishing adventures with featured segments on how to succeed at hunting, shooting and fishing as well as the award-winning Sportsman's Table weekly cooking segment. Each week Bob features hunting and fishing destinations around the country for the sportsman who seeks the best places to enjoy the outdoors year round.

Levi Morgan

Samantha Morgan

Born in North Carolina, Levi Morgan began competing and hunting with a bow when he was six years old. Since then, he has amassed an impressive list of archery results, including eight World Championships and 40 National Championships. Now you can follow along with Levi, and wife Samantha, on *Bow Life TV*.

*Bow Life TV* brings you along as Levi and Samantha divide their time between chasing trophies in archery competition and harvesting game in the field. On air, their love and knowledge of the sport and the surroundings helps to immerse viewers in each episode.

William Russell

McLean Russell

William and McLean Russell grew up on the family ranches in Texas and have had guns in their hands since they could walk. Taking full advantage of the wealth of hunting and shooting possibilities offered in their home state, the brothers have put their passion for the outdoors into *Boundless Hunting TV*.

This exciting show takes the Russell brothers across the globe in search of life-changing hunting adventures. While they may be brothers, the pair are quite different. William prefers to take extreme hunting to the next level with his knowledge of tracking and survival techniques, and McLean uses his interests in photography, cooking and game management to bring a unique twist to the program.

What really sets *Boundless Hunting* apart from other hunting shows is its message of family and the bonds created by being outdoors.

Rick Kreuter

Julie Kreuter

Husband and wife hunting duo Rick and Julie Kreuter host *Beyond the Hunt*. This unique program follows this dynamic pair on more than just their hunting adventures; it also focuses on wildlife conservation and land management.

Rick grew up in the outdoors of Wyoming and adventure has been a part of his life from an early age. After graduating from college, Rick received his guide license and soon became an outfitter full time.

Julie has also had a love of the outdoors from her earliest days in Nebraska. She and Rick were married after she received her degree in Physical Therapy.

As their outfitter business grew, so did their success and popularity. After 16 years of guiding hunters, *Beyond the Hunt* has become their own adventure.

Kyle Barefield

Cole Barthel

*All Things Hunting* is an all action, real-as-it-gets hunting series hosted by Kyle Barefield, Cole Barthel, and their family and friends.

Kyle lives in Monroe, Louisiana and grew up hunting with his father and grandfather, and would hunt everyday of his life if possible. Most of Kyle's hunts are self-produced from the field to the editing booth and he strives to improve the quality of outdoor TV, constantly looking to sharpen his edge on creating a truly entertaining hunting film.

Cole Barthel is from Rayville, Louisiana. His obsession for hunting comes from being introduced to the great outdoors at a very young age by his father. To Cole, hunting means enjoying all of nature and creation, while making lifelong memories with family and friends.

*All Things Hunting* takes viewers on hunting journeys across North America, grinding day in and day out, chasing after big game and birds. Produced in a format that is certain to keep you on the edge of your seat and waiting for what's next, the boys take no shortcuts to provide you with a thrilling hunting series that pays homage to their families' hunting traditions while keeping the cameras rolling.

Once mired in the corporate world, Willi Schmidt took the leap and decided to pursue his passion for hunting as a host on outdoor TV. This new pursuit led him on the path to showcase the way he loved to hunt, with the challenge of succeeding and failing on his own.

As the host of *Pure Hunting*, Willi takes you on his do-it-yourself adventures and shows that pure hunting opportunities still exist for those willing to put in the effort. *Pure Hunting* explores the training, nutrition and gear that goes into the preparation of a self-sustained hunt. Willi appreciates the journey leading up to the hunt, not just the result, and the friendships made and camaraderie experienced along the way.

Derek Dirnberger is the chief hunter of *The Break*—an exciting program that follows a group of hunters with families and real jobs that use every “break” they get to head into the field.

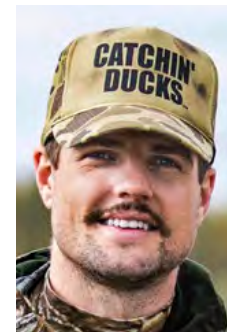

Derek grew up near Benton, a small town in southeast Missouri. He's been an avid hunter since childhood, and laid the foundation for the show when he was a teen, spending all of his free time hunting whatever was in open season.

Now, Derek's main passion is the year-round obsession with bowhunting whitetails, shed hunting, food plots, checking trail cameras and hopefully finishing up with a mature buck. Derek is also pulled into the woods every spring to chase Missouri longbeards.

Craig Morgan has a resume as varied as it is impressive. His journey to become one of country music's most renowned artists began as an 18-year-old EMT, followed by ten years in the U.S. Army, where he took up performing and songwriting. After the Army, he moved to Nashville to hone his craft. Now, Craig performs frequently for military audiences and is a frequent guest at the Grand Ole Opry.

All parts of his life come together on his television show, *Craig Morgan's All Access Outdoors*, now in its eighth season. The hit reality show gives viewers an all access, backstage pass to Morgan's travels as he and his crew pursue big thrills and big laughs across the globe in a quest for the ultimate adventure.

Bud Fisher

Mike Fisher

Ryan Hawkins

Bud Fisher, Mike Fisher and Ryan Hawkins are the creators of *Catchin' Deers* — The Funniest Brand in Hunting. The folks at *Catchin' Deers* really know how to put things into perspective, they believe that you should take your hunting seriously and yourself lightly. In addition to their great line of comfortable, and humorous, camp and lifestyle apparel, they also produce an excellent video series that showcases their unique philosophy.

Matt Morrett

Josh Grossenbacher

Hunter Wallis

Come along with the Avian X Team as they take their calls, products and skills into the field after big birds of a different feather — wild turkeys. Join hosts Matt Morrett, Josh Grossenbacher and Hunter Wallis as they travel the country putting their top-notch skills to use. What skills, you ask? All three of them hold a variety of turkey calling championships to their credit, from world championships to National Wild Turkey Federation® Grand Championships. When you combine the talent of these three with the skills of Avian X and Zink calls founder, Fred Zink, it's clear why their company tag line is “A Champion in Every Call.”

Avian X turkey programming gives viewers the unique opportunity to watch — and listen — first hand and experience how these pros get it done.

Tom Miranda's television career has spanned close to 30 years. As the owner of Outdoor Production Company, producer of four hunting series seen on three networks, he prides himself with high quality, technical coverage of the challenges of big game bowhunting. *Territories Wild* is Tom Miranda's personal video account of his world class adventures. Come along with Tom on hunts that range from African Safaris to high mountain sheep camps to wilderness river floats to desolate tundra.

Ralph Cianciarulo

Vicki Cianciarulo

RJ Cianciarulo

Ralph and Vicki Cianciarulo have spent the past 30 years educating and entertaining bow and rifle hunters as outfitters, video producers and TV personalities. This award winning pair has travelled around the globe in search of hunting adventures, and now their son RJ has joined the ranks to make it a family affair.

Originally hailing from Chicago, Illinois, Ralph grew up with a bow in his hands. He eventually opened *Archer's Choice*, an archery pro shop. It was here the pair met when Vicki, who had caught the outdoor bug herself, strolled through the front door looking for her first bow. The rest is history.

Browning is honored to be a sponsor of *The Choice* and *Archer's Choice*, and to put products to the test in the hands of one of the most recognizable families in the hunting industry.

Jeff Foxworthy

Toxey Haas

## THE GAMEKEEPERS

World famous comedian and actor Jeff Foxworthy and Toxey Haas, founder of Mossy Oak® share the hosting duties on *The Gamekeepers*. No matter where or what you hunt, it starts with the land. Dating back to President Theodore Roosevelt, hunters were the first conservationists, the stewards and caretakers of nature, doing what is possible to preserve, protect and pass on this knowledge. Mossy Oak *The Gamekeepers* highlights this spirit of conservation and shares the ways to do it. This heartfelt program conveys the belief that it is the current generation's responsibility to teach future generations how to preserve our hunting heritage.

## JARED WIHONGI

Originally from New Zealand, home of the legendary Maori warriors, Jared Wihongi has more than 25 years of martial arts experience and is trained in the Filipino blade-fighting system of Pekiti-Tirsia Kali.

As a sought after instructor, Jared has worked with the U.S. Army Special Forces Groups, the DEA, Philippine National Police Academy, Special Action Force commandos, Marine Force Recon and Germany's GSG-9 to name a few.

Jared's work meets the real world needs of discerning users like you.

## GREG JORDAN

What began in 2007 as shooting in a few local USPSA matches has become a full-fledged career for Greg Jordan.

Like many shooters, Greg caught the bug and his new hobby soon turned into a passion. Two short years later he earned the title of USPSA Grand Master and found a new interest, 3-Gun competition.

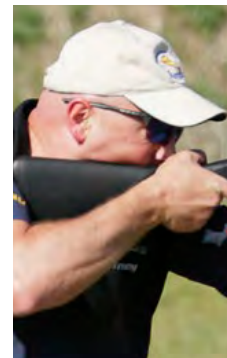

Greg's hard work and commitment to practice, training and equipment continues to pay off. In 2014 he became 3-Gun Nation Champion with his Browning A5.

## ALEX WAMPLER

Californian Alex Wampler began shooting sporting clays in 2004 and by 2007 had earned her way onto the All-American Team. In addition to winning the 2013 US Open Lady FITASC Championship, she has been National Lady Sub Gauge HOA champion, regional champion and California Ladies Champion each on several occasions.

Her shooting interests also go beyond the range. She is a guide at Birds Landing Hunting Preserve, an NRA Range Safety Officer and attends the University of California Davis with aspirations to become a veterinarian.

## TOMMY THACKER

With a nickname like "Tommy Gun," you had better be fast on the trigger — especially if you are competing on the 3-Gun Nation tour.

Tommy Thacker is ranked among the best 3-Gun competitors in the nation, amassing an impressive list of victories and top finishes that includes winning the 3-Gun Nation Pro Series Championship in 2011 and 2012. With his success, Tommy has his pick of autoloading shotguns — and he chooses to get it done with his Browning A5.

## SHILOAH MATTOON

Born in the small town of Kamiah, Idaho, Shiloah Mattoon fondly recalls that firearms have always been a part of his life. His competitive shooting career began in 2011, and his early experiences ignited Shiloah's passion for 3-Gun competition. Now he competes against the best shooters in the 3-Gun Nation tour.

In addition to having a full-time job, Shiloah spends hours practicing and takes an athletic approach to the sport, training daily in the gym.

Shiloah shoots a Browning A5 with absolute faith in its unwavering reliability and Speed Load Plus feature.

## TENNILLE CHIDESTER

Hailing from Salt Lake City, Utah, Tennille Chidester began shooting competitively in the USPSA ranks in her mid teens. Now she has found her true passion as a competitor in the 3-Gun Nation Pro Series, with her reliable Browning A5 speeding her through the shotgun events. You may also recognize Tennille as the winner of the fourth season, and now host, of *Ammo and Attitude*.

In addition to the fast-paced competition, it is the amazing people and camaraderie that draws Tennille to the exciting sport of 3-Gun shooting. She especially enjoys introducing others to the sport and encouraging their development.

### ALPS

**BROWNINGCAMPING.COM**

4575 HWY. 185, NEW HAVEN, MO 63068 | (800) 344-2577

#### Camping

Hunting camps require sturdy and weather-resistant tents, warm and comfortable sleeping bags and air pads for a good night's sleep, and portable camp furniture that is durable and comfortable.

#### Hunting Blinds

Browning portable hunting blinds take the blind to the game. Available in a variety of sizes and styles for every season, these feature packed self-standing blinds can be comfortably outfitted with matching Browning-branded folding chairs and hunting seats.

## Official Licensed Products.

As much an emblem of the outdoor lifestyle as it is of the Browning brand, the Buckmark is the most recognizable symbol in the firearms industry. Whether on your vehicle, worn on T-shirts, caps, or tattooed on your body, the Buckmark is a statement about your lifestyle. We have partnered with the companies on these two pages to represent the Browning brand with quality products and to share our commitment to the outdoor industry.

### SIGNATURE PRODUCTS GROUP

**BROWNINGLIFESTYLE.COM**

1490 N. 2200 W., SALT LAKE CITY, UT 84116 | (800) 553-1098

#### Automotive

Automotive accessories that showcase the iconic Buckmark, with a full line of quality interior and exterior products designed to provide protection and personalization, and complement the outdoor lifestyle.

#### Casual Sportswear

Browning lifestyle sportswear includes outdoor and casual belts, rugged work wear, plus performance and classic casual pieces that provide style and comfort day in and day out. You'll appreciate the unique details and thoughtfully selected colors.

#### Pet Products

When your best friends and favorite hunting buddies happen to have four legs, treat them right with the full line of Browning pet products. Both you and they will enjoy their time afield when they're outfitted with Browning pet products.

#### Socks

From hunting in a frigid treestand to lounging in the den, Browning offers comfortable socks that are ideal for every outdoor and indoor adventure. Featuring quality construction and top-of-the-line materials, Browning socks come in a variety of styles, colors and thicknesses.

## 2019

### *Browning is Committed to Serving You*

Every effort has been made to ensure that all product photographs, descriptions and specifications in this workbook are accurate; however, inadvertent errors may occur. Changes in design or materials due to our continual effort to improve products may result in specification changes before subsequent publications are issued. Browning reserves the right to modify or change specifications without notice.

### *Be a Safe Shooter*

Read and follow all safety information in the owner's manual provided with each firearm before use. Additional copies are available for free download on the Browning website. Browning endeavors to make the safest firearms possible; however, firearm safety begins with you. At all times treat any firearm with intense respect for its power and potential danger. Always point the muzzle in a safe direction. There is no excuse for careless or abusive handling of any firearm.
